MEMORANDUM FOR: Chief, Technical Services Division
ATTENTION : Chief, TSD/MOS
SUBJECT : Request for TDY Replacement for Arnold F. AREHART.

1. WH Division requests your cooperation in providing a TDY replacement for Arnold F. AREHART as Case Officer and technician for the LIFENVOY tap center in Mexico City. AREHART has requested three weeks home leave, from 10 to 28 September, to drive his older son to the States to enroll him in his freshman year of college. AREHART has kept his leave plans to a minimum so that his TDY replacement will need to be on loan from Headquarters for as short a time as possible.

2. The Division had offered to provide an operations officer as a TDY replacement but Mexico City Station has requested that a technician be sent instead since the burden of AREHART's job is the maintenance of equipment along with the protection of CIA's interests inside the LP. WH Division suggests that your release of Mr. Charles Deck for this assignment would be ideal if he is available, as no overlap would be required since he is already knowledgeable of this operation. The Station was also very pleased with the work done by Mr. Deck on his last TDY to Mexico.

3. Because of the critical role the LIFENVOY Project plays in the Station's whole operational picture, and because of the importance the smooth-functioning of the LP is to our liaison with top-level Mexican officials, your assistance is requested. If Mr. Deck is not available, any other suitable candidate would be acceptable. Please inform Mr. Bustos, WH/1/Mexico, X-4506, -4507 of your decision, as we would like to be able to inform Mexico as soon as possible as to whether a TDY replacement will be available.

TO:	Chief, WO Division	Classification	SECRET
FROM:		Date Issued	23 July 1964
SUBJ:	Chief of Station, Mexico City	Subject	
INFO: Temporary Replacement for Arnold F. ARNSHAW (ps)		ROUTING	
INFO: Arnold F. ARNSHAW (ps)		RECORDED	
Reference: DMP-4741 dated 17 July 1964		FILED	
<p>1. Arnold F. ARNSHAW (ps) would like to depart from Mexico on 10 September 1964 for home leave and return about 26 September 1964. He does not wish longer leave since it will be necessary to take his younger son out of school. His older son will be entering college in the United States which is the reason ARNSHAW requested leave at this time.</p>			
<p>2. A technician would be preferable to an operations officer as a temporary replacement for ARNSHAW as the burden of the job will be maintenance of equipment and protection of DIAK intercepts inside the ID. Since ARNSHAW will be away for three years, it is requested that Headquarters personnel assign a technician. The technician will be better able to do the job if he has Spanish; this, however, is not essential as certain DIAK men speak English.</p>

Chief, MID

S Replacement for Arnold F. AREHART during Home Leave

STANDARD SUBJECTS

Reference: HMDA 23522

1. Referenced dispatch which reflected the Station's appreciation of Newton T. RUTSAY's high level of performance during his recent TDY in Mexico and requested his return TDY was brought to the attention of the appropriate KURIOT officials.

2. Unfortunately, RUTSAY will not be available to replace AREHART during the latter's home leave period in the fall of 1964, and KURIOT has no one else they can release for a prolonged period this fall. Since the leave probably will only be about two months, Headquarters wonders whether a technician is absolutely required. Does the Station believe that an operations officer, with some Spanish and who could merely take over the administrative work and make the Station contacts, could fill in during this period?

3. We are not sanguine that a replacement can be made available particularly since the man will of necessity need to be "exposable" to liaison, but will try our best to find one. In the meantime, please forward the exact dates it is desired the hoped for man should be in Mexico to allow for adequate overlap.

 SUBJECT LIENVRO SUPPORT

ACTION REQUIRED - REFERENCES

1. Arnold F. AREHART asked that his TDY replacement inquire at Headquarters regarding the status of his request for equipment which the Station forwarded to Headquarters as Requisition No. 358-19-64. Headquarters has shipped to Corpus Christi the items he requested in connection with the Revere (shipped 20 April), and the Heath and Allied items were shipped on 7 May. The Ampex and B-10 items have not yet been received at Headquarters from the supplier. Headquarters will pouch all items from these that weight and size will permit, the remainder will have to be shipped to Corpus Christi. In view of the equipment listed in LGIS 6020, 18 May 1964, which is also awaiting pickup at Corpus Christi, perhaps there will be a flight soon.

2. It is requested that the above information be passed to AREHART.

26 May

26 May 1964

MEMORANDUM FOR: Chief, TSD/AOB

SUBJECT : LIENVOY TDY Report

1. TDY support of the LIENVOY operation in Mexico City was provided by this office during the period 23 April to 15 May 1964. The Staff Agent, ARNOLD F. AREHART who manages this operation underwent surgery for a hernia on the 24th of April. The undersigned assumed the responsibilities and performed the duties associated with the LIENVOY operation during AREHART's convalescence. He was incapacitated for duty from 23 April until 12 May. His operation was successful and recovery was normal. AREHART returned to work on 12 May in a weakened condition and three days of overlap was allowed to provide assistance with the more strenuous and tiresome chores.

2. The LIENVOY installation was found to be in excellent condition. The operating personnel were well disciplined and their procedures were well organized. The daily work was being accomplished in a business like and efficient manner. AREHART has done a commendable job in establishing and maintaining this highly productive operation.

