CIA - State Dept. integration

"Sig % of cover - where S.D. employees are aware that CIA emp. is in fact employed by
 More integrated cover where a person would do a full-time S.D. job & also
 at CIA job which is unbeknownst to rest of S.D. employees. — could be
 a "deep official cover" as well as a "deep cover"

Central
Cover Staff

Am. citizens or most foreigners being used in some manner would, as a
 general rule, have a security check.
 If that person was an official of another govt. agency or from military,
 that org. would have to be consulted.
 Probably would use that org's

PLS - Policy & Co-ord. Staff

↳ would be involved in co-ord. of a project in which both the CIA's
 another org. was involved

To the extent of CIA involvement, files would be maintained. That is
 not to say that ^{the} other would not have more comprehensive files.

Project file

Graphies -

OCR - Office of Central ^{Reference - part of NTAC} Registry. photos of ships, things of intelligence
 nature are maintained there.

Photos of prominent persons — Bushaw

Photos of tourists or random groups would not be of interest

Business Office Vouchered / Unvouchered Trade

P&L: Prescribed & limited - refers to communications which are
 compartmentalized

Opening of P&L channel of comm. is determined by one of 3 persons
 — Chief of PLS, ADAO, or DAO

SECRET

(4)
This has always been true - In earlier times, it may have been restricted by even fewer persons.

P: & communication may, in time, be downgraded; may never be destroyed.

as it possible, in context of a CI threat, in case of an hypothetical that info. would not be compiled in a 201 file. i.e., it is conceivable that many docs. could exist in the system & not be compiled into a 201 if there doesn't appear to be a reason for a 201.

Pseudo: false name used for purposes of communication

Crypto: used to id. area of ops. by digraph, followed by group of letters. You cannot assign a cryptonym w/out having a 201.

If hypo. ^{Am} soldier has given away mil. secrets & then defects, a 201 file would not necessarily have been opened - it might be a mil. matter.

CI staff may have had interests in defector

In early 60's, there was an interest in defectors.

Dan's hypo based on ZRRIFLE:

574A form: request to put doc. into system

? 1991 " " " " " into index

In op. such as ZRRIFLE, docs. may be severely P: - might not go into system except upon determination of officer handling case.

"Sleeper agent" hypo: to run 2 or 3 sleepers in comm. China SECRET
doesn't necessarily have to know @ it since it is being run from Hq. - from ADP to CI staff - reasonable scenario

Would a 201 be opened on sleeper?

Competing of secrecy vs. being able to keep track of sleeper

Change of sleeper to Am. soldier defecting to E. Germany - report comes in from reliable source stating that sleeper is providing info.

- no 201 opened - C.O. in L. Sec. -
