DISPATCH		CLASSIFICATION SECRET	PROCESSING ACTION
TO	Chief, MI Division	XX	MAILING POINT
INFO	Chief, CR Division	NO MAILING REQUIRED	
FROM	Chief of Station, Mexico City	ONLY QUALIFIED DSN CAN MAKE INDEXING	
SUBJECT	C-0 LIENVOY/LIENVOY - Terro de VANDRAM or MAINSTROM (phonetic)		
ACTION REQUIRED - REFERENCES	C-2		
<p>1. Forwarded under separate cover as Attachment A are two LIENVOY transcripts of 12 November 1963 and two LIENVOY transcripts of 13 November 1963 which Headquarters may consider for transmittal to Station Stockholm.</p> <p>2. Forwarded under separate cover as Attachment B is a photograph of an unidentified male (who was accompanied by an unidentified female whose photograph the Station asset did not obtain) who visited the Soviet Embassy at 1400 hours on 12 November 1963. The Station believes this male is identical with Subject since the male in the photograph is the only unidentified male who was also accompanied by a woman and, secondly, this male appears to be a Nordic type. The Station recognizes, however, that Subject may have only claimed to be a Swede for cover purposes.</p> <p>3. The following is the comment made by Douglas J. PEINCLASS, the Station's LIENVOY translator, concerning Attachment A:</p> <p>"The exact spelling of this name could not be determined. He started by saying that it is - W - X - M., and then stopped, emphasizing the two dots above X. It is very strange that he, being a Dane did not seek the aid of his Swedish Consulate, but applied to the Soviet Embassy and asked for a man, whom he met by chance (?) in a restaurant. But stranger still is the response of the Embassy officials, who went out of their way to find a ship for him. Usually requests of this nature are brushed aside and quite often in a very rude manner. Judging from his non-British accent and almost flawless English, he must have lived in the United States or Canada for quite some time." (The Station PEINCLASS officer agrees with PEINCLASS' comment regarding the usual reluctance of Soviet Embassy officials to help in a matter of this type.)</p> <p>4. Station Mexico has no record of any member of the Soviet Embassy travelling to Canada during this period.</p> <p>5. Station Mexico has no traces on Subject.</p>

<p>L. Station Mexico suggests the confusion over the status of LIAISON-8. He was terminated 29 February 1960. An Agent Service Record is attached.</p> <p>Z. The cryptonym LIAISON-8 in HMMA-20408 dated 19 December 1963 should have been LIAISON-6. Headquarters noted that LIAISON-6 had been omitted and called this to the attention of the Station in HMMW-11457 dated 1 April 1963. It was not noticed at that time that LIAISON-8 had been included in error in the project renewal request instead of LIAISON-6.</p>

DISPATCH~~SECRET~~

HMMA-11267

10-29-69	- Movimiento de Liberacion Nacional
46-12-70	- C.T.A.L.
46-11-30	D.F.S.
46-09-50	- D.F.S. (disconnected 18 September 1963)
35-36-52	- Politica (Revista - Manuel Marcue Pardinas)
46-60-15	- Prensa Latina
46-60-16	Prensa Latina
14-42-37	Cuban Embassy
14-92-14	Cuban Embassy (disconnected 23 September 1963)
25-07-95	Cuban Embassy (apartment of Ramon Sinobas disconnected on 23 September 1963 when apartment became vacant)
14-13-26	Cuban Embassy
15-60-55	Soviet Embassy (Chancery)
15-61-55	Soviet Embassy (Chancery)
15-69-87	Soviet Embassy (Military Attaché)
15-61-07	Soviet Embassy (Commercial Office)
15-12-64	Soviet Embassy (Film Representative)
45-61-80	Czech Embassy
45-61-81	Czech Embassy
20-38-98	Yugoslav Embassy (connected 18 September 1963)
20-68-69	Yugoslav Embassy (connected 23 September 1963)
20-68-23	Yugoslav Embassy (connected 23 September 1963)

Headquarters will note from the above that three lines were disconnected in order to cover three Yugoslav lines. Two of the lines which were disconnected were Cuban Embassy lines, both were not in use by the Cubans. One was in the apartment which had been vacated by Ramon Sinobas and not occupied by other Cubans. The other was a telephone in the Cuban Embassy which was never answered. The Cubans are trying to get Sinobas' line moved to the Embassy. They have also asked for the telephone company to repair 14-92-14. As soon as these lines are working again, coverage of two of the Yugoslav Embassy lines will be dropped in order to pick up all the Cuban lines which are presumed to have a much higher priority.

3. Processing of LIENVOY Information

The Station continues to receive full transcripts in Spanish on the Cuban lines (three), the Soviet Embassy lines (five), and as of 18 and 23 September the Yugoslav lines (three). These transcripts are received each morning for the day before. During September, the LIENVOY monitors transcribed 1396 pages in addition to the daily resumen.

The outside translators now working on LIENVOY transcripts are Orville HORSFALL, staff agent, who is used for almost any backlog which begins to occur.

David B. SCHLAGETER, field contract agent, who transcribes the Czech take.

Victor W. OBOLD, career agent, who transcribes the Yugoslav portion of the Yugoslav take.

Douglas T. FEINGLASS, staff agent, who continues to transcribe the Russian language portion of the Soviet take.

4. Exploitation of LIENVOY Information

Two leads from LIENVOY of operational interest in September 1963 were:

CONTINUATION OF
DISPATCH~~S E C R E T / Confidential~~

HMMA-22267

a. On 2 September 1963 a Russian speaking female contacted the Soviet Embassy and asked for Svyatoslav Fedorovich KUZNETSOV, KGB. She identified herself by name and as a professor from New Orleans. She gave the address of her apartment and asked for a meeting. This lead was promptly followed up by station investigative assets who identified the woman and learned that she was attending a philosophers' conference at the University of Mexico. She returned to the United States on 17 September. All available information was forwarded to Headquarters for passing to ODENVY.

b. MEXI-6135 reported the contact between an unidentified Czech woman and the Czech Embassy.

5. Liaison

On 18 September 1963 Oliver G. GALBOND and Willard C. CURTIS met with LIELEGANT and LIERGO. They also saw LIELEGANT on 20 September.

6. Security

There were no security problems during this month.

7. Technical

There were no technical problems which AREHART could not handle.

8. Personnel

Robert B. RIGGS continues to meet Arnold AREHART each morning before 0800 hours to receive all LIENVOY tapes and transcripts from the previous day. The daily meetings with Victor W. OBOLD and David B. SCILLAGETER, the two EE translators, ~~were~~ transferred on 18 September 1963 from the Station EE case officer to the KURIOT technician, Gregory D. PARMUTH who delivers and receives reels and transcripts from them each day. PARMUTH also acts as a cutout for Douglas J. FEINGLASS.

Paul V. LEVISTER, Headquarters KUTUBE officer, visited the Station from 22 September to 1 October to consult with LIENVOY and LIFEAT case officers in preparation for a report to be written on the two projects as examples of tap operations which produce both positive intelligence and operational leads.

9. Production

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

: Victor Manuel GUTIERREZ Garvis (201-68248)

Refs: A. HHH-11038, 16 August 1963
 B. HHH-22262, 8 October 1963

1. Reference is made to your questions about the type information needed on GUTIERREZ. Headquarters is interested in "current" information on his activities, and especially on his travels and his contact with Ramon VEGA Porez, Chief of G-2 at the Cuban Embassy in Mexico City. The comment on HHH-7289 regarded only the non-dissemination of the report, and was not intended to discourage the Station from reporting information on meetings between GUTIERREZ and VEGA.

2. Headquarters would appreciate receiving, on a continuing basis, pertinent information on GUTIERREZ extracted from the LIMAVER take.

MEMORANDUM FOR: Chief, Foreign Intelligence

SUBJECT: TDY to Mexico City

1. After taking a good look at LIENVOY and LIFEAT, I would agree with the persons I talked with in Mexico; they maintain that any well-run tap operation should produce substantial intelligence information, provided the targets are of intelligence interest, and provided also there are people at the station who look for it and are able to recognize it. The case of LIFEAT is interesting in this respect: It has been deprived of its most productive lines in favor of LIENVOY, and yet its intelligence production compares favorably, with that of the other productive taps, except LIENVOY.

2. Mexico has people who can detect any little item of intelligence significance. This includes the Chief of Station, who goes over the highlights of the previous day's take every morning and marks certain items for action by station case officers or reports officers. The reports officers work on copies of the take at the same time.