3. The equipment in this installation has been in use fifteen hours a day for over four years. As the result of good maintenance practices it is in good shape and functioning well. The minor difficulties encountered during the shake down period have been overcome and equipment maintenance and repair pose no significant problem. There was no loss of coverage on any line during the three week TDY.

4. The following observations and recommendations are included herein to improve KURIOT services to the Field and to acquaint responsible officers with technical discrepancies.

A. Pertinent technical information is not being communicated to AREHART.

~~SECRET~~

-2-

- B. The drying up of the ball point pens in the B-10, Dial Recorder has been a constant nuisance since the beginning of this operation. The pressure sensitive tape was the obvious answer to this problem, but the first ten rolls of pressure tape were received after nearly four years of struggling with the defective pens. It is recommended that pressure sensitive tape be supplied to this operation for future use.
- C. The ten rolls of pressure sensitive tape received during this TDY were wound backwards on their spindles.
- D. The tires on the idler wheel of the B-10 are drying and cracking and fail to obtain adequate traction on the flywheel. This causes tape feed problems. It is recommended that three dozen new idler wheels be pouched to AREHART immediately. Several of the defective idler wheels are available in this office for inspection.

FYI. 1. In connection Venezuelan complaint to OAS, discussions in Standing Group of NSC have identified two alternatives for cooperative system surveillance and interception of vessels and aircraft engaged in transporting arms for subversive purposes to Latin America (especially Caribbean area) directly or indirectly from Cuba. Difference between alternatives centers on need for OAS authorization for use of force in international waters.

2. Alternative A would require OAS authorization use of force in connection with visit-and-search in international waters against selected Cuban vessels and selected vessels OAS countries. It would be a cooperative system of surveillance and interception involving visit-and-search in international waters on a selective basis, with force to be used if necessary. Visit-and-search and, if resistance met, force would be applied by naval units of US or of cooperating OAS countries against selected vessels suspected of transporting arms from Cuba, directly or indirectly.

DRAFT BY

ARA/CCA:JHC/Crimmins:dr/ars 12/15/63 S/S:Mr. McKesson

DRAFTED

White House - Mr. Bundy

~~SECRET~~REPRODUCTION FROM THIS COPY IS
PROHIBITED UNLESS "UNCLASSIFIED"

~~SECRET~~

3. Alternative B would not require OAS authorization to use force inasmuch as visit-and-search would take place only within territorial waters. It would be a cooperative system of surveillance and interception involving visit-and-search only within the territorial waters of an OAS country, with force to be applied, if necessary, by that country's forces or by forces of another OAS country acting under a bilateral agreement. Control of suspect vessels destined for non-OAS country or territory (e. g. British Guiana) would depend on cooperation that country.

4. In both alternatives interception or seizure of suspect aircraft would be carried out only in territory of OAS country of destination by forces of that country or of another OAS country acting under a bilateral agreement.

5. Comparison of alternatives:

(a) Alternative A would be much harder to sell to OAS countries than Alternative B because authorization for use of force required.

(b) Alternative A would be somewhat more effective both in fact and as deterrent than Alternative B, although both can be circumvented.

(c) Alternative A would constitute harassment of Castro whereas Alternative B is purely defensive.

(d) Alternative A would incur substantially greater risks of escalation than Alternative B.

~~SECRET~~

140000
Page 3 of telegram to Ambassies MEXICO CITY, RIO - INFO: CACAS

~~SECRET~~

(e) Alternative A would be more expansive in terms of US units required than Alternative B.

6. Kind and number of additional measures which we would seek in OAS would vary with choice between alternatives. For example, our tentative thinking is that minimum OAS package acceptable to US under Alternative A would be: authorization use force; condemnation Castro regime; and reaffirmation of invigoration anti-subversive measures. Under Alternative B, similar package now estimated to be: defensive system with search and seizure within national territory; condemnation; reaffirmation anti-subversive measures; and obligatory break in air and surface communications between OAS countries and Cuba.

7. We consider attitude Mexico and Brazil critical. OAS vote authorizing use force in which one or other did not join would be politically undesirable. END FNL.

8. Action requested

Chief of Mission should take first opportunity of conversation with FonMin on other matters to explore discreetly and informally indicating he acting personally and without instructions the probable receptivity of COM (CGB) to an OAS resolution authorizing use force. Ambassador should proceed on assumption report CAS investigation committee

strongly

TELLO SCORES OAS POLICIES, CUBA EXCLUSION

Havana in English to Europe 2020 GMT 11 December 1963--E

(Text) Mexico City--Mexican Foreign Minister Manuel Tello criticized the Organization of American States, saying that it is in a state of crisis. Tello also criticized the exclusion of Cuba from that organization. In the interview with the Mexican daily *MOVIMIENTO*, Foreign Minister Tello said that Cuba's exclusion from the OAS is not in conformity with the OAS charter. He said that the charter does not contemplate the exclusion of any member state.

