CONTINUATION OF
DISPATCH

SECRET

BMMA 35074

1. On 15 May 1968 LIFEUD-2, LIFEUD-3, LIFEUD-24, LIFEUD-15 and LIFEUD-16 were granted small salary increases. ALSO, LIFEUD-15 PARTRIDGE was placed on a monthly salary, which replaced his previous hourly pay rate. Amended Memorandums of Oral Agreements were forwarded to Headquarters.

2. As is normal in this Project, daily operational meetings were held with David A. WILSTEN and LIFEUD-24 in order to pick-up LIFEAT personnel and to discuss various operational aspects of the project and facilitate continuation of activities.

BASEHOUSES

3. On 1 April 1968 LIRISK employees started extensive renovation work in the area around LIFEAT Annex 6. Because of this, the basehouse was shut down and all of the LIFEAT lines were removed. This renovation work was completed on 21 June and the basehouse was back in operation in early July.

4. LIRISK work in the area around LIFEAT Annex 8 caused the closure of this basehouse from 19 April until early May.

5. In June 1968 the Statron made the decision to close down LIFEAT Annex 5 and move the basehousekeepers, LIFEUD-35 and -36, to another area. The reasons for this decision were two-fold:
A) LIFEUD-35 and -36 have four children and Annex 5 was too small for them, and B), the annex needed extensive repairs which the landlord refused to have done because he was planning to sell the building. A new basehouse, Annex 9, was located and Annex 6 was closed on 20 June. The basehousekeepers are now in Annex 9 and target coverage commenced in early July.

6. Paragraphs 7, 8 and 9 explain the reduced coverage provided by LIFEAT during the three month period under review.

SECURITY

7. No known security incidents occurred during this period.

PLANS

8. It presently appears that LIFEUD-5, basehousekeeper, will be transferred by his company to the Guadalajara area. If this occurs, we will accept the resignation of LIFEUD-5 and -15 and close down Annex 5. In view of this Project Officers presentivly are looking for replacements and Operational Approvals will be requested as soon as suitable candidates are located.

MEMORANDUM FOR: DDP/AIPS

VIA: WH/LOG

SUBJECT: Project LIFEAT - Request for Increase
in Transportation Vehicle Allowance (TVA)

1. It is requested that the TVA for Project LIFEAT be increased from six to eight to cover the use of two additional cars:

POV of Carol K. ZINSMEISTER (P), translator \$300 per annum

POV of LIFEUD/35, safehousekeeper \$250 a month

2. Funds for the above POV allowances in lieu of reimbursement by the mile are included in the project renewal.

NOTES:

Action Required: For Your Information

1. Forwarded herewith are amended Memorandum of Oral Commitments for several assets involved in the LIFEAT Project. These MOCs reflect salary changes effective 1 July 1968 as follows:

ASSET	HQ 201	INCREASE PER MONTH
LIFEUD-2	201-117970 -	\$ 25.60
LIFEUD-3	201-117971 -	20.80
LIFEUD-6 (Olga A. PARFINIK)	201-117978 -	See below
LIFEUD-24	201-119525 -	30.00
LIFEUD-32	201-749002 -	24.00
LIFEUD-35	201-740227 -	24.00

2. The salary for LIFEUD-6 (Olga A. PARFINIK) was changed from an hourly rate to a flat monthly rate. The figure reached was calculated from a six-month average of payments. The actual increase amounted to slightly less than \$10.00 per month.

29 August 1967

MEMORANDUM FOR: CI/OA
ATTENTION : Mr. Lally
SUBJECT : Amendment of OA for Antonio DOUBLETTE
(201-312729)
REFERENCE : Form 124 dated 22 November 1966

1. In accordance with Reference, Subject was granted an OA on 22 November 1966 to permit the WH/7/Haiti Desk to utilize Subject as a **Creole** translator **of unclassified tapes**. Subject was recruited in December 1966 and has been performing this function satisfactorily since that time.

2. It is now requested that Subject's OA be amended to permit WH/7/Haiti Desk to utilize his services **to translate sensitive telephone tapes (LIVEAT) from the Spanish, French and Creole languages into English**. To date the Mexico City Station has been providing Headquarters with a translation of the **Spanish and French portions of this** intelligence take, with Port-au-Prince Station assisting with translation of the **Creole** portions. Recently, however, the Port-au-Prince asset departed Haiti and, at present, neither Station has the capability to translate the **Creole** portions. Since it is believed that the **Creole** portion may contain important operational information from a CI standpoint, the Haiti Desk proposes to utilize Subject to fulfill this gap. Subject will be polygraphed before he is given this added task. Your expeditious attention to the above request would be appreciated.

