comrade who learns the details of foreign commerce in order to be able to converse well with people. Apparently this would be a type of overt specialty that they would give to the comrade who is order to hide the true purpose of his mission which would be to collect information for them as AMAUTO-1 is heard to comment that they have to "invent" the work of this comrade in order that he might have a definite specialty. AMAUTO-1 seems to be thinking of a specific person because he comments that he speaks two languages, that he likes economics, and adds that at the end of two months he would be ready.

3. Following the return of AMADRIFT-1 on the 7th of March 68, via PBRUMEN national flight, after home leave in PBRUMEN, the QUDOZE material reported extensive conversations between AMADRIFT-1 and AMAUTO-1 on future plans. Two were of MEQUILLE interest:

A. QUDOZE Report of 13 March 68. AMAUTO-1 says, "this is... with the American movement in Spain and with the monopoly that they have here". He says, "In my judgement our fundamental problem in Spain from the political point of view is to ascertain what there is behind all this, what is there here, we must get ourselves in motion". "That is a very important point for us, to ascertain what are their names, who are those who are here, how they (the Americans) are moving". He adds that, "If we are able to find out, we will be able to stop them completely."

B. QUDOZE Report of 14 Mar 68. AMAUTO-1 says that they have to find out "what are the forces in Spain, with the possibility of our having access (to them)". He comments that Spain, is at a crossroads internally and externally. He says they have to find out what is happening in Spain, whether they give the workers liberty to strike, etc. He again repeats all they have to find out, mentions finding out "who are the monarchists, what forces they represent, to what forces are they united, who are the elements that are being financed by the CIA and by the American Embassy". "Which are those scattered elements that the newspaper of the Movement has accused of being backed by the American Embassy, what financial power do they have?"

4. AMAUTO-1 had apparently set great hope on the 1 May 68 anti-government demonstration by workers and students which, as Headquarters is aware, the police effectively handled. In a 2 May QUDOZE Report, AMAUTO-1 repeatedly commented on what a tremendous failure the demonstration had been; he kept asking AMADRIFT-1 what had happened, why the Spanish people had not responded, why the workers had not, and finally said "The next demonstration we are going to name here a member of the Embassy".