3. There are several aspects of LIENVOY that make it an excellent operation and an outstanding producer of intelligence. I will describe them in detail when my notes get here from the station. The principal factors in the success of LIENVOY seem to be the following.

a. The agreement made with top Mexican officials, unlike many such agreements elsewhere, is as much in effect today as it was at the start: the targeting is not based on personal politics; the intercept staff has stayed on the job; the equipment is considered to be on loan from CIA.

b. The native monitoring staff has reached a peak of effectiveness that everyone at the station praises very highly.

c. The station is organized to handle the take speedily as soon as it comes in. The Chief of Station, the case officers, the reports officers, all work on it at the same time and exchange views on hot items. They do not let reports backlog accumulate.

~~SECRET~~

d. Each new item on a target person is linked to a past history; what appears as a fragmentary bit in a conversation becomes a meaningful development in a continuous story. Continuity on the job makes this possible.

e. The equipment is kept in good working order by complete cleaning and checking of each unit once a month. The 32 units in use today are those installed in 1959.

4. A detailed description of LIENVOY and its counterpart LIFKAT should provide good models with which to compare other tap operations. It should give criteria for good procedures. It should give some idea of the desirable size of such operations, considering the available targets, the size of the station, and the other tasks and operations of the station. It should show what the station puts into its tap operations and what it gets out of them. LIENVOY and LIFKAT are an interesting example of two interacting operations, one joint and the other independent.

5. My stay in Mexico was as interesting and fruitful as it was enjoyable. And I hope it was not too great a burden on the station.

DIAZTAG diplomat stationed in Caracas planned to travel alone by plane to Mexico City via Panama carrying a diplomatic pouch for turnover in Mexico and return to Caracas with diplomatic mail received from DIAZTAG couriers in Mexico. This was reported to Headquarters, Caracas, and Panama as a possible opportunity to obtain or copy these pouches. (MEXI-5601)

c. On 7 August this project revealed contact between the Partido Popular Socialista and the Soviet Embassy. Roberto JARAMILLO Flores, national leader of the Juventud Popular Socialista, the youth organization of the Marxist Partido Popular Socialista, arranged for an urgent meeting with Nikolai Sergeyevich LEGNOV, Third Secretary and Cultural Officer of the Soviet Embassy. It will be recalled that LEGNOV went to the Soviet Union and acted as interpreter for Fidel CASTRO on his visit there earlier this year. MEXI-5705 transmitted a report on JARAMILLO's contact with LEGNOV.

d. On 5 August LIEUNVOY reported the presence in Mexico of one Doctor Paul BARAN who was in contact with Cuban Embassy officials and prominent Mexican Marxist intellectuals. BARAN appeared to be on a trip throughout South America. A check of Station files revealed that this was probably identical with Paul Alexander BARAN, Russian born naturalized U. S. citizen and professor of economics at Stanford University, Palo Alto, California. BARAN has visited Mexico in the past and made contact with American Communists and Mexican leftists. This information was sent to Headquarters in MEXI-5735 for dissemination to ODENNY.

e. On 12 August William ROSE, who identified himself as a student from the United States studying at the University of Mexico (UNAM) asked for an interview with Vicente LOMBARDI Tolcedo, Secretary General of the Popular Socialist Party (PPS). ROSE claimed to have letters of introduction to LOMBARDI from labor leaders in the United States. A check of Station files revealed William Maurice ROSE, 1474 Federal Way, Salt Lake City, Utah, as a student at the UNAM. This report was sent to Headquarters in MEXI-5752 for dissemination to ODENNY.

f. On 1 August Henry WALLECHMINT, 3662 Carrington Avenue, Los Angeles, California, contacted the Soviet Embassy and volunteered his services to them. The details of this contact were forwarded to Headquarters via HEMA-21905 for dissemination to ODENNY.

g. On 7 August a person who claimed to be a U.S. citizen with a name which sounded like ALMERO contacted the Soviet Embassy and referred to a previous visit at the Embassy when he discussed information on ship movements. He also asked for asylum and made an appointment to see Oleg NIKONOVICHKO, Soviet Vice Consul and KGB officer. A person of American appearance was photographed by LIEUNVOY at the time of the arranged appointment. A sanitized copy of this photograph together with information from LIEUNVOY was passed locally to ODENNY. MEXI-5705 forwarded the report to Headquarters.

h. On 9 August LIEUNVOY reported that an American pilot with wife and small son were at the Cuban Embassy trying to get a visa to go to Cuba. MEXI-5705 reported details for Headquarters. ODENNY was advised locally after receiving Headquarters' authorization.

i. LIEUNVOY covered the activities of Barry Terry PRIMUS, New York actor who was expelled from Mexico on 19 August for participating in Marxist-Communist public disturbances on 18 August. See MEXI-5854 and 5855 for further details.

j. On 20 August Moe FISHERMAN, Secretary of Veterans of the Lincoln Brigade in the U.S. asked the wife of David Alfaro SIQUEIROG how the Brigade could help free SIQUEIROG. FISHERMAN also made an appointment to meet Margarita NELSON, prominent Spanish Communist exile. MEXI-5864 transmitted this report to Headquarters for dissemination to ODENNY.

5. Liaison.

As reported in reference Willard C. CURTIS met with LIEUNVOY to arrange for a sensitive PRIMUS case on 15 August 1963. The case is still pending.

<p>On 7 August 1963 the Station EE case officer requested LIENVOY coverage of the Yugoslav lines. Arrangements are being made to put these lines in within the near future.</p> <p>3. Processing of LIENVOY Information.</p> <p>The Station continues to receive full transcripts in Spanish from ten lines (five Cuban Embassy and five Soviet Embassy). DIR-60764 dated 13 August 1963 asked the Station to send to Headquarters one copy of the full transcripts from the Cuban Embassy lines. These are being forwarded on a weekly basis. The first group is being forwarded as an attachment to HMMA-Z2000 dated 21 August 1963. If they do not please Headquarters officers who desire them, it is requested that the Mexico Station be promptly advised with any suggestions for changes.</p> <p>On 6 August 1963 Orville HORSFALL, staff agent, arrived in Mexico to work presently as a unilateral monitor but eventually as the supervisor of a tap center either under LIENVOY or LITEMPO. He has established himself outside and is presently at work eliminating the backlog of Soviet tapes.</p> <p>Douglas J. FEINGLASS continues to do the Russian from LIENVOY, the Russian from two LIFEAT lines on Soviet targets, and the Russian from the LiPAWN audio operation. In addition, FEINGLASS sends clipped transcripts to the Station ready for 201 files.</p> <p>4. Exploitation of LIENVOY Information.</p> <p>HMMW-11831 dated 6 August 1963 indicated that Headquarters was not well informed on the way the Mexico Station exploits operational leads from LIENVOY. The outside staff agent, Arnold AREHART has instructions to alert the Station immediately if a U.S. citizen or English speaking person tries to contact any of the target installations. This is done by a telephone call from outside the tap center at a pay phone to Robert B. RIGGS inside the Station. Emergency meetings are arranged in double talk (meeting for coffee or lunch). RIGGS meets AREHART within fifteen minutes at a pre-arranged downtown location and receives the reel with an extract of the pertinent conversation. The reel is then taken to the Station and given to the case officer responsible for the target the person was trying to contact. Headquarters is notified by cable of the action taken. Only in rare cases is information on a U.S. citizen passed without prior Headquarters approval.</p>

DISPATCH~~SECRET~~

HMMIA-22005

Other leads appear in the full transcripts or daily resumen. They also are exploited by the Station case officer responsible for the target where the lead appears. For example, on 12 August 1963 Boris KAZANTSEV, recently arrived Counselor of the Soviet Embassy and former defection target in Mexico, called his wife at their residence. The number was not listed but was immediately checked by Raymond GERENDE who determined that the number was the switchboard of the apartment house where KAZANTSEV and several other families live. The reason the Station checked out this number was to put unilateral coverage on it if possible; however, the switchboard was beyond the Station's capability to handle.

Maryknoll priest Felix McGOWAN contacted the Cuban Embassy on 31 July 1963. MEXI-5565 reported details of this contact. This cable was sent to Headquarters for dissemination and action by ODENVY.

Professor WEBB (fmu) of the University of Louisiana contacted Mexican Communist Jorge L. TAMAYO Castillejos, prominent Mexican Marxist intellectual and professor at the University of Mexico, and arranged to meet with him on 31 July 1963. MEXI-5566 reported this contact to Headquarters for dissemination and action by ODENVY.

Bartolo (fmu) contacted former Governor of Baja California, Braulio MALDONADO Sanchez on 16 July 1963 regarding the sale of Cuban pesos. MEXI-5569 reported this contact to Headquarters for dissemination and action by ODENVY.

5. Liaison

On 15 August 1963 Willard C. CURTIS met with LITENSOR to arrange for a sensitive PBRUMEN case (MEXI-5789 reported the details of this meeting).