3. If you desire further information, please call **Ruth Lehman, WH/7/Haiti, x5595.**

Robert W. Berg
Chief, WH/7/Haiti

AGENT EVALUATION

DATE: 10 May 1967

1. NAME (g): David M. WILSTED - Career Agent OS-15
2. PROJECT : LIVETAT
3. OVERT JOB TITLE: Technical Supervisor

4. COVERT JOB TITLE: Outside Case Officer for the LIVETAT Project.

5. JOB DESCRIPTION :

- A. OVERT: a) Assure proper maintenance of machinery
b) Categorize and schedule incoming production orders
c) Public relations with customer businesses
- B. COVERT: a) Overall supervision of all LIVETAT technical penetrations or other technical installations involving LIVETAT personnel
b) Supervision of technical penetration routing and security
c) Resolution of the complex technical and maintenance problems inherent in a Project such as LIVETAT
d) Accounting for expenditures in the neighborhood of \$6,000.00 US per month as well as being responsible for about \$25,000.00 US in WOPACT property
e) Responsible, with the Station Case Officer, for the day-to-day handling of 21 active LIVETAT agents.

6. EVALUATION

a. Performance of duties set forth in paragraph 5 above without prejudice to either: WILSTED presently devotes about 50 percent of his working time to his LIVETAT duties. The remainder is devoted to his cover duties. This time allotment has the agreement of the owner/manager of his cover organization. WILSTED's cover manager, LIVEDER-1, likes and respects WILSTED and they have a good working arrangement. WILSTED, LIVEDER-1 and the Station believe that the present arrangement is satisfactory for all concerned. WILSTED in conjunction with a production manager whom WILSTED hires, has assisted in converting the cover company from a losing proposition into a profitable enterprise. The owner is grateful to WILSTED for this.

b. Attitude towards WOPACT, Cover Organization and present assignment. WILSTED has an excellent attitude toward his employment with WOPACT and has never been heard to be critical of it or its objectives. He is happy with his present assignment since he now considers Mexico City to be his home. WILSTED's wife, who is a Field Agent, also has a good attitude toward WOPACT and its objectives. She understands the reasons behind the long and varied hours worked by WILSTED and the need for security. She is a definite asset to WILSTED in supporting his cover in conversations with friends and relatives.

c. Security and Discretion: WILSTED is very security conscious and is discreet in his conversations. He is prompt for operational meetings and follows directions to the letter when meeting sites are changed or emergency meetings established. WILSTED has no known problems in living and maintaining his cover. WILSTED's wife is also very security conscious.

6 September 1966

MEMORANDUM FOR: Chief, CCS
FROM: #H Division
SUBJECT: Project Funding Plan, Project LIFEAT (FI).

A. Identification of Activity

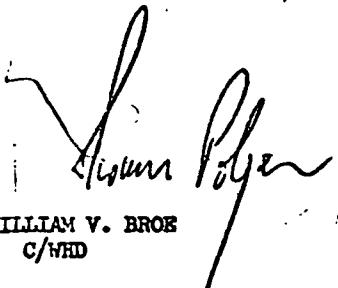

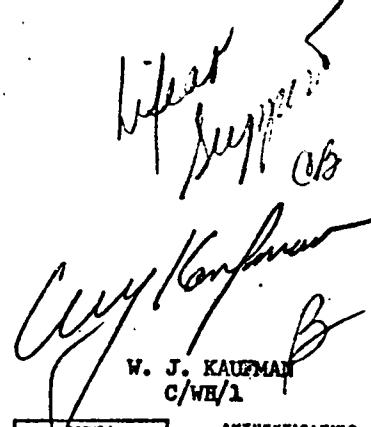

1. Project cryptonym: LIFEAT
2. Approved for: 1 July 1966 - 30 June 1967; \$100,000.
FY 1967 - \$100,000
3. Proposed successive fiscal year budget: Same
4. Brief statement of project aims, character and structure:

The purpose of this project is to provide unilateral telephone tap coverage in Mexico City. A U. S. Career Agent serves as Outside Case Officer and personally handles the thirteen sub-agents who are responsible for the technical phase of the Project which is run out of seven basehouses. A Station Case Officer directly handles five translators who are also funded out of this Project.