Referring to the present international situation of the OAS, Tello emphasized that an organization which does not base itself on friendship, cooperation, and tolerance is likely to face a crisis. The Mexican foreign minister stated that in the present state of the OAS, the elements or bases for the organization to strengthen democracy do not exist. He pointed out that contrary to agreements adopted at Chapultepec and Bogota, almost all the present Latin American representatives to the OAS are also their countries' ambassadors in Washington.

JAUREGUI INTERCEDES FOR BOLIVIA HOSTAGES

Lima AFP in Spanish 2337 GMT 11 December 1963--P (OFFICIAL USE ONLY)

(Excerpts) Mexico City--Arturo Jauregui, secretary general of the Regional Inter-American Workers Organization (Organizacion Regional Interamericana de Trabajadores--ORIT), sent a personal request to Bolivian Vice President Juan Lechin on behalf of the foreigners held at Catavi as hostages.

The cable says: "I appeal to your labor union principles in the name of the 23 million ORIT member workers in favor of the hostages. These persons are well known as democrats working in favor of the spirit of humanity and social economic progress. The Bolivian revolution," the message adds, "demands that its prestige and vindication be held high."

P A N A M A

12 December 1963

PLAN OF TERRORISM IS UNFOLDING

David La Voz del Paru in Spanish 2100 GMT 11 December 1963--P

(Station commentary)

(Text) It appears as if a preconceived plan of terrorism, not known before in Panama, has been unleashed since members of our armed forces were at Fort Gulick. The barbarous death of labor leader Aguilar, beaten and kicked in Puerto Armuelles; the beating of Indian Labor Leader Palacios Salinas; the denunciation through a newspaper of a labor leader who was hanged and beaten in Ceballos; another case in Boquete; and many other known cases constitute pathetic proof of the plan.

If the objective of the wave of persecution is to attack the ideas of men with bullets, sticks, imprisonment, and other similar measures, it is a stupid move, because ideas are fought with ideas. If some of the humble class try to protest in defense of their rights, they are called communists. The privileged classes have used frequently this pretext against the working classes. If we analyze the situation we will see how the privileged classes have maintained their own monopolistic organization.

The oligarchic groups have greatly increased. Yesterday they could be represented in the two or three existing parties which were directed and governed by them; today, they have seen the need to increase the number of political parties, as much as 20 in a small country, in order to control the public administration. Each party is formed by a privileged family whose only wish is to continue its life of leisure and luxury. This kind of life calls for plenty of money, so in order to obtain the money they need they increase each day the taxation of the poor, who must pay and thus sink deeper into poverty, disease, and ignorance.

If the people do not have work, they cannot earn money; and if they do not have money they cannot pay taxes. If the people try to organize in self-defense, they are accused of being communists, and they are fought with sticks. If the cause of all the evils of democracy is communism, the solution is obvious. We all know who invented communism, and who is living according to it and upholding it. The way to fight communism is to open sources of work to build schools, hospitals, and better roads.

1. IN ADDITION TO REFERENCE REPORT, FBIS REPORT OF 11 DECEMBER SAYS TELLO, IN INTERVIEW WITH NOVEDADES, CRITICIZED OAS CLAIMING IT IN STATE OF CRISIS AND THAT CUBA'S EXCLUSION FROM OAS IS VIOLATION ITS CHARTER. THESE REPORTS SUGGEST TELLO DELIBERATELY ATTEMPTING PRE-ESTABLISH MEXICAN POLICY WITH REGARD CENSURE ACTION AGAINST CUBA. IN VIEW IMPORTANCE MEXICAN POSITION THIS RESPECT, THESE REPORTS MATTER OF CONSIDERABLE CONCERN HERE AND IT FELT NECESSARY TAKE APPROPRIATE ACTION COUNTER TELLO TACTICS IN WAY THAT WILL RESULT IN MEXICAN SUPPORT FOR STRONGER OAS ACTION.

2. HEADQUARTERS HAS CONVINCING INTELLIGENCE FROM VENEZUELAN SOURCES AS WELL AS OUR OWN WHICH SHOWS CONCLUSIVELY THAT ARMS DISCOVERED IN VENEZUELA ARE DISTINCTLY CUBAN. A NUMBER OF WEAPONS CAN BE IDENTIFIED AS ESPECIALLY DESIGNED FOR CUBAN ARMY. ARMS DISCOVERED IN GENERAL WERE OF A TYPE AND IN SUFFICIENT NUMBERS TO SUPPORT PLAN FOR TAKE-OVER OF CAPITAL CITY OF CARACAS. THEIR APPEARANCE IN VENEZUELA TIES IN SPECIFICALLY WITH KNOWN FALN PLANS WITH REGARD TO LOCATION AND TIMING. THE LATTER SUPPORTED BY DOCUMENTARY EVIDENCE TAKEN FROM CAPTURED FALN MEMBERS

1. MUCH IMPRESSED WITH HORSFALL. TRANSCRIPTION TESTS VERY SATISFACTORY. BELIEVE LINGUISTIC CAPABILITY AND EXPERIENCE BUEN AND BANG QUALIFY HIM EXCEPTIONALLY WELL FOR LICAPER SUPERVISOR OR LIENVOY IF IT CONTINUES. APPEARS CAPABLE ADAPTING MEXICAN PTCULIARITIES AND NOT AVERSE BEING CUT OFF FROM OFFICIAL COLONY.

