19 April 1974

MEMORANDUM FOR THE RECORD

SUBJECT: Limited Release from Secrecy Agreement--

Bernard L. Barker and Eugenio R. Martinez

1. In preparing the letter of 18 April 1974 (copy attached) from the General Counsel to Daniel E. Schultz in response to Mr. Schultz's letter of 9 April, I obtained from Mr. Chris Hopkins, WH/COG (x-1325), copies of (1) a secrecy agreement (in Spanish) by Eugenio Rolando Martinez dated 3 April 1965, (2) an unexecuted contract (an executed copy cannot be located) between the U.S. Government and Mr. Spencer O. Terteling (Bernard L. Barker) and (3) a termination secrecy oath signed by Bernard L. Barker dated 12 August 1966. Copies of these documents are attached.

2. After discussing the matter with Mr. David Phillips, C/WH Division, I prepared the 18 April letter adding the second sentence of the first paragraph at the request of Mr. **Joe Skura**, AC/WH/CCG (x-1948). After completing the letter, I coordinated it on 15 April 1974 with Mr. **Skura** and agreed to send him a copy of the final.

3. On 18 April I met with Mr. Schultz. I questioned him as to his intentions regarding the information he was seeking as, in the Agency's view, clearly there is no connection between the Agency's association with Messrs. Barker and Martinez and the subject case. Mr. Schultz explained that he, as the lawyer representing them, feels obligated to know what they did for the Agency in order that he can make the determination as to whether it is relevant to the current trial--currently scheduled for 17 June. He mentioned that to date both Messrs. Barker and Martinez had been completely unwilling to discuss any aspect of their duties with the Agency. They had been reluctant to even acknowledge

Photographs of Grain Silos at
Ensenada de Guanabacoa, Regla,
Havana

9 March 1966

1

1962 - December 1965

United States, Miami
(4 March 1966)

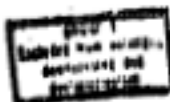

UFG-8016

Angel M. Maceda Sanchez (A 14 GMM 180) a Cuba refugee who was a welder and mechanic employed by the Cuban Ministry of Construction and participated in the construction of silos at Ensenada de Guanabacoa, Regla, Havana. Maceda departed by air from Cuba on 16 December 1965 and arrived in the United States that same day.

1. In 1962 the Government of Cuba drew up plans for the construction of a grain silo complex at Ensenada de Guanabacoa, Regla, Havana on property adjoining an edible oils manufacturing plant which had a daily capacity for processing 300 tons of soy beans. Actual construction of the silo complex started on 3 November 1964 following the September arrival of a number of Polish technical personnel who were to supervise the construction.
2. The silo complex consists of 36 silos, each 37 feet high and six feet (as received) in diameter. The complex is arranged into two groups of 18 silos each with a building to be built between the two groups. The top of the silos will be interconnected by a railway. In addition a system of tubing and pipes will interconnect the silos at the bottom.
3. On deposit in the Graphics Register are four photographs of the silo complex under construction which were probably taken about December 1965. Copies of these photographs may be obtained by requesting the following control numbers:

Field Comment: Maceda, who is not a highly qualified technician, was of the opinion that an inordinate amount of cement was being utilized in the construction of these silos. He also stated that on one occasion a delivery of cement was returned to the cement plant as it did not meet certain technical specifications.
