FROM:	Chief of Station, Mexico City		
SUBJECT:	DTW Replacement for Arnold F. ARNSHAWT (ps)		
AMERICAN AIRWAYS			
Reference: DTMF-474 dated 1 <sup>st</sup> July 1964			
<p>1. Arnold F. ARNSHAWT (ps) would like to depart from Mexico on 10 September 1964 for home leave and return about 26 September 1964. He does not wish longer leave since it will be necessary to take his younger son out of school. His older son will be entering college in the United States which is the reason ARNSHAWT requested leave at this time.</p> <p>2. A technician would be preferable to an operations officer as a temporary replacement for ARNSHAWT as the burden of the job will be maintenance of equipment and protection of DTW/AMX interests inside the ID. Since ARNSHAWT will be away for three years, it is requested that Headquarters personnel assign a technician. The technician will be better able to do the job if he has Spanish; this, however, is not essential as certain DTW/AMX speak English.</p>

<p>1. Referenced dispatch which reflected the Station's appreciation of Newton T. RUTSAY's high level of performance during his recent TDY in Mexico and requested his return TDY was brought to the attention of the appropriate KURIOT officials.</p> <p>2. Unfortunately, RUTSAY will not be available to replace AREHART during the latter's home leave period in the fall of 1964, and KURIOT has no one else they can release for a prolonged period this fall. Since the leave probably will only be about two months, Headquarters wonders whether a technician is absolutely required. Does the Station believe that an operations officer, with some Spanish and who could merely take over the administrative work and make the Station contacts, could fill in during this period?</p> <p>3. We are not sanguine that a replacement can be made available particularly since the man will of necessity need to be "exposable" to liaison, but will try our best to find one. In the meantime, please forward the exact dates it is desired the hoped for man should be in Mexico to allow for adequate overlap.</p>

<p>1. Arnold F. AREHART asked that his TDY replacement inquire at Headquarters regarding the status of his request for equipment which the Station forwarded to Headquarters as Requisition No. 358-19-64. Headquarters has shipped to Corpus Christi the items he requested in connection with the Revere (shipped 20 April), and the Heath and Allied items were shipped on 7 May. The Ampex and B-10 items have not yet been received at Headquarters from the supplier. Headquarters will pouch all items from these that weight and size will permit, the remainder will have to be shipped to Corpus Christi. In view of the equipment listed in LGIS 6020, 18 May 1964, which is also awaiting pickup at Corpus Christi, perhaps there will be a flight soon.</p> <p>2. MEMORANDUM FOR: Chief, TSD/AOB

SUBJECT : LIENVOY TDY Report

1. TDY support of the LIENVOY operation in Mexico City was provided by this office during the period 23 April to 15 May 1964. The Staff Agent, ARNOLD F. AREHART who manages this operation underwent surgery for a hernia on the 24th of April. The undersigned assumed the responsibilities and performed the duties associated with the LIENVOY operation during AREHART's convalescence. He was incapacitated for duty from 23 April until 12 May. His operation was successful and recovery was normal. AREHART returned to work on 12 May in a weakened condition and three days of overlap was allowed to provide assistance with the more strenuous and tiresome chores.

2. The LIENVOY installation was found to be in excellent condition. The operating personnel were well disciplined and their procedures were well organized. The daily work was being accomplished in a business like and efficient manner. AREHART has done a commendable job in establishing and maintaining this highly productive operation.

3. The equipment in this installation has been in use fifteen hours a day for over four years. As the result of good maintenance practices it is in good shape and functioning well. The minor difficulties encountered during the shake down period have been overcome and equipment maintenance and repair pose no significant problem. There was no loss of coverage on any line during the three week TDY.

4. The following observations and recommendations are included herein to improve KURIOT services to the Field and to acquaint responsible officers with technical discrepancies.

A. Pertinent technical information is not being communicated to AREHART.

FYI. 1. In connection Venezuelan complaint to OAS, discussions in Standing Group of NSC have identified two alternatives for cooperative system surveillance and interception of vessels and aircraft engaged in transporting arms for subversive purposes to Latin America (especially Caribbean area) directly or indirectly from Cuba. Difference between alternatives centers on need for OAS authorization for use of force in international waters.