2. MAIN QUESTION ONE OF TIMING. KNOW HE EAGER RETURN HERE AND GET SETTLED. HOWEVER FEEL UNDESIRABLE EXPOSE HIM LIENVOY PERSONNEL IF HE TO WORK ULTIMATELY IN LICAPER. DO NOT WISH LOSE HIM HOWEVER AND CAN GUARANTEE KEEP HIM BUSY DOING PBBAND TRANSLATIONS FOR LITENSOR AND LIENVOY PBRUMEN TAPES WHICH WOULD REMOVE FROM LIENVOY FOR THIS PURPOSE. WE ARE TOLD SAS WANTS THESE VERSATIM WHICH LIENVOY PRESENT STAFF CAN NOT HANDLE.

3. STATION REQUESTS THEREFORE RETURN HORSFALL HERE SOON AS FEASIBLE IN TOURIST STATUS. WOULD LIVE IN FURNISHED QUARTERS UNTIL NEW PRESIDENTIAL CANDIDATE NAMED (EARLY OCTOBER AT LATEST) AND FATE OF LIENVOY AND LICAPER KNOWN. AT THAT TIME CANDIDATE CONCERNED WOULD ARRANGE COVER AND HORSFALL STATUS WOULD CHANGE FROM TOURIST AND HOUSEHOLD EFFECTS COULD BE BROUGHT IN. PLEASE .

1. CONTACT MADE AT BONN EVENING 5 APR WITH ROMERO WHO WITH PRESIDENT LOPEZ MATEOS AT THE TIME. PRESIDENT MATEOS TOOK WYKOFF ASIDE AND APOLOGIZED FOR MIXUP AT PARIS^S TATING HIS PEOPLE WERE AT FAULT AND WERE JUST BEING VERY CAREFUL. PRESIDENT STATED HE HAD NO MESSAGES FOR RELAY TODAY BUT WOULD LIKE TO ASK A FAVOR. SAID ALTHOUGH IT IS NOT KNOWN PUBLICLY THAT HE AND HIS PARTY ARE GOING TO BERLIN, AND IN FACT HAVE DENIED IT, THEY ARE PLANNING TO DO SO ON AFTERNOON 6 APRIL AND WOULD LIKE THE SAME SERVICE THERE AS HAVE BEEN EXTENDED TO HIM BY WYKOFF AND WITTENBERGER. WAS ADVISED IT WOULD BE ARRANGED. MATEOS SAID ALL THAT WOULD BE NECESSARY IN MAKING CONTACT IN BERLIN WOULD BE FOR THE PERSON CONTACTING ROMERO TO SAY HE WAS A FRIEND OF WIN SCOTT. MATEOS AND ROMERO STATED THEY PLANNING TO STAY IN BERLIN AT HOTEL KEMPINSKI, INDICATING WOULD BE THERE A DAY OR SO AND MAY BE RETURNING DIRECTLY TO MEXICO CITY FROM BERLIN.

2. BERLIN: BACKGROUND TRAFFIC BEING RELAYED OPIM. PRESIDENT ADOLFO LOPEZ MATEOS OF MEXICO MAKING OFFICIAL VISIT FRANCE, GERMANY (S)

! LIEBIG support

*Proposed by Tom Gaumer
in CC1 for LITTERER signing - See Call 14 Mar 63*

The Rapacki Plan

1. The Polish proposal for a Central European nuclear-free zone was introduced at the 2 October 1957 session of the UN General Assembly by the Polish Foreign Minister, Adam Rapacki. Acting as spokesman for the Polish Government, he formulated the proposal: should both East and West Germany agree to a ban on the production and storage of nuclear weapons on their territories, Poland would simultaneously introduce an identical ban on her territory. Rapacki did not mention Czechoslovakia, but the head of the Czechoslovak UN delegation, speaking after Rapacki, supported his proposal, declaring that his country would join the agreement, extending the ban over her territory, too. The East Germans subsequently warmly endorsed the proposal.

2. Rapacki's proposal had obviously been cleared and coordinated with Soviet leaders prior to its introduction. Moscow promptly reported the proposal approvingly and the Soviet press stressed that such an agreement would be welcomed by the peoples of Europe, would facilitate agreement on disarmament and cessation of nuclear tests, and would "help improve relations and bring closer together" the two German states.

3. The proposal was formalized in a 9 December 1957 Polish government memorandum, which was presented by Rapacki to the US, British, and French ambassadors in Warsaw. The then Soviet Premier, Bulganin, promptly endorsed the proposal in a series of letters to heads of governments throughout the world.

4. In 1958 Rapacki modified his plan, allegedly to make it more palatable to the Western powers. The new version of the plan, published in November 1958, called for a two-stage program, in which: (1) current nuclear stockpiles and bases would be frozen and production of nuclear weapons would be banned in Poland, Czechoslovakia, East and West Germany, and (2) existing nuclear stockpiles and weapons would be

*Proposed
Gaumer*

~~SECRET~~

eliminated as a part of a general disarmament agreement for the four-nation area. The revised version of the plan also called for "air and ground control" with NATO and Warsaw Pact countries participating in the control system.