6. Security

There were no security incidents within the project during this month.

7. Technical

There were no technical problems during this period.

8. Personnel

Orville HORSFALL's arrival is the only change in personnel since the last report and he is handled as an independent agent by the Station, with no LIENVOY personnel aware of his presence in Mexico. Robert B. RIGGS sees HORSFALL daily to deliver and pick up tapes.

9. Production

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

RE:	DESENSITIZED per CIN 43-43	ONLY QUALIFIED PERIODICALLY INDEXING	
SUBJECT:			
PERIODIC/LIENVOY			
ACTION REQUIRED REFERENCES			
References: A: MEXI 5448 B: MEXI 5467			
<p>1. The referenced cables describe two recent incidents in which the Mexico City Station made use of LIENVOY information to take investigative or punitive action against security suspects. The first reference reported the identifying and "trapping" of a PRIME citizen who was offering his services to the Cuban Embassy, and the second reported the deporting of a Cuban IS agent identified by LIENVOY material.</p> <p>2. In both of these cases, there seems to have been departure from the extreme caution with which the Mexico Station has always handled the LIENVOY material. Admitting that the cables do not set out enough facts to enable us to make a final judgment, we still feel a little uneasy about this use of LIENVOY material. In the first case, the Station sent an agent to the suspect's hotel, posing as a Cuban Embassy official to "trap" him into revealing his intentions. The scheme, which was admittedly clever, succeeded, but we were concerned about what would have happened if the Cubans themselves had decided to contact the individual. Would not the LIENVOY operation have been exposed to some extent? We grant that the Cubans and other bloc personnel in Mexico City may suspect LIENVOY exists, but they do not know it --- yet. Incidentally, we had no traces on the PEPERGEN involved.</p> <p>3. The second case involved the detection, apprehension and deportation of a Cuban IS agent whose whereabouts were learned through LIENVOY. From the few facts we know about this case, we cannot really judge the possible risk to LIENVOY. The Mexico Station created LIENVOY and has always guarded its security with scrupulous care. Has there been a change?</p> <p>4. Finally, please note that both these cases should have been reported to Headquarters before action was taken. In general, arrests, deportation, trapping, or other action against security suspects should be approved by Headquarters, except where in the opinion of the Chief of Station, the added time needed would seriously impair ODYONE security or the security of our operations. The Mexico Station has always done this, and the coincidence of two recent cases where it was not done inspires us to query you. Please let us know your views.</p>

HMMA-21545

TO : Chief, WH Division Hqs File No: 50-6-75/4
 FROM : Chief of Station, Mexico City No Indexing Required
 SUBJECT : Monthly Operational Report for Project LIENVOY
 ACTION : For Headquarters information.
 REF : HMMA-21530 dated 14 June 1963

1. There follows the monthly operational report for Project LIENVOY activities during June 1963.

2. Target Lines - June 1963.

The following lines were covered during the month of June:

20-30-18	General Lazaro Cardenas del Rio
20-83-46	General Lazaro Cardenas del Rio
24-18-18	Braulio Maldonado Sanchez
43-01-85	McLiquiades Maldonado Sanchez
23-85-25	Alonso Aguilar Monte verde
24-51-75	Jorge L. Tamayo Castillejos
45-59-52	David Alfaro Siqueiros
13-21-14	Francisco Galindo Ochoa
43-15-06	Enrique Gonzalez Pedrero
11-16-48	Ignacio Acosta Lagunez
19-15-06	Roberto Romero Adams
10-29-69	Movimiento de Liberacion Nacional
46-12-70	C. T. A. L.
46-11-30	D. F. S.
46-09-50	D. F. S.
35-36-52	Politica (Revista - Manuel Marcue Pardinas)
46-60-15	Prensa Latina
46-60-16	Prensa Latina
14-42-37	Cuban Embassy
14-92-14	Cuban Embassy
25-07-95	Cuban Embassy
25-09-14	Cuban Embassy
14-13-26	Cuban Embassy
15-60-55	Soviet Embassy (Chancery)
15-61-55	Soviet Embassy (Chancery)
15-69-87	Soviet Embassy (Military Attaché)
15-61-07	Soviet Embassy (Commercial Office)
15-12-64	Soviet Embassy (Films Representative)
45-61-80	Czech Embassy
45-61-81	Czech Embassy

3. Processing of LIENVOY Information.

Of the lines covered, all are of interest to KUBARK and approximately one half of them are exclusively for KUBARK. The LIENVOY top center monitors continue to prepare daily summaries of significant items from all lines. In addition, they prepare full transcripts in Spanish for ten lines (five Cuban Embassy lines and five Soviet Embassy lines). These transcripts are used by the Station Case Officers for Cuban and Soviet operations in following leads of interest.

CONTINUATION OF
DISPATCH~~SECRET~~

IMMA-21845

On 5 June 1963 Douglas J. FEINGLASS, Staff Agent, arrived in Mexico to replace Howard G. SAFARANO, the Station translator for Russian language conversations appearing on LIENVOY and LIFEAT lines. SAFARANO departed PCS on 15 June thus freeing an inside slot for use by an operations officer. FEINGLASS' usefulness to the Station is handicapped by his inability to transcribe the Spanish portion of the recs from the Soviet coverage. This, despite Headquarters assurance that he could do these transcriptions. However, he has settled into outside living conditions with a minimum of difficulty. For the present, a monitor from the LIENVOY tap center is transcribing the Spanish portion of the above take. There is a Station backlog of Soviet tapes numbering about 50 which accumulated during the period when FEINGLASS was trying unsuccessfully to transcribe the Spanish. The backlog is being retained until Orville HORSFALL arrives. In addition to the Russian transcriptions, FEINGLASS also edits the transcripts for individual dossiers thus relieving the Station Case Officer for Soviet operations of a clerical task. After the arrival of HORSFALL, the Mexico Station will review requirements for outside translators and make recommendations for future use of FEINGLASS.

In early June to support the AMROD operation, the Station requested full transcripts of the Cuban Embassy lines. In addition, Thomas G. URQUHART (ps) while on temporary duty in Mexico was given access to the LIENVOY tap center to review the traffic on a current basis.

4. Exploitation of LIENVOY information.

Coverage of the Cuban, Czech, and Soviet Embassies provided details of their personnel, their contacts, travel and other useful CE data. In most all cases of official travel, LIENVOY gave the Station advance information when reservations were made. Confirmation of the travel is, of course, obtained through the LIFIRE project.

The traffic is reviewed for English speaking persons who might be U.S. citizens making contact with Soviets or Soviet Satellite Embassies for political or other reasons. On 20 May 1963 an English speaker identifying himself as Albert Kennedy called the Soviet Embassy and requested political asylum for himself, his wife and seven children. Subsequent investigation revealed that he was also a protection case at the U.S. Embassy in Mexico. Appropriate U.S. agencies were advised of Subject's contact with the Soviet Embassy.

5. Liaison.

During this reporting period there were no meetings between the Chief of Station KUBARK and LITENSOR; however, regular contact was maintained with LIELEGANT and LIERGO.

6. Security.

There were no security incidents within the project during this month. As reported in MEXI-5170, 26 June 1963, the true name of a KUBARK case officer was revealed to the Cuban Embassy by a caller who refused to identify himself. From the transcript it appeared that the Cuban Embassy was not interested in making contact with the caller who claimed to have details of KUBARK operations in Mexico.

7. Technical.

Arnold AREHART, staff agent, has kept the equipment working.

100W 1st 53a 4P	100W 100W 1st 53a 4P	SECRET	X INFINITE	PAGE NO TWO

CONTINUATION OF
DISPATCH~~SECRET~~

HMMA-21845

effectively. As Headquarters is being advised by separate cable, the Mexico Station does not plan to replace the present LIENVOY equipment until the next Presidential candidate is named, assuming of course that this will occur within the next few weeks.

8. Personnel.

On 17 June Robert R. RIGGS resumed meeting Arnold AREHART and routine case officer functions for LIENVOY. Gregory PARMUTH meets Douglas J. FEINGLASS daily to deliver and receive the Soviet Embassy traffic. PARMUTH's assistance in obtaining living quarters and necessary sterile office furniture was responsible for the ease with which FEINGLASS was able to settle into his outside staff agent status.

In the opinion of Thomas G. URQUHART, who has spent some time inside the tap center, Arnold F. AREHART is doing a commendable job in the management of the center. In addition, AREHART has a general awareness of the take from each line. When leads of interest appear, he notifies the Station immediately so that action can be taken.

Willard C. CURTIS contacts LIENVOY-2 when the Station desires contact with the Mexicans directly or when AREHART is absent.

