1. I have been informed by contacts within pro-Fidel Castro groups that Castro agents in the US are attempting to determine whether there are any military training camps, or other facilities, in the US, and if so, their location and operation. The source has determined that there are no such facilities.
2. The source has been advised that the following individuals are being suspected of being involved in the Cuban Revolution: Manuel Humez, former aide to the late Emilio Cisneros; Banos, former employee of the Jose Martí International Airport; Angel Banos, who arrived in the US with Gutierrez Menoyo, Jesus Dieguez and Eva Gutierrez, not further identified.