5. Polish leaders have since 1957 pressed for a formal agreement on the Rapacki plan. Shortly after the opening of the Geneva disarmament conference in March 1962, the Polish delegation submitted a memorandum urging creation of a nuclear-free zone in Central Europe. The memorandum basically follows the lines of the former proposals of the Rapacki plan. The Soviet delegation is currently urging that the Geneva disarmament conference take up the question of nuclear-free zones in various areas of the world.

6. Since the Rapacki plan was introduced, it has had strong support from Moscow. The Soviets have even urged extending the zone to include Baltic and Balkan countries. Soviet leaders undoubtedly view the proposal as a means of eliminating German power in Central Europe--one of Moscow's major foreign policy objectives.

7. The US strongly opposes the Rapacki plan, viewing it as a Bloc device to neutralize Germany, to deepen and even perpetuate the division of Germany, and to secure de facto recognition of East Germany. Implementation of the proposal would also be militarily disadvantageous to the West. US military power in Europe would be diminished without a concurrent decrease of Soviet strength. It would weaken NATO.

8. The West German government is also vigorously opposed to the Rapacki plan and all such "disengagement" plans in Central Europe for the same reasons. Bonn also considers such proposals as sinister and subtly intimidatory to the West Germans, who do not choose to be dealt with as if they were inert objects, and who detect in such schemes a creation of conditions for their eventual communization.

9. Public endorsement of the Rapacki plan by the Mexican president would mark the first such specific approval by a government leader outside the Soviet Bloc. His endorsement would be widely propagandized by the Poles and the Soviets and could set a precedent for them to secure such approval by other nonbloc leaders.

ACT: As required.

**REF: MEXI 3573
DIR 21965**

1. Headquarters is sending herewith materials which KUMONK and KUWOLF staffs have prepared for a briefing of LITENSOR on countries he will soon visit. In order to expedite the pouching of these materials we are not taking time to edit them into a finished product at Headquarters. We are providing more materials and references than will be necessary for this briefing. The Station may select, edit and translate the information it considers most appropriate.

2. Attachment A. This is a list of references to pertinent articles in specific issues of the "Current Intelligence Weekly Summaries."

3. Attachment B. With the exception of the item on Cuba, these KUWOLF-prepared materials were not sent to Station Mexico City. They may be used to promote the ODYOPKE position on the Common Market, the Berlin problem, Cuba etc.

4. Attachment C. KUMONK compiled these materials. They include a current description of the situation in each country involved and biographic sketches on many of the officials with whom LITENSOR will probably meet during his trip. The biographic information has been taken from KUDARK and ODACID files. The Station should not pass any biographic information through which a line has been drawn on these attachments.

5. Evaluation of Trainees:

1. The three DFS trainees, LOZANO, MARINA, and GUZMAN, because of their previous training and experience in security activities of the DFS, more readily understood the training materials and lectures presented, and they were better able to incorporate the information learned into the field exercises conducted by the course. Again, because of their previous experience in DFS,

- 2 -

they out performed the other trainees in surveillance, counter-surveillance, deception, interrogation and in all other aspects of tradecraft that were covered. These three worked harmoniously with the remainder of the group and made every effort to pass along to them as the occasion arose the good practices learned from their own experiences in security work. All three are considered to be intelligent, alert, imaginative, industrious, and dedicated, and it is the writer's opinion that it would be a pleasure to work with them. All three undoubtedly have a good basic understanding of the typical mission of a national security service, and they know how a security service should go about its work and activities.

2. TREJO - Subject is a career Mexican Army officer and has had no previous experience in intelligence or security work. Throughout the course he was punctual, demonstrated a keen interest in the work, and took an active part in all classroom discussions and street exercises. It did appear, however, that in his discussions with his fellow class members he was usually quite opinionated and argumentative which might possibly indicate some inability on his part to get along well with his fellow workers in the unit. Based on his participation in the class as well as his written work, it is believed that he has a fairly good understanding now of the typical mission of a security service, and the tradecraft principles involved in security service work.

3. LOPEZ y LOPEZ - the only civilian in the group, excluding the D/S trainees, is the youngest of the trainees and appears to have the least formal education. Although he did not participate in the classroom discussions as energetically as did most of the others, he did make contributions from time to time and generally did a good job on all exercises carried out by the group. He appears to lack some of the drive and imagination necessary to become an effective operator and handler of agents. He kept his mouth closed in his relations and conversations with others in the group, but the writer never noted any friction between him and others. It is suggested that he might best be used as the "office keeper" and/or person in charge of the files. Somewhat surprisingly, he did a fairly good job on the reporting exercises. His written work is neat and well organized.