9. Production.

The volume of paper produced by this project is hardly reflected in formal disseminations, operational cables, and dispatches which numbered 39 during June. The daily summaries, the transcripts from two Czech lines, five Soviet lines, and five Cuban lines are retained for background use in Station files. They could be more fully exploited for reporting purposes if personnel were available.

There is attached a list of reports, cables and dispatches forwarded to Headquarters during this month.

Willard C. CURTIS

ACTION REQUIRED REFERENCES			

ACT: FBI

REF: HSGA-21068, 12 April 1963

1. Returned herewith are two reels of LIENVOY coverage of the Cuban Embassy which were forwarded to Headquarters by the referenced dispatch.
2. Three conversations, including the SINGHAS/SCANTLING contact on 8 April 1963 have been excised from EC 11, 8 April, for retention at Headquarters. The conversations immediately before and after the SCANTLING contact were taken out so as not to pinpoint possible interest in that contact.
3. The Station's support in providing these documentary materials is greatly appreciated.

HIGHLIGHTS OF LIENVOY COVERAGE OF CUBAN
EMBASSY, EARLY APRIL 1963

2 or 3 April 63

A man whose name sounds like "Specia" calls Vega, says he must see him very urgently. They will meet at 11:00 or 11:30.

Victor Rico Galan holds what appears to be social chatter with Sinobas. They mention a mutual friend (unnamed) and note things are getting better.

A man identified only as Horacio calls Buenaventura (Reyes). They talk about hotels and agree to meet at the Embassy at 1730.

The Bolivian Embassy calls for Sinobas about the case of a man named Arrellano or Arellano. Sinobas is out. Bolivian Embassy asks to be called back at telephone 14 00 56.

(Comment: Arrellano is of special interest to PACY)

Maria Lourdes de la Pena calls for Teresa Proenza, who is out. On a further conversation mention is made of Maria Elena (Vasquez Gomez?) and the two parties agree to meet at 2030 at some place located at the corner of Hamburg and Genova.

Teresa Proenza calls to the fronton for Jose Luis "Asmendi" (probably a jai-alai player). He is out. She leaves a message for him that there is a letter for him at the Cuban Embassy for his daughter and he can come for it.

Vicente Rojo calls Proenza about the bulletin. An envelope was left at the Embassy gate.

Mirna Torres calls Buenaventura Reyes and they hold a sociable talk. She wants to send a package and letter (probably to Cuba) and they discuss the arrival of the plane 6 April. She says she will bring the things to the Embassy before that.

The Bolivian Embassy calls for Sinobas. He is out. (This probably has to do with the Arellano case).

Miss Gomez Sanchez calls for Sinobas, who is out.

Dr. Jaime Brana (visiting Cuban doctor) calls Hotel Carmen room 40 for someone and gets no answer. He then asks for the Cuban nurse in apt. 5, whose name is Graciela "Guty". She is also out. Brana says he wants to speak with Martha Valdes, something about the medical congress.

Brana calls Dr. Fausto Trejo, with whom he seems to have some social relationship. Trejo is out. Brana asks the woman who answers if he left a Czech notebook from EDNO firm at their home. She looks and says she does not see it there.

~~SECRET~~

~~SECRET~~

3

One Mario or Mariano Zerada or Cebada for Sinebas. They talk about a plan the caller had to send money for passage to someone in Cuba and how the bank in Cuba has stated it is impossible.

Sinebas calls the Bolivian Ambassador about Arellano, who is going to travel from one country to another.

Dolores Gomes Arias to Sinebas (first name basis). She seems to be a journalist, says she wants to meet him to tell him some things.

6 April 1963

No conversations of salient interest noted.

7 April 1963

Largely taken up with several conversations between Jorrin and his girl-friend.

8 April 1963

Angel Hidalgo calls in for Vega, who is out. It appears Hidalgo and a couple of others are to drop by the Embassy in connection with passports and visas.

An unidentified man inside calls Cubana de Aviacion about a Canadian named Fred Brown who was around to ask about a visa. The man at Cubana says that he knows nothing of the matter.

Armona calls Fred Brown at the Hotel Agnes. He is paged in the restaurant. Armona and someone else will drop by the hotel for Brown at 1645. Brown speaks very little Spanish.

1. ON 17 APR 63, AT 1635, SCANTLING CALLED RAHON SINOBAS AND TOLD HIM THAT HE WENT EMBASSY ON 18 APR BUT SAW MANY STRANGE PEOPLE IN AREA AND WAS AFRAID ENTER. SINOBAS THEN ASKED SCANTLING GET TOGETHER WITH HIM SOME PLACE OUTSIDE EMBASSY ON 19 APR, SUGGESTING A CAFE. SCANTLING THEN TOLD SINOBAS THAT THE IMPORTANT THING WAS FOR SINOBAS TO FOLLOW THE INSTRUCTIONS IN HIS LETTER THAT HE SENT ON 7 APR 63. SINOBAS TELLS SCANTLING THAT THIS IS WHAT HE WANTS TO TALK ABOUT. SCANTLING GUARANTEES SINOBAS THAT IF HE FOLLOWS INSTRUCTIONS IT WILL BENEFIT BOTH SINOBAS AND HIM. SINOBAS THEN ASKED SCANTLING CALL HIM 28 APR AND THEY CAN AGREE ON TIME AND PLACE TO TALK. SCANTLING THEN TOLD SINOBAS THAT IF SINOBAS IS NOT IN AGREEMENT WITH THE INSTRUCTIONS HE WOULD BE OBLIGED TO GET IN TOUCH WITH ONE OF HIS SUPERIORS. IN REPLY SINOBAS SAID THAT WAS SCANTLING'S PROBLEM NOT HIS. SCANTLING CLOSED THE CONVERSATION BY SAYING HE WOULD CALL SINOBAS ON 28 APR. (LIENVOY B/2).
2. SCANTLING'S WRITTEN REPORT RE CONTACT WITH SINOBAS 17 APR SUBSTANTIALLY SAME.
3. STATION COMMENT: FACT SINOBAS REQUESTED SCANTLING CALL HIM 28 APR POSSIBLY DUE EXPECTED ARRIVAL MANUEL VEGA OR AMSTET-1 19 APR

B. Material Processed

In January, the LIENVOY LP provided the Station with 47 pages of daily resumes from all lines, 10 pages from the Cuban lines, 26 pages from the Czech lines and 57 pages from the Soviet lines. Thirty two pieces of other information were also received.

A total of 285 reels of recording tape were used during the month. (Note F, Technical).

C. Liaison

The Station continues to provide LITENSOR with situation reports on the Red Chinese-Indian border dispute.

D. Exploitation of Material.

Examples of information provided by LIENVOY were the beginnings and organization of the Central Campesina Independiente (CCI) (see MEXIs 3041 and 3053) and the contact made by a Hollywood television station with the Cuban Embassy in Mexico City in order to set up an interview with Fidel Castro. (see MEXI 3244).

E. Security

There were no known security problems.

F. Technical

The LP was inoperative from 8 January until 18 January. Workmen installing street lights in the neighborhood of the LP cut the cable leading from the telephone contral to the LP in several places. Instead of replacing the damaged cable with a new one, telephone company workmen painstakingly repaired it. By the end of the month there were still seven lines out of operation.

G. Production

During January, LIENVOY produced twenty-three (23) reports listed in the attachment. In addition the usual quantity (except for the ten days lost by inoperation - see E above) of CE and biographic materials were obtained.

