**3) Intelligence Production:**

UFG-1572 - "Status of Equipment at the Nico Lopez Refinery & UK, Czech, and Soviet Assistance in its maintenance: Shipment of Gold Bullion from the Refinery to the USSR."

UFG-1585 - (As above)

UFG-1607 - (As above)

UFG-1622 - (As above)

UFG-1628 - (As above)

**4) Development and Plans:**

All planning phases of AMSPELL activities supported by JMWAVE at the present time are subject to the results of meetings with AMSPELL concerning increased control, and, the decisions of JMWAVE to continue a support relationship if an acceptable degree of KUBARK control can be established.

**B. AMHINTS:****1) General:**

a. As reported in Reference B, the most important AMHINT development during September was the exfiltration of AMHINT-53. This was also significant for JMWAVE, since all negotiations with AMSPELL would be transferred from AMHINT-2 to AMHINT-53. Although AMHINT-53 will undoubtedly be fully briefed and re-indoctrinated by AMHINT leaders concerning AMSPELL present status and operational relationship with JMWAVE, AMHINT-53 is a mature and astute leader and can be expected to appreciate the broad scope of JMWAVE-AMSPELL operations.

b. In the Psywar field, the AMHINTs in PBRUMEN continue to produce "Trinchera" on a hand-operated mimeograph machine in Havana and distribute about 10,000 copies monthly. They are also committed to the collection and transmission of reports and photographs on the Soviet buildup, at least until the DAMSON intelligence operations are begun. This activity is in direct support of the AMSPELL policy cited in Paragraph A.1) above. The AMSPELL propaganda section is divided into four departments to carry out this program: PBRUMEN, Latin American, PBRUMEN Exile Community and PDPRIME.

c. <sup>24</sup> Diplomatic pouches intercepted for JMWAVE by AMBLEAK-1 have revealed much of AMSPELL operational planning not heretofore reported. In a series of letters written by the AMSPELL national coordinators in exile to their opposite numbers in PBRUMEN on 20 September, it was indicated that:

i. Negotiations by AMHINT-2 in Caracas, Costa Rica and Panama are practically completed for an AMSPELL operations base. (Letter from Bernabe PENE to AMHINT-40)

ii. AMSPELL has levied intelligence requirements on AMHINTs in PBRUMEN for sending out information on PBRUMEN ports that can be attacked from the sea. (Intelligence Plans Numbers 5, 6 and 7, in a letter from AMHINT-39 to "Jesus", National Coordinator for Intelligence.)

iii. In the interim, reports on Mariel, Cabanas, Bahia Honda, La Habana, Matanzas and Cardenas are requested on a continuing basis.

CONTINUATION OF DISPATCH	CLASSIFICATION S-E-C-R-E-T	DISPATCH SYMBOL AND NUMBER UFGA-6140
<p>d. Subsequently, <sup>24</sup> <u>In an incoming pouch</u> and probably crossing with the foregoing communications, a series of letters from the National Coordinators in PBRUMEN reported a severe blow to ANSPELL clandestine organization. Jore MEDINA Bringier ("Mingo"), National Coordinator for Military Reception and Supply, reported that AMHINT-40 (PBRUMEN National Coordinator) had been missing. (Later reported as arrested and being held at G-2 Headquarters on Ave 5 in Miramar.) Also, "Juan" and "Miguel" were arrested in Havana. Several others were missing. MEDINA went on to describe security measures implemented and report on a re-organization of the National Coordinator Committee. He closed with a plea for a small shipment of small arms for defensive use, clothing and medicine, and a full-scale propaganda effort if AMHINT-40 should be sentenced to summary execution.</p>		
<p>e. <sup>24</sup> <u>In this same pouch</u>, the National Coordinator for Propaganda, Nicolas PEREZ Diez-Arguelles ("Jose Alfredo") rendered a detailed report on Agit/Prop assets in PBRUMEN. The printing and distribution of "Trinchera" has been moved up to every fortnight, and efforts to get it printed on a commercial printing press in Havana appear to be successful. Regular couriers are being trained for delivery of the newspaper to the provinces. PEREZ also reported their progress in mounting two clandestine radio transmitters for Agit/Prop purposes, one in Las Villas and one in Havana. These are powered by 110 volt generators usually found on a small farm. It is projected to transmit a regular program, probably entitled "Tele-periodico Trinchera". The report does not explain what counter measures will be taken to prevent GOC detection. Finally, PEREZ describes an Agit/Prop program already in progress: First a plan for printing and marking walls with their organization abbreviation, carried out in one operation, synchronizing municipal and borough teams for the job. As a follow-up phase, large cloth banners bearing the same letters will be raised or tended in congested areas and photographs taken for publication in "Trinchera". Also, with the aid of their Intelligence Section, AMHINTs have penetrated two radio stations in Havana and are identifying all Sov/Bloc personnel employed there, their security practices, addresses and routes for commuting.</p>		
<p>2) <u>Total AMHINT Support for September 1962:</u> \$5,000.00 (Included in ANSPELL General section of this report)</p>		
<p>3) <u>Intelligence Production:</u> (Reported in ANSPELL General Section.)</p>		
<p>4) <u>Development &amp; Plans:</u> (See this section under ANSPELL General of this report.)</p>		
<p>C. <u>AMBARB</u></p>		
<p>During the reporting period no changes occurred <sup>01</sup> in AMBARB personnel assignments. With the exfiltration of AMHINT-53 <sup>01</sup> from PBRUMEN it is hoped that it will be possible to negotiate with AMBARB the still unsettled question of AMBARB funding. We will report further to Headquarters as soon as an agreement is reached with AMBARB on funding of AMBARB representatives in the field by local KUBARK Stations. For the present it can only be said that the AMBARB leaders are strenuously resisting any effort by JMWAVE to increase to more than eight the number of their people whom they will permit KUBARK to fund directly rather than through AMBARB Headquarters in Miami.</p>		
<p>The inspection tour of AMBARB-16 to delegations in Latin America resulted in the general report forwarded for your information as Attachment D; in reading this report, it is useful for reference purposes to examine Attachment E a report which the AMBARB office has prepared on its general progress since inception</p>