- 3 -

4. CHAMBERS - Subject is an intelligent, alert, imaginative and conscientious man, and it is believed that he will make a valuable contribution to the work of the unit. He participated actively in the classroom discussions and field exercises and made a real contribution to both. On exercises where he was in charge, he got along well with those working with him, and his planning and execution of the exercises indicated clearly that he is able to apply the lessons learned to the practical work. CHAMBERS, it is believed, will develop a real interest in security work and, after some experience, become an effective operator. It is believed, also, that he would be able to supervise others in such a way as to cause them to work together effectively and as a team. His written exercises were well prepared, indicating that he not only learned from the classroom reading and discussion but that he also spent considerable time on them.

5. SALINAS - Subject seems to possess an average aptitude for security work. Like the others, he was always punctual, took an active part in the field exercises, but was somewhat less aggressive in the classroom discussions. He prepared his written exercises in an acceptable manner. Assuming that he should develop a real interest in security work, it is believed that he would make a worthwhile contribution to the work of the unit. He got along well with the others, including the occasions when he was in charge of exercises.

6. MARGAIN - like SALINAS, Subject is capable and intelligent, and he gets along well with his fellow co-workers. His usefulness to the organization, it is believed will depend on the interest he develops in security work after the unit begins operations. As in the case of CHAMBERS, MARGAIN in discussions and in field exercises seemed to give more consideration to the security factors involved in particular actions than did the others. Many of his questions in the classroom were related to security factors involved in recruiting and handling of agents, operation and conduct of surveillance activities, and the possibility of compromises that might result in compromise to the sponsor. It is believed that he would give careful consideration to any proposed operational activity from a security point of view before execution of the tasks involved. His written exercises were well prepared, indicating that he gave them considerable time and attention.

- 4 -

7. CANZI - Subject, the youngest of the Army group, is a very intelligent, alert and conscientious young man. He possesses considerable drive, initiative and imagination, and on numerous occasions came up with ideas on proposed exercises. His written exercises were well prepared, and he did a good job on the field problems. Given his youth he might be prone to take unnecessary risks, but it is believed that with more experience and time he will make an excellent officer. Like all the others, he accepts criticism readily and on all occasions when observed by the writer he got along well with his fellow workers.

6. COMMENTS

1. The above comments, it should be noted, are based on a rather short observation period; they should be considered accordingly. The size of the group, somewhat larger than usual for one instructor, necessitated that the instructor spend less time with each trainee than usual. The writer appreciated the opportunity to work with the group and enjoyed it tremendously. He considers them a fine group of men and feels that with time and experience they will make a valuable contribution to the work they will be charged with.

2. In accordance with the expressed wishes of their supervisor, the following suggestions and recommendations are being made. Assuming that no additional men will be needed to the unit for the time being, it is suggested that CANZI might be made deputy chief of the unit, and MIRCAIN in charge of operations. Assuming that additional men are to be added later, it is suggested that the remaining three, excluding LOPEZ y LOPEZ, might be made section chiefs. CANZI seems to have a more than normal interest in surveillance, and thus might be given that responsibility. MIRCAIN might best fit as section chief of the group charged with operations against Communist and extremist groups, while MIRCAIN might best fit as section chief in charge of exile activities. These comments are based almost exclusively on their apparent interests, based on questions asked and comments made during the classroom discussions but the writer does not mean to suggest that they should be limited to the above proposed assignments.

3. Finally, the writer wishes to thank those responsible for excellent cooperation and support provided during the training course. The cooperation and support provided facilitated the orderly conduct of the course considerably.

.../

d. A copy of all the training materials was left with LOPNEZ y LOPMZ for the unit. It is strongly suggested that an effort be made within the next three or four weeks to review the materials in a more or less formal classroom situation. Furthermore, it is suggested that until such time as the unit begins operations, the unit plan and carry out surveillance and other exercises designed to improve their capability.

<p>1. As indicated in Reference and other communications, a training request was made by the Station and approved by Headquarters, to train a group under the LIENVOY Project to follow up on leads produced by the joint LIENVOY operation and presumably other Mexican Government unilateral sources. Lee R. MYLECHRAINE, WOMOLD instructor who was assigned to the Mexico City Station until 8 July 1968, was selected as the instructor. MYLECHRAINE arrived in Mexico City on 9 January 1969; the training began on 13 January and ended on 10 February 1969. The training was conducted at a training site, Calle Tabasco #228, Colonia Roma, Postal Zone 7, Mexico City, provided by LIENVOY-2 and LIELEGANT; the building in which the training site apartment is located is owned by LIELEGANT, and the latter and LIENVOY-2 have their offices there. The unit, upon completion of the training, will use the apartment in which the training was conducted for their offices.</p>

