OPF

For 28 years Mr. Newton Scott Miller contributed greatly to the Central Intelligence Agency; in earlier years as an operations officer in China activities, starting off in 1947 in Mukden, later Shanghai, Hokkaido, Yokosuka, Subic Bay, Bangkok and Addis Ababa, and in recent years (1964 to 1974) he has specialized in counterintelligence; his particular competence being in the management of sensitive counterintelligence cases of the Agency and of other elements of the US Intelligence Community. An aggressive, independent, articulate officer, he was personally involved in the current conduct and in planning the future of counterintelligence as a function. He has exercised leadership and command in his specialty and has left his imprint on the modus operandi of his field. He has dealt with penetration operations, double agent operations, and in Soviet and Bloc operations targetted against Americans overseas, as well as in disinformation and deception operations. His performance in these has been a model of conception and execution. He has been a hard working and gifted officer who often made self-sacrifices to get his tasks accomplished. On his departure into retirement it is appropriate to award Mr. Miller the Career Intelligence Medal in recognition of his years of superior performance.

MEMORANDUM FOR: Secretary, CSCS Board

SUBJECT: Recommendation for Promotion -
Newton Scott MILER

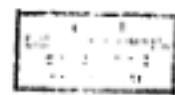

1. This is a recommendation for promotion for Mr. Miler from Grade GS-15 to GS-16.

2. The career of this officer has been notably marked throughout with relatively important responsibilities for his age. His youth, intense drive, initiative, self-assurance, capacity for work, natural talent for determining the objectives, recognizing the problem, organization of the work to be done, administering and supervising the effort, have long been evident to those for and with whom he has worked. Years of service during which he has steadily matured has resulted in a recognition, by supervisors and subordinate fellow-workers alike of his unusually wide experience, proven soundness of judgement, organizational administrative and executive talent coupled with powers of expression both oral and written and demonstrated capacity for work. He is unquestionably a very outstanding officer.

3. Having entered on duty as a Code Clerk (GS-05) in October 1946 following an A. B. degree in Economics from Dartmouth College in a Navy V-12 Program, he was soon assigned to Shanghai where he remained a short period before a TDY assignment to ~~open the communications station in~~ Seoul, Korea. He was assigned to Mukden and Antung, Manchuria from April 1947 to June 1949 where despite being barely 21 years of age and an official designation as Code Clerk as Grades GS-5/7, he conducted Agent operations into Korea, USSR and China. ~~He handled liaison with Chinese officers and counter espionage cases with X-2 officers.~~ His talents were recognized and after TDY training at Headquarters, he was assigned to Shanghai as an Intelligence Officer. There he performed as a Case Officer and engaged in stay beyond planning, supervision of other junior Case Officers, and assisted in the evacuation of other CIA officers. Before he was 25 years of age, he established the station and served as Chief of ~~Sapporo, Japan,~~ for some 20 months (1949-51).

INTERNATIONAL COOPERATION ADMINISTRATION
UNITED STATES OF AMERICA OPERATIONS MISSION TO THAILAND

BANGKOK, THAILAND

April 9, 1958

Mr. Theo E. Hall
Chief, Public Safety Division
International Cooperation Administration
Washington 25, D. C.

To: Morton S. Miller

Dear Theo:

You have by now received our unclassified cable, TOICA 1408, advising of our acceptance of the resignation of Morton S. Miller who has served since December 27, 1956, as Chief of our Criminal Investigation Branch, Public Safety Division, USOATY. It was with deep regret that I accepted the resignation since his departure on or about April 15, 1958, will be felt very keenly by both the Chief of the Division, Mr. Al Dubois, and myself.

Were it not for the pressing need of stateside medical attention for his wife and the fact that he should be with her during this period, I should have endeavored to prevail on him to take an alternative course of action. However, I am satisfied that there was no alternative and, hence, did accept the resignation effective April 15, 1958, it being noted that he is returning with his family to the States at his own expense.

This letter is to advise you of the facts leading to what would appear to be a sudden resignation. I also want to inform you that Miller's job performance here has, in my estimation, been of high order and can very easily be summarized by stating that he has performed most satisfactorily.

He has shown himself consistently to be tactful, considerate, and objective in his approach to his responsibilities and in the performance of his duties. I have at all times found that his judgment has been sound and mature. He has had warm and mutually satisfying relationship with his opposite numbers in the Thai police.