Willard C. CURTIS

<p style="text-align: center;">15-69-67 Soviet Embassy (Military Attaché) 15-61-07 Soviet Embassy (Commercial Office) 15-12-64 Soviet Embassy (Film Representative) 45-61-30 Czech Embassy 45-61-31 Czech Embassy</p> <p>B. Material Processed</p> <p>In November, the LIENVOY LP provided the Station with 131 pages of daily resumes from all lines, 78 pages from the Cuban lines, 47 pages from the Czech lines and 110 pages from the Soviet lines. In addition, all of the Soviet and Czech tapes were turned over for the translations of the Russian and Czech conversations. Thirty pieces of miscellaneous material were also received.</p> <p>C. Liaison</p> <p>In addition to the PB Band reports passed to LITENSOR, the Station also passed situation reports to him on the India-Red Chinese border war. LITENSOR requested the Station to check a report which LITENSOR had received that 22 boxcars of ammunition was being shipped into Mexico from the United States. (See MEXI 2685)</p> <p>On 5 November 1962 Chief of Station met with LITENSOR at the request of Ambassador MANN. LITENSOR had LITEMPO/2 sit in on the meeting. Ambassador MANN prepared a memorandum based upon a Department of State cable which The Ambassador asked Chief of Station to read to (but not to leave with) LITENSOR. When Chief of Station told LITENSOR that he was to read the telegram (which concerned GPIDEAL's statements and position on Cuba) to him, LITENSOR asked if he could dictate what Chief of Station read to him into his (new) dictaphone. This he did. Both LITENSOR and LITEMPO/2 were pleased with the strong, definite and concise position of GPIDEAL. They were also grateful that Ambassador MANN had got permission to give them this report.</p> <p>D. Exploitation of Material</p> <p>Samples of information obtained during the month shed some light on the private life of Carlos Lechuga, Cuban Ambassador to the United Nations, (see MEXI 2701) and the involvement of Braulio Maldonado Sandez in the uprisings in the State of Guerrero. (See MEXI 2713)</p> <p>E. Security</p> <p>There were no known security problems.</p> <p>F. Technical</p> <p>Likewise, there were not technical problems.</p> <p>G. Production</p> <p>During November, LIENVOY produced the eighteen (18) reports listed in the attachment. The usual large amount of CI/CIS personality and operational material was obtained.</p> <p style="text-align: right;"><i>Willard C. Curtis</i> Willard C. CURTIS</p> <p>Attachment: As stated above. CONTINUATION OF DISPATCH	SECRET	HMMA-1990 1959				
<p>45-61-81 Czech Embassy 45-61-80 Czech Embassy (Out)</p> <p>B. Material Processed</p> <p>In September, the LIENVOY LP provided the Station with 97 pages of daily resumes, 11 pages of resumes from the Cuban lines and 28 pieces of other material. There were also provided 125 pages of resumes from the Soviet lines and also 74 reels with the Russian conversations. In addition, there were 18 reels from the Czech lines.</p> <p>C. Exploitation of Material</p> <p>The following are examples of LIENVOY coverage:</p> <ol style="list-style-type: none"> 1. A "George Sherman" contacted the Cuban Embassy about meeting with the Cuban Ambassador Carlos Lechuga. Sherman said that he knew Lechuga in Washington. (See MEXI 1925, 12 September 1962). 2. A "Gabino Fernandez", an employee of the Secretariat of the Presidency, made an appointment with Ramon Sinobas, First Secretary of the Cuban Embassy, because Fernandez wanted to speak to Sinobas before Fernandez went to Cuba for a visit. (See MEXI 1967, 18 September 1962). <p>D. Liaison</p> <p>Briefing papers which were pouches by Headquarters according to DIR 31814 were provided to LITENSOR. LITENSOR requested a further situation report on his forthcoming trip to the Far East. He was ready to call off his trip if KUBARK felt that the world situation was gloomy. (See MEXI 1919, 11 September 1962).</p> <p>E. Security</p> <p>There were no security problems for the month of September.</p> <p>F. Technical</p> <p>None.</p> <p>G. Personnel</p> <p>A PRQ was forwarded to Headquarters for a POA on Guadalupe Hermosillo Quiroz in HMMA-19809.</p> <p>H. Production</p> <p>During the month of September, LIENVOY produced the forty-nine (49) reports listed in the attachment. The usual large amount of CI/CE personality and operational material was obtained in addition to the (attached) disseminable reports.</p> <p style="text-align: right;"> Willard C. CURTIS</p> <p>Attachment: As stated above. Distribution: 3~WHD w/att; 2-files</p> <table border="1"> <tr> <td>REF ID: A653a</td> <td>CLASSIFICATION SECRET</td> <td>INITIALS <input type="checkbox"/> CONFIDENTIAL</td> <td>PAGE NO. 			ABSTRACT	
			SEARCHED	
<p>O Operational/Soviet LIENVOY Product</p> <p>ACTION REQUIRED REFERENCES</p> <p>Action: See paragraph 4 below</p> <p>1. Transmitted herewith, for purposes of Headquarters familiarization, is a typical one day LIENVOY product of the Soviet lines. (Note that the Station has additional LIFEAT coverage on the personal lines of Colonel Aleksandr Leonidovich SIBCHOV and Svyatoslav Fedorovich KUCESTSOV, and on the office line of Vladimir Ivanovich SAMOJIN).</p> <p>2. Except for the weekend period, the Spanish language transcript reaches the Soviet case officer on the day following the actual transcription - at the most usually two days after the transcription. The Station's Russian language translator transcribes the Russian language portions immediately, and this product reaches the Soviet case officer about an hour or two after receipt of the Spanish reporting. Simultaneously, flimsy copies of the above have been given to the reports officer and to other interested Station officers. The first copy is kept in a Station chrono file, for purposes of permanent record. It is annotated for ZONAR purposes.</p> <p>3. The Soviet officer, Lucy A. Billings, and other officers, read the product quickly for the immediate purpose of obtaining exploitable ICDIMPROVE or other operational leads, and/or reportable intelligence. After this initial scanning, the product is literally cut up, with each clipping of significant conversation sent to COS and to various Station officers for their information and/or action. Whenever pertinent, the actual LIENVOY clip is sent to Headquarters, for information or action - or a summary of the clip is sent to Headquarters in dispatch form. Each clip is eventually routed to the Station's registry where indexing and filing is completed.</p> <p>b. The Station finds that this Soviet LIENVOY clipping program provides the files on the individual Soviet staffers with a rather good picture of their activities and personality. (These individual files are of course augmented with information derived from double agent operations, LIENVOY reporting, Headquarters provided information, ODACID reporting, newspaper clippings and other miscellaneous reporting). In many cases, however, the backbone of a Station file on a Soviet may derive principally from bits and pieces of LIENVOY product.</p>

CONTINUATION OF DISPATCH	SECRET	DRAFTED 1000Z 10 JAN 62 IDOA-1Y/24
<p>Category station files receive the clips pertaining to Soviet commercial activities, propaganda activities, Soviet contacts, etc. Very often, a single clipping may have to be copied to be sent to the files of several individual Soviets and/or to one or more category files.</p> <p>5. Unfortunately, the Station does not have sufficient personnel available to analyze and collate periodically the LIENVOY and other Station product in the individual Soviet files for transmittal to Headquarters for its information; or possibly more important, for eventual transmittal to another Station where a Soviet from Mexico City is reassigned. Headquarters attention is directed again to MEXI-9825 of 17 January 1962 and allied correspondence regarding the desirability of having a trained Headquarters TDYer work on these materials at the Station. Headquarters may now wish to reinvestigate the possibility of finding a qualified staffer for this TDY assignment.</p> <p style="text-align: right;"><i>Willard C. Curtis</i> Willard C. Curtis</p> <p style="text-align: center;"><i>1000Z 10 JAN 62</i></p>

RECORDED COPY

CONTINUATION OF
DISPATCH~~SECRET~~

HMMA-19432

RYBAT-1906

The Cuban efforts at propaganda in Mexico in which the Cuban Ambassador to Mexico conferred with Raul Roa, Cuban Foreign Minister, and suggested to him that Fidel Castro write a short message to the Mexican people in Siempre on its ninth anniversary of publication (see HMMA 19399).

The negative treatment to a Czech commercial representative by Mexican Immigration authorities (see HMMA 19158).

The refusal by the Pan American Institute of Geography and History of the Organization of American States to permit Teresa Proenza Proenza, Third Secretary and Cultural Attaché at the Cuban Embassy, to attend the meeting held by it (see HMM 6438).

The embarrassment caused by the immoral behavior of Mexican female delegates to the Cuban 26 July celebration held in Havana in 1961 according to Manuel Marcue Parinos of the periodical Politica as told to Teresa Proenza Proenza.

D. Liaison

With the approach of the GPIDEAL visit to Mexico 29 June - 1 July, liaison activities greatly increased. COS visited LITENSOR on 28 June. LITENSOR assured that there would be no problems in the GPIDEAL visit and the safety of GPIDEAL was guaranteed and in the hands of LITENSOR. At this meeting LITENSOR indicated his annoyance with the Cubans. (See MEXI 1253).

LIELEGANT turned over to the Chief of Station a list of persons who were put under surveillance in connection with the GPIDEAL visit. The list also indicated those who were arrested. (See MEXIs 1244 and 1264).

At a meeting held on 28 May 1962, the Chief of Station, LIELEGANT, and LIENVOY/2 met with LIENVOY/1 and obtained his agreement to hire LIENVOY/14 to work under LIENVOY/3 as a technical inspector in Telefonos de Mexico. The purpose in putting LIENVOY/14 in this capacity is to have a man who would be more available to the LIENVOY Project and who "would see what others might be tapping telephones" in Telefonos de Mexico. Furthermore, LIENVOY/1 agreed to see to it that LIENVOY/14 would have "the range and authority" to do the work.