CONTINUATION OF DISPATCH	CLASSIFICATION S E C R E T RYBAT	DISPATCH SYMBOL AND NUMBER HMMA-36431
<p>2. The LIENVOYS had originally requested that five (5) of their men be trained. However, upon arrival in Mexico City and just prior to the scheduled beginning of the training they requested that they be permitted to add one man and that two men be included in the class from the Direccion Federal de Seguridad (DFS). In the latter case, they submitted three names but said that only two of the three would be expected to attend the class. As it turned out all three of the latter group turned up, thus bringing the class to nine (9) students, five (5) Army officers, one civilian from the LIENVOY group, and the three DFS men. Following is a list of the trainees:</p> <ul style="list-style-type: none"> (1) Felix LOZANO Rangel, DFS, age 35. (2) Javier MANCERA Fuentes, DFS, age 33. (3) Esteban GUZMAN Salgado, DFS, age 33. (4) Leonardo LOPEZ y LOPEZ, age 23. (5) Felipe TREJO Gonzalez, Lt. Col., Mexican Army, age 46. (6) Mariano CHANTRES Molina, Captain, Mexican Army, age 39. (7) Ladislao SALINAS Alor, Captain, Mexican Army, age 31. (8) Jorge MARGAIN Ortiz, Captain, Mexican Army, age 29. (9) Rogelio Rafael GARZA Hernandez, Lieutenant, Mexican Army, age 26. <p>3. The training objective of the program was to familiarize the trainees with the basic tradecraft principles and techniques involved in the conduct of clandestine activities, with primary emphasis on the work and activities of security services. Although largely tutorial in nature, numerous exercises were conducted in Mexico City, including two live problems which will be explained later in this dispatch, to further familiarize the trainees with the techniques involved in surveillance, counter-surveillance, personal meetings, deaddrops, interrogation, and investigation. The course included discussion and reading material on opposition to clandestine activities, organization and functions of a security service, personal, physical and organization security; cover, concealment and compartmentation, as well as the basic operational skills of observation, description, casing, surveillance, and elicitation and interviewing. Considerable time was spent on reporting and clandestine communications, as well as on agent acquisition and agent handling.</p> <p>4. With the agreement of LITEMPO-12 (who said verbally that he had consulted with LITEMPO-4) and LIENVOY-2, the three DFS trainees detained Hector SENTIES Rodriguez, who is known to have had clandestine contact with the Soviets, for interrogation. He was detained on the street near his home on the early morning of 4 February 1969 and interrogated throughout the day at a motel, the Palo Alto, located at Km 14 on the Mexico City-Toluca highway. The other six (6) trainees were able to overhear the entire interrogation but did not actually take part for security reasons. They did not see SENTIES, nor did the latter see them. In line with the discussions and reading material, this live interrogation was of great value to them. Also, on 3 February 1969 LIENVOY-2 passed along to MYLECHRAINE a good lead concerning Carlos PEREZ Aguirre, a young Mexican who also has contact with the Soviets and Cubans. Unfortunately, only one-half day could be spent on investigating</p>		
CLASSIFICATION <input type="checkbox"/> CONTINUED PAGE NO.		

CONTINUATION OF DISPATCH	CLASSIFICATION S E C R E T RYBAT	DISPATCH SYMBOL AND NUMBER HMMA-36431
<p>this lead, but even this was of value to the trainees. One trainee was required to make a pretext telephone call, another team of two made a neighborhood check, and the remainder were divided into teams to check with Transito, the Ministry of Defense, the Social Security Institute and the Metropolitan Police. Except for the last team, all picked up some information of value, and the information and its significance in terms of the projected investigation of PEREZ was discussed with them.</p> <p>5. The performance of the class as a whole was remarkably good. The three DFS men, because of their previous training and experience, were able to absorb and understand the lectures and reading material much more quickly than the others. None of the others had any previous training or experience in intelligence or security work. However, they were keenly interested, actively participated in classroom discussions and field exercises, and all prepared their written work in an acceptable manner. The instructor reviewed all written work with them, as well as plans for meetings, etc., and this proved most helpful. Somewhat unusual for Latins, all students were punctual; there were some very small and unimportant delays, but for the most part these were due to the exceedingly difficult traffic situation in Mexico City or to other reasons apparently beyond their control. No student was absent from classes during the entire training period, and no student was late for more than 45 minutes or an hour.</p> <p>6. In summary, the instructor and the Station feel that the training objective was accomplished, and that the trainees, although not yet experienced operators, have a sufficient enough understanding of the basic tradecraft principles and techniques to permit them to begin operations. They are all intelligent and alert men, and except for LOPEZ y LOPEZ all have an Army background. CHANTRES is quite imaginative and resourceful, but also quite cautious and concerned about the possibility of flaps and compromises. He gets along well with all his fellow workers, and undoubtedly has real leadership qualities. TREJO is somewhat talkative, opinionated and argumentative, and may have trouble supervising others, but he, too, demonstrated considerable imagination and resourcefulness. GARZA, the youngest of the Army group, appeared to be the most pro-American, is very imaginative, and possesses considerable drive and energy. On one occasion he had the instructor out to lunch at his home, where he lives with his wife (they have no children). He commented on numerous occasions about his many (almost annual) shopping trips to San Antonio, where his wife has a number of close relatives. GARZA, it is believed, would probably be the most susceptible to development and possible recruitment of the group.</p> <p>7. Except for the remarks in paragraph 6 above, no individual assessment will be forwarded herewith. The instructor has prepared a memorandum on each man, including the DFS group, setting forth his observations and opinions, as well as any information he was able to obtain on the trainees.</p> <p>8. MYLECHRAINE used the name "Sr. Tomas" with the trainees; so far as is known they did not learn his true name, nor were they aware where he was living in Mexico City. Likewise, they are not aware that he has served previously in Mexico. There were no incidents involving security during the training period, and no other incidents or events that should be reported.</p> <p style="text-align: right;"><i>Willard C. Curtis</i> Willard C. CURTIS</p>