In furtherance of my statement of my confidence in him, I unhesitatingly designated him as Acting Chief of our Public Safety Division during Mr. Dubois' absence on TWT in Washington for the period March 9 through April 5, 1958. I naturally had continuing personal

contact with him during that period and observed his handling of himself in Executive Staff meetings. The various attributes which I cited above were clearly demonstrated during this period and, in fact, his performance during this period permits me to add that I am satisfied with his supervisory abilities.

I would have no hesitancy in recommending his reemployment by ICA if in the future the present family health situation is rectified.

Sincerely,

Thomas E. Houghton
Director

Office Memorandum • UNITED STATES GOVERNMENT

TO : CIA
Thru : CGIS
FROM : Chief, FBI

DATE: 21 June 1968

SUBJECT: Promotion for Newton Scott Miller

1. It is recommended that Mr. Newton Scott Miller, Operations Officer, [Redacted], CIA station, be promoted from CAP-7 to CAP-9. Mr. Miller has been carrying out the functions and responsibilities of a CAP-9 officer for sometime. Records indicate that he was put in for promotion to CAP-7 August 1, 1967. There is delay caused by the long route from [Redacted] to [Redacted] to Washington and by the reorganization of our promotion policy last winter, Mr. Miller was not promoted until March 2, 1968.

2. He has performed with distinction as an operations officer in [Redacted], discovering an important, highly organized North Vietnamese political movement and making operational contact with it. He is in the U.S. on TDY at this time and is greatly needed in the [Redacted] operational area to handle the operation referred to and at Peking when [Redacted] is no longer tenable.

3. Mr. Miller feels that he has been in grade longer than the record shows because he was under the impression that action in the field set the date of the new grade. While this is in error, the field practice of giving a detailed notice of what would result from promotion in way of deductions and not pay tended generally to give employees the impression that promotion actions were definite long before they actually were. This paper work has since been stopped.

4. Because this operations officer has performed in an outstanding way, because he is truly needed in the field, and because he has great long term value to the organization and should be encouraged to develop, it is recommended that he be promoted to CAP-9 effective on the completion of his TDY when ready for return to [Redacted].

Dear Bob,

Thank you for initiating action on my promotion and for attempting to obtain a transfer. I consider the situation about the transfer and realize that nothing more can be done in the field. As anticipated, however, since no complications will arise from my being carried on George's books.

I have signed the personnel action papers and this is, I hope, a rough draft of a job description.

Collection and dissemination of SI information; establishment and direction of Intelligence nets; interrogation of POW's and refugees from Communist areas and North Korea; coordination of intelligence nets being run into North Korea, Communist Manchuria, Laos and Usteria; at present am directing a CI net in Mukden which will eventually turn into an SI net.

MEMORANDUM IN LIEU OF FITNESS REPORT

SUBJECT: Newton Scott MILLER (012773)
Reporting Period 1 February 1973 - 31 January 1974

1. Mr. Miller is a uniquely qualified senior officer who has specialized in counterintelligence. He has particular competence in background and management of sensitive counterintelligence cases of the Agency and of the other elements of the U.S. intelligence community. He is independent and aggressive in viewpoint, articulate, and personally deeply involved in the current conduct and future of counterintelligence as an operating function. He has excellent potential in the exercise of leadership and command in the counterintelligence specialty; in this respect I regard him as being without a peer among the younger officers in the DDC.

2. He has been a most dependable worker and counselor in the reorganization that has taken place in the DDC over the past year. He has been an unfailing source of constructive, forward-looking suggestions and ideas, not only with respect to the problems in his own specialty, but in the work of CIOPS as a whole. He made specific contributions to the formulation of the CIOPS Charter (DON 1-1180) and its organizational implementation (DON 1-1216). As a consequence of the reorganization of CIOPS, he has been designated as an Associate Chief, Counter Intelligence Operations for Operations. In conformity with the indication of Chief, CIOPS he has reorganized his component accordingly and commands resources consisting of 17 officers and junior officers and six clerical personnel (one GS-15, five GS-14s, five GS-13s, three GS-12s, two GS-11s, one GS-08 I.A.; one GS-07 clerical, two GS-06s, three GS-05s) through which he covers Penetration operations, Double Agents, Soviet and Bloc operations against Americans overseas, Disinformation and Deception, and Counterintelligence COMINT. He has charged each of his operating sections with appropriate letters of instruction. He is meticulously informed of the work going on in each of his charges. Under his guidance and instruction there has been significant and measurable production and results during the past year. His performance of this task has been a model of supervision and execution and reflects most favorably on his capacity to exercise command and leadership.