2. Alternative A would require OAS authorization use of force in connection with visit-and-search in international waters against selected Cuban vessels and selected vessels OAS countries. It would be a cooperative system of surveillance and interception involving visit-and-search in international waters on a selective basis, with force to be used if necessary. Visit-and-search and, if resistance met, force would be applied by naval units of US or of cooperating OAS countries against selected vessels suspected of transporting arms from Cuba, directly or indirectly.

3. Alternative B would not require OAS authorization to use force inasmuch as visit-and-search would take place only within territorial waters. It would be a cooperative system of surveillance and interception involving visit-and-search only within the territorial waters of an OAS country, with force to be applied, if necessary, by that country's forces or by forces of another OAS country acting under a bilateral agreement. Control of suspect vessels destined for non-OAS country or territory (e. g. British Guiana) would depend on cooperation that country.

4. In both alternatives interception or seizure of suspect aircraft would be carried out only in territory of OAS country of destination by forces of that country or of another OAS country acting under a bilateral agreement.

5. Comparison of alternatives:

(a) Alternative A would be much harder to sell to OAS countries than Alternative B because authorization for use of force required.

(b) Alternative A would be somewhat more effective both in fact and as deterrent than Alternative B, although both can be circumvented.

(c) Alternative A would constitute harassment of Castro whereas Alternative B is purely defensive.

(d) Alternative A would incur substantially greater risks of escalation than Alternative B.

~~SECRET~~

Page 3 of telegram to Ambassador MEXICO CITY, RIO - INFO: CACAS

~~SECRET~~

(e) Alternative A would be more expansive in terms of US units required than Alternative B.

6. Kind and number of additional measures which we would seek in OAS would vary with choice between alternatives. For example, our tentative thinking is that minimum OAS package acceptable to US under Alternative A would be: authorization use force; condemnation Castro regime; and reaffirmation of invigoration anti-subversive measures. Under Alternative B, similar package now estimated to be: defensive system with search and seizure within national territory; condemnation; reaffirmation anti-subversive measures; and obligatory break in air and surface communications between OAS countries and Cuba.

7. We consider attitude Mexico and Brazil critical. OAS vote authorizing use force in which one or other did not join would be politically undesirable. END FNL.

8. Action requested

Chief of Mission should take first opportunity of conversation with FonMin on other matters to explore discreetly and informally indicating he acting personally and without instructions the probable receptivity of COM (CGB) to an OAS resolution authorizing use force.

Ambassador should proceed on assumption report CAS investigation committee

1. IN ADDITION TO REFERENCE REPORT, FBIS REPORT OF 11 DECEMBER SAYS TELLO, IN INTERVIEW WITH NOVEDADES, CRITICIZED OAS CLAIMING IT IN STATE OF CRISIS AND THAT CUBA'S EXCLUSION FROM OAS IS VIOLATION ITS CHARTER. THESE REPORTS SUGGEST TELLO DELIBERATELY ATTEMPTING PRE-ESTABLISH MEXICAN POLICY WITH REGARD CENSURE ACTION AGAINST CUBA. IN VIEW IMPORTANCE MEXICAN POSITION THIS RESPECT, THESE REPORTS MATTER OF CONSIDERABLE CONCERN HERE AND IT FELT NECESSARY TAKE APPROPRIATE ACTION COUNTER TELLO TACTICS IN WAY THAT WILL RESULT IN MEXICAN SUPPORT FOR STRONGER OAS ACTION.