REF MEXI 1919 (IN 20593)

1. MOSCOW'S STATEMENT OF 11 SEPTEMBER ON CUBA APPEARS DESIGNED TO ADVANCE VARIETY OF SOVIET OBJECTIVES, FOREMOST AMONG THEM BEING TO DETER US FROM ACTIVE INTERVENTION IN CUBA. ALTHOUGH STATEMENT AGAIN USED VAGUE AND AMBIGUOUS LANGUAGE TO AVOID CLEAR-CUT COMMITMENT TO DEFEND CUBA IN ALL CONTINGENCIES, IT HAS FURTHER ENGAGED SOVIET PRESTIGE IN ENSURING SURVIVAL OF CASTRO REGIME. AS BEFORE, HOWEVER, USSR IS ATTEMPTING TO CREATE IMPRESSION CUBA IS UNDER PROTECTION OF SOVIET NUCLEAR AND MISSILE POWER.

STATEMENT WAS ALSO CALCULATED TO ENABLE MOSCOW TO CLAIM FULL CREDIT FOR HAVING PROTECTED CUBA IF NO US-SUPPORTED INVASION OR INTERFERENCE WITH SOVIET SHIPPING MATERIALIZES. IN ADDITION TO THIS DETERRENT EFFECT, MOSCOW APPARENTLY IS ATTEMPTING TO CHECK GROWING CONCERN IN US AND LATIN AMERICA OVER SOVIET INTENTIONS IN CUBA. IT STRESSED DEFENSIVE NATURE OF SOVIET MILITARY EQUIPMENT BEING FURNISHED CUBANS AND IMPLICITLY DENIED ANY SOVIET INTENTION TO ESTABLISH MILITARY BASES IN CUBA.

STATEMENT, MOREOVER, CONVEYED INDIRECT ASSURANCE THAT USSR WILL COORDINATING OFFICERS

MEMORANDUM FOR: WH/Personnel
SUBJECT : Request for Outside Translator

1. It is requested that you contact the appropriate Career Boards to try to locate candidates to fill the job now being held by George Misko in Mexico City, but under deep cover. He must have the following qualifications:
 - a. Languages: Russian (fluent), Czech (fluent), Spanish (would be expected to bring proficiency of Spanish up to good). Also provide names of candidates having only Russian and Spanish.
 - b. Job: translating telephone tap tapes
 - c. Age: any age acceptable
 - d. Sex: male or female but male preferable
 - e. Grade: grades 9 through 12 should be considered
 - f. Security: Would be sent to Mexico City to work in a basehouse with Mexican liaison personnel and one KUBARK Staff Agent. Must be willing to expose himself as KUBARK to Mexican Government.
 - g. Cover: Would be provided by Mexico, could bring family and limited household effects. Will have no contacts with Embassy or have any Embassy privileges.
 - h. Type of Employee: Career Agent or Contract Agent preferred. If not available, Staff Agent or Contract Employee Type B would be suitable.
2. Any questions on this request should be directed to Charlotte Bustos-Videla, WH/J/Mexico, X2555.
3. It is the intention of this desk to slot this new employee into a LIENVOY slot and vacate the Station/Embassy slot for another PI Case Officer.

Chief of Station, Mexico City			X	NO INDEXING REQUIRED	
INFO				ONLY QUALIFIED HEADQUARTERS PERSONNEL CAN INDEX INDIVIDUALLY	
FROM	Chief, WH Division			ABSTRACT	
SUBJECT	Material for Passage to Liaison 101 Questions to a Guerrilla Fighter			DISSEMINATE	
ACTION REQUIRED: RECOMMEND					

ACTION REQUIRED: RECOMMEND

1. Attached are two copies of General Alberto Bayo's book (in Spanish) for use in briefing or training agents or members of security forces with which we have liaison. This book is a "do-it-yourself" guide to paramilitary and sabotage techniques. It demonstrates Cuban support for such activities and the need for training in counter-measures by friendly security forces.

2. Headquarters has recommended that all WH Stations have one or more of these books, especially those where official or unofficial liaison exists with a security force.

3. If Station Mexico is interested in this book, a limited number of copies can be obtained. Prior to releasing any of these copies, Headquarters must know the individual and service receiving the book thereby allowing its clearance release.

SUBJECT: Request for LISTAR Project Renewal

1. In accordance with the new policy of charging all costs in connection with Staff Agents to Station Support and not to a project, there is an adjustment required in the budget figures quoted in the attached memorandum requesting project renewal.
2. The LIENVOY Project should be approved for a total of \$43,240; \$17,152 for fiscal year 1962 and \$26,088 for fiscal year 1963. Funds totaling \$8,330 in fiscal year 1962 and \$19,570 in fiscal year 1963 will be transferred to Mexico City Support to fund Arnold P. ARSHART, Staff Agent.