Putting LIENVOY/14 as a technical inspector within Telefonos, could recreate problems for the LIFEAT Project. At the same time WILSTED is re-studying the LIFEAT system, improving it, tightening up the security and alerting the base houses to watch for any abnormal activity on present taps. It has been understood by the LIENVOY case officer that this has been done and it will be reported from time to time in future LIENVOY reports.

E. Security

For a report on security of the LIENVOY site for June 1962, see paragraph 2 E of HMMA-19319 (RYBAT-1897) dated 10 July 1962.

As was stated at the end of that paragraph, any surveillance or security threat of the LIENVOY basehouse or personnel can eventually be handled, should this be found necessary, by Chief of Station to LITENSOR.

F. Technical

The floor in the LP was recently covered with a linoleum which has

RCM S3m A1	20 400-25 67-024 S1 20 01 024 P-1 24 20 400-25 67-024	SECRET	X	TWO

<p>greatly contributed to keeping the dust out of the recording machines and in excellent working condition. According to Arnold F. AREHART, the LIENVOY technician, the machines are operating at top efficiency.</p> <p>G. Personnel</p> <p>The personnel remains the same as reported in the previous report.</p> <p>H. Production</p> <p>Production for the month of June was higher than usual. This increase was primarily due to the GPIDEAL visit. There were seventy-four (74) reports from LIENVOY material during June 1962. These are listed in the attachment.</p> <p style="text-align: right; margin-top: 20px;">  Willard C. CURTIS </p> <p>23 July 1962</p> <p>Attachment: LIENVOY Production - June 1962</p> <p>Distribution: ✓3 - WHD w/att 2 - Files</p> <p style="text-align: right; margin-top: 20px;">50-4-75/3</p>

2. IN DISCUSSIONS WITH LITENSOR, COB MAY AT HIS DISCRETION INDICATE FOLLOWING REASONS WHY VISIT TO SUKARNO A BAD IDEA:

A. SUKARNO IS CURRENTLY ENGAGED IN MILITARY OFFENSIVE AGAINST DUTCH IN NEW GUINEA AND HAS THUS FAR FRUSTRATED PEACEFUL SETTLEMENT.

B. DUTCH ARE MEMBERS OF FAST GROWING AND ECONOMICALLY POWERFUL EUROPEAN COMMON MARKET. MEXICO IS SEEKING TO INCREASE TRADE WITH COMMON MARKET COUNTRIES AND TO OBTAIN INVESTMENT CAPITAL FROM THEM. BELIEVE MEXICO'S INTERESTS WOULD NOT BE SERVED BY TRIP LIKELY TO OFFEND COMMON MARKET COUNTRY.

C. CONSIDER THIS POOR TIME FOR LITENSOR THROUGH HIS PRESENCE GIVE SUKARNO BENEFIT HIS AND HIS COUNTRY'S PRESTIGE.

END OF MESSAGE

¹
*WH Comment: LITENSOR planning visit SUKARNO in late Oct or early Nov. Amb MANN mentioned to COB he personally believes this visit not good. COB suggests he can tell LITENSOR that "my chiefs think visit to SUKARNO this year a bad idea." Request HQs comments.

SUBJECT	Mexico City Station Security	10 July 1962	
ACTION REQUIRED	None; for your information.	<input checked="" type="checkbox"/> 43 T - CHECK IF ONE <input type="checkbox"/> REFERRED TO THE HQ <input checked="" type="checkbox"/> NO ANSWERING REQUIRED INBOUND CALL IS ADDRESSED BY QUALIFIED HQ DESK OFFICER	
REFERENCE	A. HMMS 2430 B. MEXI 0346		
<p>1. As requested in reference, the station has polled all Station Case officers for possible or confirmed cases of surveillance while making operational contacts. The poll indicated five (5) cases of surveillance during recent months. For the sake of clarity and to give Headquarters an exact idea of the circumstances surrounding each incident, this report will treat each case individually with station comments pertinent to each case.</p> <p>2. The five cases of possible or confirmed surveillance, related in the first person, are as follows:</p> <p>A. <u>Lewis J. SHOJERSTEIN</u>: 15 May 1962</p> <p>"Following a meeting with Francis R. HEGARTY at the Hotel Alameda this date I noticed a Mexican standing quite close to us as we were discussing innocuous subjects just before parting. This fellow moved over and joined another Mexican who was standing at the Juarez Avenue entrance to the Alameda Hotel. I called HEGARTY's attention to these two and suggested that he leave, being very careful to check himself, while I checked these fellows to be absolutely certain they were uninterested in us. HEGARTY crossed Juarez and took a cab. Neither of the two Mexicans showed any interest in his movements or made any type of observable signal. I walked back into the Hotel and spent about five minutes browsing in the magazine shop then left the hotel by the side entrance. As I departed I glanced toward Juarez Avenue and saw one of the same two fellows whom had been at the Juarez entrance nudge the other and call his attention to me. These two fellows had moved in order to check both my entrances from the same spot. I walked to an arcade directly across from the hotel entrance and pretended to be looking in shop windows. I saw both Mexicans position themselves so as to observe the arcade. I made no attempt to disrupt the surveillance, being interested instead, in determining definitely that I was the target. As I moved out of the arcade, the two above fingered me to another pair of Mexicans who followed me as I moved through the L.A. Americas parking lot to Calle Independencia. For the next hour and one half to two hours I took these boys on a long tour, mostly on foot. I checked them by darting up streets then changing my mind and doubling back, following an erratic pattern as if shopping aimlessly, stopping in bookshops for periods during which they were forced to stand around somewhat obviously (and do, etc.). Briefly, it can be summarized by saying that there were at least five members of this team definitely on the surveillance, two others I am quite sure were involved, and one other about whom I am not absolutely sure. What, in my mind, there was no doubt whatsoever that I was the target. I caught a taxi and headed toward Reforma Avenue, then to Rio Tiber St., and then toward Melchor Ocampo Street. As if changing my mind, I had the driver cut over to Sullivan St., to Shirley Courts where I went in and had lunch. During the cab ride I did not spot car surveillance but, shortly after my arrival at Shirley Courts, I saw three new men not previously on the job, whose actions indicated they were on me. I paid my bill, went into the back entrance for a minute then left through the covered garage and out into Villalonga St., in back of Shirley Courts. Once</p>

RYBAT-USC

out of the Courts, I walked rapidly out of sight of the exit and checked myself for the next ten minutes but could not detect surveillance. I then walked up to Reforma, caught a taxi, got off across the street from the Roble Theater, walked into the drug store at the Hotel Reforma, then out the front entrance, down to Woolworth's, through Woolworth's to the back entrance, up to Pasaje Latinoamericano, into the Passage where I stopped at a small counter shop to check as I made a purchase, then retraced my steps to Calle Madrid, on up to Reforma where I turned into the Reforma entrance to Sanborn's, checked for surveillance, then into the Embassy by the entrance from Sanborn's through the perfume section. There is no doubt whatsoever that these men were on me. The surveillance was not sophisticated from the standpoint of keeping me unaware, but was a very persistent one with these men not getting lost on the simpler tricks. Regardless of who is controlling these fellows, I have cancelled all operational contacts for today and will contact HEGARTY, Oliver Q. WIMPHEN and Simon D. CLACKETT tonight or early tomorrow morning to set up entirely new contact arrangements with each. I plan to make my contacts either early in the mornings or later at night in areas where surveillance can be spotted easily. I will instruct all agents to be unusually careful in checking before making any meetings, either with other agents or with me and that if there is any suspicion of surveillance skip the contact and check later at the alternate contact point. In each case, if clear by the time of the alternate meeting, I called HEGARTY from a pay phone last night and set up an early morning contact with him to check on whether or not he was followed when he left the Hotel Alameda yesterday. HEGARTY said that he checked carefully but that there was no indication of interest in him. This is quite a relief since it now appears that I must have been picked up at the Embassy and that I, not HEGARTY, was the target. I cautioned HEGARTY to be even more careful than ever in his approaches to the LINLUCK safehouse and told him that, in our contacts, I was setting up entirely new contact arrangements immediately and that we would not use previous points uptown again. HEGARTY was told that we would use previously agreed upon points in the Polanco-Lomas area, that each point and time for the next meeting would be agreed upon at the previous one to avoid phone use as much as possible, and that most of our meetings would be held before 0900 hours or, when that not feasible, after dark. I suggested that he also inform LINLUCK that I had been under surveillance of some persistence and that he (LINLUCK) should be even more careful than ever in his contacts with HEGARTY, and in his approaches to the safehouse. I met WIMPHEN and CLACKETT later that same morning and made similar new contact arrangements with them and advised them of the even greater need for caution. I also advised them to park at least two to three blocks from points of contact and walk in, checking carefully before and after parking to be sure they are not surveilled and, if there is any suspicion of surveillance, do not make contact but make the alternate later if clear by them."

