Re: Request Pertaining to Electronic
Surveillance

[SAC Law 10(a) E Law 10(a)1]

In respect to Item 6 (c), there are enclosed, communications (see Exhibits A through X) disclosing the authorization of the above-described elsur.

As previously set forth, a misur was installed on [redacted]
at [redacted]

A thorough, exhaustive search was conducted of numerous FBI files in an effort to locate an FBI Headquarters (FBIHQ) communication disclosing an authorization to place this misur. However, the search was unsuccessful. There was located, however, a Radiogram dated [redacted] from the [redacted] (see Exhibit F) revealing that a misur was installed which in effect acknowledged that Bureau instructions were carried out regarding this misur coverage and indicates that Bureau authority was obtained.

In regard to the matter involving the authorization of misurs, the procedures in effect at the time most of these misurs were in operation did not require specific written authority from the Attorney General. At that time, authority for FBI misurs was maintained at FBIHQ and authorization for utilizing a misur was made by the FBI Director or his designees based on a memorandum from Attorney General Herbert Brownell dated May 20, 1954, which recognized FBI authority to institute such surveillances. (see Exhibit W). Subsequent to March 30, 1965, the aforementioned procedure was changed wherein the FBI, in requesting authority for the installation of a misur, in each instance forwarded such request to the Attorney General for his approval or disapproval. (see Exhibit X). Other exhibits enclosed with this memorandum and pertaining to the approval of misurs by FBI officials contain the initials of the late Director J. Edgar Hoover or his designees to make such approvals.

Re: Request Pertaining to Electronic
Surveillance

In respect to terms, on facilities under the control of the SCLC and approved by the Attorney General, the reason for the placing of such terms lies in the fact that the SCLC and Martin Luther King, Jr. as its president, were subjects of intensified FBI investigations at that time. (see Exhibits A and B). Thus, an integral phase of the FBI's coverage of King was also its coverage of the SCLC.

~~3500 Ltr 10(a)(1)~~ Law 10(a)(1)

In respect to that part of Item 5, wherein the SSC requested a list of all elsur which "intercepted and/or monitored" any conversations of Martin Luther King, Jr. at any time between January 1, 1960 and April 5, 1968, an extensive, exhaustive review has been made of Bureau files, including a review of the elsur indices, Martin Luther King's main file and other files directly and indirectly related to the investigation of Martin Luther King, Jr., to satisfy this part of the request. As a result of this review, it was determined that Martin Luther King, Jr. [redacted]

[redacted] In addition, to further satisfy this part of the request, inquiries have been made of some field offices concerning this particular aspect. However, their extensive review has been unsuccessful. One reason for the unsuccessful attempts to retrieve this particular information both at FBIHQ and in the field can be attributed to the fact that FBI elsur indices did not come into existence until October 5, 1966, and did not become operational for a period of time following October 5, 1966.

In respect to Item 6 (d) which requested data concerning FBI dissemination of information concerning King, we are not supplying this data pursuant to an agreement between Mr. Mark Gitenstein of the SSC Staff and Special Agent Elmer Larson of the FBI.

Re: Request Pertaining to Electronic
Surveillance

NOTE:

Technical coverage information set forth in this memorandum was extracted and retrieved following an exhaustive, extensive research of Martin Luther King's "June" file, his main file and the "June" files of the Communist Influence in Racial Matters (CIRM), the Communist Party, United States of America (CP, USA) and SCLC. In addition, sundry other files were reviewed that were directly or indirectly related to the investigation of Martin Luther King. The enclosures (see Exhibits A through I) to the memorandum were also the result of the review of aforementioned files. These files and the elser indicies were reviewed by Special Agents George R. Ross and Robert D. Shea. In regard to Item 6 (d) set forth in Appendix D of the 3/14/75 letter, an agreement was reached between SSC Staff Member Mark Gitenstein and Supervisor Elmer Larson of the Sonstudy 75 Project that a response to Item 6 (d) is not necessary. Item 6 (d) is as follows: "A list of all memoranda and other material reflecting dissemination outside the FBI of information from each surveillance, stating author, address (s) and date(s) together with the purpose of such dissemination." From a review of the elser indicies,

[REDACTED] Law 10(a)(1)]

The description of Martin Luther King was excised from the middle of Exhibits A and B as it could possibly pinpoint NY 694-3, an extremely sensitive source, who furnished name (see unexcised copies of Exhibits A and B). ll
