OCCURRENCE:

SCA discussed various possibilities of accomplishing reconnaissance of Cuba, ranging from very low level coverage by tactical aircraft to high performance aircraft and drones. Over-flights and peripheral flights were discussed.

It was agreed that the first priority is one high performance mission in the western part of the island. ~~to be accomplished by a team of high performance aircraft~~ Depending on the results of this, a number of similar searches may be mounted. First mission was later approved by higher authority, but the decision on the second proposition left open.

The entire package was to be discussed at the NSIC, and by Chiefs on Wednesday, October 10th.