CONTINUATION OF
DISPATCH~~SECRET/RYPAT~~JUN 19 1961
RYPAT #1597B. Algerino O. FORTUNE, 11 November 1961

The above-mentioned arrived on the night of 10 November 1961 at approximately 2100 hours what seemed to be a suspicious situation in attempting to service the LINLUCK safehouse. As indicated on the attached diagram, the subject parked his automobile two blocks away as indicated on the diagram and approached the target by way of Panuco Street. In the approach route subject noted a blue Fiat parked at the corner of Lerma and Hudson Streets with two male occupants. As the undersigned, on foot, approached the corner of Panuco and Hudson he noticed another Fiat parked at the very corner with three occupants. Remembering the other Fiat at the end of the block, which was quite visible from the corner of Panuco and Hudson, the undersigned decided to delay entry into the safehouse and casually walk down the block. The undersigned cut across Hudson Street to avoid walking close to the parked car and as he walked on Lerma, noticed the presence of a slow moving car behind him. This did not arouse too much suspicion since this area apparently specializes in street walkers and the local "tenories" cruise the streets looking for them. As the undersigned reached the parked Q.P. car at the corner of Lerma and Durro the slow moving auto came abreast of the car and the driver almost stopped and stared at the undersigned as he attempted to unlock the car to depart the area. By this time the undersigned got suspicious and attempted to read the license plate, but the plate illumination bulb was out on the suspicious vehicle. The undersigned got in his own car, started down Lerma, passed the suspicious car which immediately fell in behind the undersigned. Not convinced yet of the intent of the following car, the undersigned drove toward Mississippi and made like he was continuing down on Lerma. At the last moment the undersigned swerved into Mississippi, narrowly missing getting clobbered by a vehicle coming down Mississippi. The suspicious vehicle, who was right behind, had to gun his auto to get out of the way so that he had to go straight across Lerma. The undersigned noted as he made the sudden turn into Mississippi that the other vehicle braked as soon as he passed Mississippi and, it seemed to the undersigned, was backing up toward Mississippi. At this point the undersigned poured the coal into the old Green Hornet and left the area. The undersigned then went to the Polanco Bowling Alley instead of home, bowled for approximately an hour and then returned at 2300 hours to inspect the area of action once more. The area was completely free of any parked autos. The undersigned cruised around the area for approximately 35 minutes but could not spot either one of the two Fiats.

Conclusions: (a) As previously stated, there may have been nothing to this incident, and perhaps the autos in question were merely the joy cars looking for customers, but at any rate the set-up looked suspicious therefore the undersigned did not service the safehouse in question.

(b) Douglas NISLEY reported to the undersigned that his records that a suspected Polish intelligence agent, Josef DEJ, resided at Hudson 11, two doors down from the LINLUCK safehouse. It is possible that the surveillance may have been on DEJ and that the undersigned blundered into an unpleasant situation.

(c) LINLUCK reported on 14 November 1961 that it was possible that he was under surveillance and it is possible that he was followed to the safehouse.

CONTINUATION OF
INTERVIEW~~SECRET - SIGHT~~

NMMA-19319

REF ID: A697

Francis P. HEGARTY, the regular case officer handling LINLUCK made the following comments pertinent to FORT YUNK's report of possible surveillance:

"On 22 November, HEGARTY visited safehouse at Rio Hudson to remove the typewriter and paper and inform the maid in charge that he intended to leave the apartment on the following day and also to arrange for the payment of the light bill which was due. After arranging these matters, HEGARTY left the safehouse and purposefully took a circuitous route to his car, which had been parked more than a block away on another street. HEGARTY turned two corners and crossed two streets and detected an individual, Mexican in appearance, approximately six feet tall, 170 lbs., brown hair, ruddy complexion, wearing a tan suit and open sport shirt, and carrying a manila folder in his left hand, walking about 30 feet behind him. HEGARTY walked past his car and turned a third corner and walked rapidly to the middle of the block and then turned in his tracks. When HEGARTY reached the last corner he had turned he almost ran into the individual described above. The man opened his eyes wide, hesitated in mid-stride, but then kept on walking in the direction he had been going. HEGARTY walked to his car and after making sure that the individual did not turn back, immediately left the area." HEGARTY is certain that the safehouse at Rio Hudson was not under surveillance up until 10 November, the last time he visited it previously, and that the surveillance is on the house and not on himself.

Station Comment: See 2 a (Conclusions) above. In a later check of this area by HEGARTY, he could detect no surveillance either stationary or moving. SHOQUIST, however, instructed him to get a new safehouse for LINLUCK meetings immediately following his 22 November report and for neither he nor LINLUCK to go near the Rio Hudson safehouse again.

C. Andrew F. MERTON, 1 June 1962

"On 1 June 1962, while leaving a meeting with LITAU-1, I detected what could have been a possible surveillance. The meeting was in the Cafe Blanca on Juarez Avenue, between Lafragua Street and the Caballito Monument. Upon leaving the meeting, to which I had arrived "clean" to the best of my knowledge, I noted a peculiar flash of expression in the face of a tall, young, dark-haired man apparently waiting in the doorway for something. I had left the meeting first, leaving LITAU-1 to pay the check. Upon noting the expression I had a hunch that something funny might be going on. I turned right out of the door of the cafe and walked the short distance to the corner of Juarez and Reforma, doubling around the corner to the right. This left me on the north side of Reforma headed west in which direction I walked about a block. Two good-looking girls passed me headed south, and observing a good old Latin custom, I suddenly swiveled my head to watch them from the rear. I noted that my tall, dark-haired young man was behind me. As he noted that I could see him he suddenly turned right into a store which sells roof water tanks,

~~SECRET - SIGHT~~

FOUR

CONTINUATION OF
DISPATCH

a fairly obvious manner, or as it seemed, I turned it up towards the Embassy but at a very slow pace. I had no interest in the show windows. A few minutes later by chance, I saw me finally walking towards Reforma and la Prager, which latter street we crossed, eventually turning left and crossing the Reforma itself. I did a little counter-surveillance myself but soon lost the subject who disappeared somewhere down Avenida M. Morelos. My "surveillant" was about 30-35 years old, dark tan skin, youthful looking, well-dressed in a dark suit and slightly nervous in his actions. While the whole matter could be coincidence, his action in rushing into the store, not just turning in as if engaged in legitimate business, made me suspect him all the more. If he were really a surveillant, he must have been on LITAU-1 rather than myself, since the Station had been alerted as to possible surveillance and I was checking myself".

D. Jeremy L. NIARCOM

Jeremy L. NIARCOM reported sometime in May, 1962 that he had spotted what definitely seemed like a one-man surveillance on him. Since he is presently on home leave the submission of a detailed report on the incident will be deferred until his return to duty.

E. Arnold F. ARNHART/LIBNOY

"On Friday 15 June 1962, at approximately 0930, the concierge noticed two men standing on the corner of Tamaulipas and Chihuahua, who seemed to have an unusual interest in the activity of the L.P. They were standing directly across the street from the L.P. One of the men was tall and thin with a mustache, well dressed and appeared to be about 30 or 35 years of age. The other was a short fat man and wore a white shirt coat of the Venezuelan type and appeared to be around 50 years of age. They stood on the corner of Tamaulipas and Chihuahua for about an hour and showed a great deal of interest in the activity of our building. Around 1030 hours the tall man left and later returned in a 1960 Fiat model 1400, with a brown body and a light top with District Plates number 21-73-26. Both of these men then proceeded to observe our installation from the car, and from time to time appeared to be making notes on the comings and goings of the installation, as well as asking notes on the cars used by the personnel of the L.P. At about 1230 hours ARNHART left the L.P. to make a phone call and to see if any attempt would be made to follow any one leaving the building. No attempt was made to follow ARNHART, however, his actions were observed from the car through the rear view mirror. Upon ARNHART's return to the building, it was noticed that the men appeared to be making notes in a small note book. Finally, around 1330 the tall man drove off in the car and the fat one took up a new position, about 50 to 100 feet down the block on Chihuahua where he could observe the front door of the L.P. Around 1500 when the first shift was leaving, LIBNOY 16 left to go to lunch and was followed down Chihuahua. On spotting the surveillance he returned to the office. Just as he returned to the office LIBNOY 2 returned to the office and was told of the incident. LIBNOY 2 and LIBNOY 14 immediately approached the fat man (who had also returned to his former position), and asked him to explain his action of the day. They also asked him to identify himself. He showed them a driver's licence with the name MARIANO VERA GONZALEZ. This information was checked at the Department of Traffic and found to be the licence of another person. At this time it was decided to establish a stake out at the Traffic Department in order to determine and identify anyone who might show an interest in the names and addresses of the cars used by our installation. On the 16th of June, Unit "C" (Victor) informed LIBNOY 2 that around 1300 hours an old friend of his, Guillermo MUÑOZ RAMIREZ, who was an agent of the Secret Service of the Policia Metropolitana showed up and said that he was looking for a winter show in order to obtain some information about the owner of a car with District Plates 7-3 (LIBNOY 4). Victor suggested that they check the files for the information. However, the information was not available. During their conversation, Guillermo MUÑOZ stated that he worked as a supervisor of the medical services of the Central Department and showed Victor his credentials signed by Dr. Julian GARCIA TELLO. He also said that he had another job at the Health Department, while they were talking, another agent passed by and asked MUÑOZ to give his