2. HEADQUARTERS HAS CONVINCING INTELLIGENCE FROM VENEZUELAN SOURCES AS WELL AS OUR OWN WHICH SHOWS CONCLUSIVELY THAT ARMS DISCOVERED IN VENEZUELA ARE DISTINCTLY CUBAN. A NUMBER OF WEAPONS CAN BE IDENTIFIED AS ESPECIALLY DESIGNED FOR CUBAN ARMY. ARMS DISCOVERED IN GENERAL WERE OF A TYPE AND IN SUFFICIENT NUMBERS TO SUPPORT PLAN FOR TAKE-OVER OF CAPITAL CITY OF CARACAS. THEIR APPEARANCE IN VENEZUELA TIES IN SPECIFICALLY WITH KNOWN FALN PLANS WITH REGARD TO LOCATION AND TIMING. THE LATTER SUPPORTED BY DOCUMENTARY EVIDENCE TAKEN FROM CAPTURED FALN MEMBERS

1. MUCH IMPRESSED WITH HORSFALL. TRANSCRIPTION TESTS VERY SATISFACTORY. BELIEVE LINGUISTIC CAPABILITY AND EXPERIENCE BUEN AND BANG QUALIFY HIM EXCEPTIONALLY WELL FOR LICAPER SUPERVISOR OR LIENVOY IF IT CONTINUES. APPEARS CAPABLE ADAPTING MEXICAN PECULIARITIES AND NOT AVERSE BEING CUT OFF FROM OFFICIAL COLONY.

2. MAIN QUESTION ONE OF TIMING. KNOW HE EAGER RETURN HERE AND GET SETTLED. HOWEVER FEEL UNDESIRABLE EXPOSE HIM LIENVOY PERSONNEL IF HE TO WORK ULTIMATELY IN LICAPER. DO NOT WISH LOSE HIM HOWEVER AND CAN GUARANTEE KEEP HIM BUSY DOING PBBAND TRANSLATIONS FOR LITENSOR AND LIENVOY PBRUMEN TAPES WHICH WOULD REMOVE FROM LIENVOY FOR THIS PURPOSE. WE ARE TOLD SAS WANTS THESE VERSATIM WHICH LIENVOY PRESENT STAFF CAN NOT HANDLE.

3. STATION REQUESTS THEREFORE RETURN HORSFALL HERE SOON AS FEASIBLE IN TOURIST STATUS. WOULD LIVE IN FURNISHED QUARTERS UNTIL NEW PRESIDENTIAL CANDIDATE NAMED (EARLY OCTOBER AT LATEST) AND FATE OF LIENVOY AND LICAPER KNOWN. AT THAT TIME CANDIDATE CONCERNED WOULD ARRANGE COVER AND HORSFALL STATUS WOULD CHANGE FROM TOURIST AND HOUSEHOLD EFFECTS COULD BE BROUGHT IN. PLEASE .

MEMORANDUM FOR: WH/Personnel  
SUBJECT : Request for Outside Translator

1. It is requested that you contact the appropriate Career Boards to try to locate candidates to fill the job now being held by George Misko in Mexico City, but under deep cover. He must have the following qualifications:
  - a. Languages: Russian (fluent), Czech (fluent), Spanish (would be expected to bring proficiency of Spanish up to good). Also provide names of candidates having only Russian and Spanish.
  - b. Job: translating telephone tap tapes
  - c. Age: any age acceptable
  - d. Sex: male or female but male preferable
  - e. Grade: grades 9 through 12 should be considered
  - f. Security: Would be sent to Mexico City to work in a basehouse with Mexican liaison personnel and one KUBARK Staff Agent. Must be willing to expose himself as KUBARK to Mexican Government.

Chief of Station, Mexico City		X	NO PAGING REQUIRED	
REO			ONE QUALIFIED HEADQUARTERS DESK OR REO PUSHER	
FROM			ABSTRACT	
Chief, WH Division			DISSEMINATE	
SUBJECT:				
Material for Passage to Liaison 101 Questions to a Guerrilla Fighter				
ACTION REQUESTED: RECOMMEND				
<p>1. Attached are two copies of General Alberto Bayo's book (in Spanish) for use in briefing or training agents or members of security forces with which we have liaison. This book is a "do-it-yourself" guide to paramilitary and sabotage techniques. It demonstrates Cuban support for such activities and the need for training in counter-measures by friendly security forces.</p> <p>2. Headquarters has recommended that all WH Stations have one or more of these books, especially those where official or unofficial liaison exists with a security force.</p> <p>3. If Station Mexico is interested in this book, a limited number of copies can be obtained. Prior to releasing any of these copies, Headquarters must know the individual and service receiving the book thereby allowing its clearance release.</p>