3. Mr. Miler is a case specialist in sensitive counterintelligence matters. He has a career accumulation of exposure, recall, and operational insight into past and present activity along these lines with the FBI, State Department, Department of Defense, and the military agencies. He is skilled in the conduct of counterintelligence and security liaison on a senior level with these agencies. It is noteworthy that he has the confidence of the FBI leadership and in the past year he has worked on sensitive counterintelligence cases

Involving the Soviets and Bloc with the FBI in a highly productive and professional fashion. In addition he has taken the initiative in developing and conducting productive liaison on counterintelligence cases involving Penetration and Disinformation with the British services, MI-5 and MI-6, and the RCMP, the Australian, and the New Zealand security services. Mr. Miler's work with MI-5 and MI-6 has involved the production of studies and the chairing of meetings among liaison specialists in Soviet clandestine agent radio communications. He is a working committee member of the national inter-agency organization dealing with the planning and execution of deception. In Double Agent operations, working directly under the Chief, CIOPS in this respect. This task brings him into close and continuing relationship with the appropriate component of the Joint Chiefs of Staff and other interested Federal agencies. Because of his grasp and appreciation of the day-to-day problems of the charter responsibilities of CIOPS, he takes part actively and effectively in the training and doctrinal presentations within and outside the Office of Training (OTR). In particular, he participates in senior-level OTR training activities (the Mid-Career Course) and during the period under review in a special advanced counterintelligence course sponsored jointly by OTR and CIOPS (OSI/AF) and in FBI retraining of its field officers in counterintelligence matters.

4. In addition to his managerial and advisory functions outlined above, Mr. Miler is charged with the management of specific live operations under the direction of Chief, CIOPS. Among other things, he is charged with the handling of a difficult and complex Soviet defector his own time, and the presentation of detailed contact reports on a continuing basis and the maintenance of a very high order of personal and professional discipline.

5. It is impossible to say too much in praise-worthy description of the performance of this officer. He is one of the hardest working,

MAIL ROOM

Mr. Miler is an alert, intelligent, and experienced officer who has worked hard to produce results in what has proved over the past years to be an extremely difficult area in which to operate. With some notable exceptions, the station under his direction has failed to surmount these environmental problems and to develop productive operations against high priority targets. This should not be interpreted as meaning that the station has failed to mount new operations; merely that fewer key operations have been mounted than Headquarters would have desired.

Mr. Miler has been rated as adequate in his liaison with the Ambassador and other members of the country team despite the fact that the Ambassador, in a private conversation with Headquarters officers, indicated his dissatisfaction and that of the **Deputy Chief of Mission** with what the Ambassador described as Mr. Miler's failure to participate in **country team** activities and his failure to establish a satisfactory working relationship with the Ambassador. On the basis of the Ambassador's comments Mr. Miler might have been given a rating of "Weak" on this point. However, in view of the problems which sometime develop in the field in

He has been working against most difficult targets involving a government and a society enormously frustrating to deal with. In the light of this situation, it can only be said that the results of his efforts have been gratifying. Subject's performance, in any case, has been highly professional. He has succeeded in effecting a great amount of clarity regarding some fairly long-standing and complicated operational activities. He is particularly strong in the CA field. This is Subject's first assignment as a Chief of Station and it is interesting to observe that he possesses a great deal of natural managerial skill. In supervising subordinate personnel he has also considerable competence. Although he has experienced difficulty in the handling of one officer, there is no evidence that Subject has fallen short of doing his duty. Morale at his Station is high. Reference should be made to Subject's highly-developed sense of integrity and intellectual honesty. Another strong and useful attribute is his innate sense for anticipating possible Agency-Embassy problems and to act upon them before they evolve. If there is any weakness in Subject's performance as Chief of Station, it is probably the occasional belated communication to Headquarters. This Branch considers itself fortunate to have Subject in his present position and supports his desire to extend for one year beyond the expiration of his present tour. Subject's promotion during 1962 is further evidence of Headquarters' confidence in him.</p>

3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of your cover facility. Such travel will be accomplished in conformance with applicable regulations of your cover facility except when you are directed for operational reasons to perform travel in accordance with the regulations of this organization.