104-10187-10030 Rev 53d 106	SEARCHED INDEXED SERIALIZED FILED	SEARCHED INDEXED SERIALIZED FILED <u>SEARCHED</u> JUL 1 1962	INDEXED FILED FBI - WASHINGTON

JULY 1963

regards to Communist KAMAL KHAN. Therefore, we surmise that JAHANGIR KHAN is a member of an anti-intelligence or anti-training by COMMUNIST INDIANS, whose aim is to obtain political information for LIAO SHIANGTO (CHIANG CHIANG) so to avoid arrest, that records political information to PAKISTAN AND INDIA. Since the 15th there have been no further attempts to place our Headquarters under surveillance that have been noticed. The attempted hostile surveillance of the 15th was a crude operation and something we would expect to read about in a dime novel or a comic book; and certainly was not carried out by any one who had been trained in surveillance."

(Note: Any surveillance of LIAONING behavior or personnel can be handled, should this be found necessary, by COB to LIAONING.)

3. Station Comment: The Station is unable to make any definitive conclusions relative to the reported surveillance incidents described above. It is not the Station's intention to minimize the seriousness of opposition surveillance attempts nevertheless, it has not been possible to arrive at any substantive decision concerning which police or intelligence service is interested in the actions of Station Case officers. Based only on the above information, the Station, in fact, cannot be sure that Station officers are the only targets of surveillance in HARBIN. It is entirely possible that other GRACED employees have been under surveillance, but because of a lack of awareness of this, investigative techniques have not observed such actions. All Case Officers and operational personnel have been alerted to watch for and to report any surveillance attempts made against them. Headquarters will be advised promptly should the Station be able to derive any patterns of activity pertaining to the above or any future incidents of hostile surveillance.

B. Material Processed

In May, the LIENVOY LP provided the Station with 152 pages of daily resumes, 47 tapes from three Czech lines and 93 tapes from four Soviet lines. The Spanish transcriptions of the tapes from the Soviet lines were also provided. In addition, 60 transcriptions were provided from the Cuban lines. The Station also received 22 other pieces of material from the LP.

C. Exploitation of Material

An example of the LIENVOY coverage was the long distance call from Havana indicating that a high-level functionary of the Cuban Government

was ill. (See MEXI 0822, 17 May 1962).

D. Liaison

During the period under review the Chief of Station maintained regular contact with LIELEGANT and other individuals connected with the Project.

E. Security

There were no evident security problems for the month of May.

F. Technical

As usual, the equipment in the LP was checked and cleaned. However, during the month several of the lines were out of order. The Cuban Embassy was apparently still working on its telephonic system within the building. Other lines which were out of order were probably due to the inherent problems of the telephone company.

G. Personnel

There was no change in the personnel for the month and it kept the same schedule of work as reported for April.

H. Production

During May, LIENVOY produced the forty-five (45) positive intelligence reports indicated in the attachment and the usual volume of CI/CE personality and operational material.

Willard C. CURTIS

MEMORANDUM FOR: Chief, Task Force Washington

ATTENTION : John Caswell

SUBJECT : Feasibility of Effecting Release of Manuel URRUTIA,
Ex-President of Cuba, Political Exile in Mexican
Embassy, Havana

1. The Mexico City Station has the capability of approaching LITEXCO (Item A) and requesting him to attempt to arrange for a safe conduct pass for Subject. The approach to LITEXCO can be made through three different channels; LITEXCO/2, (Item B), LITEXCO/1 (Item C), and LIGACO (Item D). Also, a direct approach by the COS to LITEXCO could probably be arranged if so desired by Headquarters for operational security reasons.
2. No assessment on the success of an approach of this type can be made because of the Mexican interest and position re Cuba.
3. If a decision is made to attempt to obtain a safe conduct pass for Subject, it is recommended that the COS Mexico City be informed in detail of Headquarters mission and maximum goals and that he be requested to recommend the best channel to LITEXCO.

1. COS, AT AMBASSADOR'S REQUEST, SAID TO LIELEGANT, LIERGO AND TO LIENVOY/1 THAT AMBASSADOR CONSIDERED FORMIN MANUEL TELLO SPEECH AT PUNTA DEL ESTE (SAYING MARXISM LENINISM INCOMPATIBLE WITH WESTERN HEMISPHERE) WAS A "GOOD STEP FOR MEXICO". COS SAID, HOWEVER, THAT DEEDS NOW NEEDED TO SHOW MEXICANS ARE WILLING TO TAKE ANTI-COMMUNIST, ANTI-CASTRO STAND.

2. ON 15 FEBRUARY LIELEGANT AND LIENVOY/1 REPORTED (SEPARATELY) FOLLOWING:

A. PRESIDENT ADOLFO LOPEZ MATEOS HAS CANCELLED THE INTENDED GOVERNMENT SUBSIDY TO "SIEMPRE" TO ALLOW FERNANDO BENITEZ (COMMUNIST WHO FIRED FROM "NOVEDADES" NEWSPAPER) TO CONTINUE WRITE SUPPLEMENT ON CULTURE IN MEXICO. (NOTE: IF TRUE THAT THIS INTENDED SUBSIDY CANCELLED PROBABLY PARTIALLY DUE TO FACT THAT LATEST ISSUE COMMUNIST MAGAZINE "POLITICA" ATTACKED PRESIDENT AND BENITEZ IMPORTANT CONTRIBUTOR.)

B. ALONSO AGUILAR MONTEVERDE, LEADING MEXICAN MARXIST, HEAD OF MOVIMIENTO DE LIBERACION NACIONAL,

HAS BEEN FIRED FROM HIS

SUBJ Examples of Marxist Textbooks used in Mexican Schools		EL "OJ" - 1000 T ONE MARKED FOR HOLDING NO INDEXING REQUIRED	
ACTION SECURITY: See paragraph 3 below.		HOLDING CAN BE ADDED BY QUARREL HQ, DSK CNTY	
REFERENCE			

PRIORITY**I. Attached are copies of:**

a. "Brovario de Cultura Económica" (Segunda Edición-1960) written by (Marxist) Francisco BARRERA Valdés and, as can be seen on the inner first page, approved by the Textbook Committee of the Ministry of Education as the textbook in beginning economics courses in Mexican public schools.

Note: i. This book is pure Marxism. Pages 19, 41, 44 and many others distinctly praise Marxism and condemn capitalism and capitalist countries (particularly England, the U.S.A. and France).

ii. Also attached is a copy of the work notebook for this book.

iii. This book and its Marxist contents has been called to the attention of LITERATOR, LIERGO and others by CGD. To date, however, the approval of this textbook has not been withdrawn.

b. "Cuba, Despertar de América", written by (Marxist) Ramón RAMIREZ Gómez, who is one of the most important professors of economics in the School of Economics at the Universidad Nacional Autónoma de México (U.N.A.M.). This book, which is pure Marxist, praises Castro's Cuba, Communist China and communism and condemns the U.S.A. This book was published officially by the National University of Mexico in 1961 and is used in the School of Economics there.

Note: Ramón RAMIREZ Gómez was one of the professors primarily responsible for expelling Luis Felipe COZLLO Macías and Guillermo VELIZ Pelayo from the U.N.A.M. because they took part in anti-Castro, anti-Communist activities on 26 July 1961 (See MMMA-17925 and MMMA-18407).

c. Another textbook which is Marxist and which has been the subject of considerable publicity recently is "La Unidad de Trabajo y Estudio" by Clara O. CARDONEL, Professor at the Escuela Normal de Matemáticas, Cuba, 1960. This book was one of the issues that provoked a mass demonstration against the leftist policies of Governor Eduardo LIVAS Vilasen of Nuevo Leon. (See MECL-0042 and MECL-0039.)

d. It will be recalled that on the evening of 11 January 1962, Thomas A. BREWSTER requested copies of the two (2) textbooks listed in paragraph I. above, from CGD. He wished to consider using them in presentations to (1) Congress and (2) possibly to certain Senators and Congressmen.
