b. UFGA 3926 dated 1 May 1962: 19-124-25

Dispatch from JMWAVE to Headquarters, which forwarded (not attached) a paper prepared within the Station on-the subject of the restructurization and revitalization of the C.R.C. Noted that The Station had major concern with regard to the extent and scope of non-CIA support, in the clandestine field, to the CUBAN exiles and to the CUBAN underground. It would appreciate info furnished by Hqs. or other field stations."