4. Salary and (except as provided in paragraph three (3) above) allowances paid by your cover facility shall be retained by you to the extent that they are less than or equal to the salary and allowance payments due on the basis of your grade level with this organization. If such cover payments are less than the amount due, the difference will be credited to your payroll account with this organization. If such cover payments exceed the amount due, the overage will be remitted to this organization at designated intervals, presently ______. Computations hereunder will be made on the basis of the aggregate gross due and received provided, however, that in computing remittances for overage Federal and, if applicable, District of Columbia income taxes withheld by your cover facility against the overage may be deducted. To assure timely accuracy in your payroll account with this organization you are expected to immediately report cover facility payroll changes.

5. Your status as an employee of this organization will continue in full force and effect during your period of duty with your cover facility and you will continue to be entitled to all rights, benefits and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

a. Upon integration into your cover facility, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and at your personal expense you will be subject to payroll deductions for retirement purposes (now six and one-half per cent) on the basis of your cover salary or your salary from this organization, whichever is the greater.

b. If you receive taxable income from both your cover facility and this organization, necessary adjustments for Federal, and if applicable, District of Columbia income tax purposes will be made in conformance with instructions received from this organization.

c. Consistent with your cover activity, you will continue to be responsible for compliance with the rules and regulations of this organization.

d. You are not assured upon the completion of your period of duty with your cover facility of any status with your cover based on your services performed with that organization at the request of this organization.

e. A portion of your annual leave and all the sick leave which has accrued to your credit at the time of your integration shall be transferred to your cover facility. The remainder of your leave will be held by this organization in escrow pending the completion of your integration. If the sum of your accumulated annual leave with your cover facility and this organization exceeds the maximum accumulation entitlement afforded you under the regulations of this organization, the excess will be forfeited. If possible, such forfeiture will be accomplished by reducing the leave credit in your escrow account with this organization. While integrated, you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of your cover facility in lieu of the leave benefits of this organization. Upon completion of your integration, your accrued annual and sick leave will be transferred to your credit with this organization. If security conditions require that your cover facility make a lumpsum payment for accrued annual leave, you will be required to pay the gross amount thereof to this organization including income taxes withheld by your cover facility.

6. Re: Newton S. Miller

Dear Theo:

You have by now received our unclassified cable, TOICA 1408, advising of our acceptance of the resignation of Newton S. Miller who has served since December 29, 1956, as Chief of our Criminal Investigation branch, Public Safety Division, USA/T. It was with deep regret that I accepted the resignation since his departure on or about April 15, 1958, will be felt very keenly by both the Chief of the Division, Mr. Al DuBois, and myself.

Were it not for the pressing need of state-side medical attention for his wife and the fact that he should be with her during this period, I could have endeavored to prevail on him to take an alternative course of action. However, I am satisfied that there was no alternative and, hence, did accept the resignation effective April 15, 1958, it being noted that he is returning with his family to the States at his own expense.

This letter is to advise you of the facts leading to what would appear to be a sudden resignation. I also want to inform you that Miller's job performance here has, in my estimation, been of high order and can very easily be summarized by stating that he has performed most satisfactorily.

He has shown himself consistently to be tactful, considerate, and objective in his approach to his responsibilities and in the performance of his duties. I have at all times found that his judgment has been sound and mature. He has had warm and mutually satisfying relationship with his opposite numbers in the Thai police.

In furtherance of my statement of my confidence in him, I unhesitatingly designated him as Acting Chief of our Public Safety Division during Mr. DuBois' absence on TIV in Washington for the period March 9 through April 5, 1958. I naturally had continuing personal

contact with him during that period and observed his handling of himself in Executive Staff meetings. The various attributes which I cited above were clearly demonstrated during this period and, in fact, his performance during this period permits me to add that I am satisfied with his supervisory abilities.

I would have no hesitancy in recommending his reemployment by ICA if in the future the present family health situation is rectified.

