E. Secondary tasks to be accomplished with AMTRUNK-10 are:

- (1) To debrief him on his activities since AMICE-14 recruited him in August 1963.
- (2) To collect operational information on other possible recruitment targets
- (3) To explore the possibilities of accommodating and supporting an infiltrated radio operator.

F. AMTRUNK-13 will attempt the recruitment of Jose Alberto SEMIDEY Isalgue, a close friend of AMTRUNK-13's for 18 years and a first cousin of AMICE-14. The following is a short biographical sketch of SEMIDEY:

Age 37-38 years old. Born in Matanzas, the son of Brig. Gen. Jose SEMIDEY, ex-Comptroller of the National Army and veteran of the Spanish-American War. SEMIDEY studied for one year at Purdue University, Indiana. He and AMTRUNK-13 graduated from the second class of ANACRA Pilot Training School in 1942. SEMIDEY flew for Expreso Aereo Inter-Americano and Cuba Aeropostal for about 11 years before he became Interventor or Administrator for the latter company after the Revolution. After Cuba Aeropostal was absorbed into Cubana, SEMIDEY held various positions of importance in Cubana. He also holds the rank of Captain in the Rebel Air Force and reportedly has made reconnaissance flights and black flights carrying arms and/or agents to and from other Latin American countries. SEMIDEY has a close friendship with Victor PINA Cardoso, the Director of Civil Aviation, and is reportedly close to Raul CASTRO for whom he is a frequent personal pilot. Because of the close former friendship between AMTRUNK-13 and SEMIDEY and because of reports from AMICE-14's family which indicate that SEMIDEY has become disenchanted with the Castro regime, both AMTRUNK-13 and AMICE-14 consider SEMIDEY a prime candidate for recruitment.

G. If SEMIDEY should be out of the country on a flying trip at the time of infiltration, AMTRUNK-13 will attempt to set up contact with Commandante Rene de los SANTOS Ponce, who is reportedly stationed in Las Villas Province with a unit of "Lucha Contra Bandidos", an anti-counterrevolutionary force. AMTRUNK-13 and de los SANTOS are friends from boyhood and, for a period of 6 or 7 years, de los SANTOS worked as an apprentice plumber for AMTRUNK-13's

father and lived in their home. AMTRUNK-13 and de los SANTOS also worked together in the 26th of July underground in Havana.

6. TIMETABLE

The scheduled date for the infiltration of the AMTRUNK team at the DRP is 2200 hours, 7 February 1964. The exfiltration of the five team members with the AMTRUNK IC and rendezvous with the mother craft at the DRP is 2355 hours, 17 February, with an alternate on 18 February. If exfiltration is not successful on either of these dates, the radio operator will be in contact with the base and contingent plans for exfiltration can be set up through this medium.