Sincerely,

Thomas E. Naughten

Mr. Newton S. Miller

Dear Mr. Miller:

This is a memorandum of agreement between you and the United States Government in regard to your employment by CIA. It is hereby mutually agreed and understood that:

1. As an employee of CIA, at the present grade and salary of GS-13¹, \$7420 per annum, you will accept cover employment in the International Cooperation Administration effective as of 24 November 1964. You will, insofar as consistent with your basic responsibility to CIA, abide by all the rules, regulations, practices and policies of the ICA, in order to appear as a conventional member of that establishment. Your appointment to the ICA is being effected at the class of FSS-3 and salary of \$9220 per annum.
457C
2. It is understood and agreed that the minimum period of your overseas tour of duty is governed by and coincident with the prescribed tour of duty of your cover organization. Currently, your prescribed tour consists of a period of two (2) years from the date of your arrival at your overseas post of duty. Your assignment may be terminated earlier for the convenience of CIA, and the length of your tour of duty, as currently specified, may be unilaterally changed by CIA in order to conform with subsequent changes in the prescribed tour by ICA. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by the Agency to be beyond your control or if you are terminated for cause either by ICA or CIA before you have completed the minimum period of service prescribed above from the date of arrival at your overseas post of duty, you will not be entitled to return travel or transportation for yourself or your dependents to the United States at Government expense. If you request termination of your overseas assignment solely for your own convenience, unless it is for circumstances that are considered by the Agency to be beyond your control or if you are terminated for cause either by ICA or CIA before you have completed one (1) year of service from the date of your arrival at your overseas post of duty, you will be required to reimburse the Government for all its expenses for your travel and transportation, and that of your dependents, from the continental United States to such overseas post of duty.
3. Travel to your post of duty overseas and your return travel to the United States, as well as travel performed overseas which is consistent with your cover designation, will normally be at the direction of ICA. Such travel will be accomplished in conformance with applicable regulations of ICA and you will receive and retain the amount paid by ICA without regard to CIA regulations except when you are directed for operational reasons to perform travel in accordance with CIA regulations.

OF 1000
OF 1000

4. It is specifically understood and agreed that as an appointed employee of the Central Intelligence Agency, you are entitled to receive and retain only the salary, allowances and other benefits which are commensurate with your appointed position and salary grade, except as provided in paragraph three (3) above. The compensation that you receive from ICA will be offset against your CIA salary and you will return to CIA not less than quarterly the amount by which in the aggregate your FSS salary, allowances and other pecuniary benefits exceed your CIA salary, allowances and other pecuniary benefits. In accordance with applicable CIA regulations, you will be reimbursed for any increased income tax liability resulting solely from your reporting your ostensible ICA income rather than your actual CIA income.

5. (a) Your status as a CIA employee will continue in full force and effect during your period of duty with ICA, and you will continue to be entitled to all rights, benefits, and emoluments of such status. Certain variations in procedure will be required, however, to preserve the security of your cover position.

(1) It is presently contemplated that all annual and sick leave which will have accrued to your credit at the time of integration into ICA will be held by CIA pending your transfer from ICA to CIA. While assigned to ICA, you will be permitted annual leave, sick leave, home leave, and leave without pay in accordance with the regulations of that organization. Upon completion of your integration with ICA, your accrued annual and sick leave will normally be transferred to your credit with CIA. If security conditions require that you be given a lump-sum payment for accrued annual leave, you will be required to pay the gross amount of any lump-sum payment to CIA at the time of your reinstatement including any withholding tax deducted by ICA.

(2) Upon your integration in ICA, you will continue to be covered by the provisions of the Civil Service Retirement Act, as amended, and you will be subject to payroll deductions for retirement purposes (now six and one-half per cent (6-1/2%)) on the basis of your FSS salary or CIA salary, whichever is the greater.

(b) Consistent with your cover activity, you will continue to be responsible for compliance with CIA rules and regulations.

(c) You are not assured upon the completion of your period of duty with ICA of any status with ICA based on your services performed with that organization at the request of CIA.

6. If CIA considers it undesirable for you to continue the use of your ICA-cover, your services will be utilized whenever possible in some other appropriate capacity as designated by CIA, unless the circumstances are such as to warrant your termination for cause.

7. Authorized instructions which you receive from CIA in writing, telegraph or in any other way are a part of this memorandum of agreement and will

Incorporated herein to the extent that such instructions are not inconsistent with the terms hereof.

S. You will be required to keep forever secret this agreement and all other information which you may obtain by reason hereof, unless you are released in writing by CIA from this obligation. Violation of such secrecy may subject you to criminal prosecution under the Espionage Laws, dated 25 June 1948, as amended, and other applicable laws and regulations. The termination of your employment with CIA will not release you from the obligations of any security oath you may be required to take.