B. Funding History

1. The Career Agent (GS-13) receives his salary and allowances split between bank deposits in the United States made directly by Monetary and a field allotment received from the Station. He pays the thirteen sub-agents their salaries which total \$2,337/month, basehouse expenses (rent and utilities), and ops expenses. The Station Case Officer directly pays the five translators their salaries (total \$1,675/month) and expenses. All equipment is furnished by CIA and is replaced when necessary.
2. Funds have always been handled in this manner.

Admin/Logistics TVA for Project Events

Reference: INCT-5004, dated 2 December 1965

1. It is considered that the relationship between
SUBARK and LIFLUO-2,-5,-7,-8,-24 does not fall in the
category of contract personnel and, therefore, the
provisions of FK 23-5 (c) (1) do not apply.

2. With respect to Carol A. ZEPPELTER, it is
DIVOUR practice here an approved project provides
funds for transportation, including use of COV's that
a TVA is not necessary unless a CO vehicle is required.

INFO FROM Chief of Station, Mexico City SUBJECT: ADMINISTRATIVE/Logistics TVA for Project Agents		MICROFILM	
ACTION REQUIRED REFERENCES			
<p>ACTION REQUIRED: Furnish new TVA for LIFTAT Project if necessary.</p> <p>REFERENCES :</p> <ul style="list-style-type: none"> A. LIFTAT Project TVA, dated 5 October 1965 B. NTW-13013, dated 23 August 1965 C. NTW-20216, dated 27 May 1965 <p>1. Please furnish this Station with a revised LIFTAT Project TVA with a total of 7 (seven) vehicle authorizations, more than now listed on the TVA, if this increase is deemed necessary for the continuing transportation allowances, all leave reimbursement paid to 6 of the project agents as approved by reference B.</p> <p>2. Paragraph I. 2) d. of the project renewal request forwarded by reference C included an annual amount of \$500.00 each for the use of LIFTAT-2, LIFTAT-8, and LIFTAT-24 PVV's; \$400.00 each for the use of LIFTAT-5 and LIFTAT-7 PVV's; and \$300.00 per year for leave reimbursement to Carol K. HUNTER. These agents have been paid these amounts over the years in accordance with project approvals. However, in view of the PDIG-3F and PR-23-5 regulation revision in August 1964, which established the requirement for a TVA slot for PVV's used on a continuing basis, the question of the need for a TVA is raised to preclude a possible audit exception.</p> <p>3. The PVV's are used by the agents in transporting tapes and other material between various operational points. Daily use averages from 20 to 50 miles per day and from 1 to 4 hours per day depending upon the assignment. Use of pooled vehicles is not possible because of the widely separated points of contact, the need for simultaneous use and the impracticability of coordinating the use of pooled vehicles from a cover standpoint. Public transportation is not practical again because of the widely separated points of contact and government transportation cannot be used because of cover.</p>

DISPATCH

S E C R E T

PROGRESS REPORT

DISPATCH
COS, Mexico City
DISPATCH

Chief of Station, Mexico City

Chief, III Division

and Logistics, Transportation Allowance for David WILSTED

Reference: A. HNS-5605, 27 September 1965
B. HNS-15913

1. Headquarters records indicate that Project LENOC was terminated 30 June 1965 as reported by reference B. WILSTED and HV-2539 were both transferred to Project LIFEAT. An amended TVA was forwarded to the Station by TM #0501524, dated 9 July 1965.

2. The establishment of a transportation allowance is predicated on a reduction in the number of Organization vehicles and a savings to ODYONE. Considering vehicle depreciation over a period of several years and charges for gas, oil and maintenance, it is deemed economical for ODYONE to pay the transportation allowance of \$50.00 per month. The availability of a POV, which is intended primarily for personnel transportation and used only incidentally for official use, makes it advantageous for the employee to receive a transportation allowance.

3. In the case at hand it is noted that 90% usage of a vehicle by WILSTED, representing 1500 miles per month and a proposed \$80.00 per month transportation allowance, is for official business. Since the vehicle is used almost exclusively and very extensively for official use, it seems more appropriate, as well as to the advantage of ODYONE and WILSTED, that it should be an official vehicle.

4. Headquarters appreciates Station's desire to reduce the number of QP vehicles. However, each case must be decided on the basis of the circumstances involved and, particularly, ODYONE interest. We request that the Station reconsider this case before we submit it to higher authority for approval.

Transportation Allowance for David W. WILSTETT Against the EPIC Project-TVA

ACTION REQUIRED - REFERENCES

- REFERENCE: A. MP 45-3F(1)
- B. MI 23-5A(2)

1. Authority is requested to pay David W. WILSTETT a transportation allowance of \$70.00 per month for the use of a P.O.V. for official business. It is planned to dispose of MV-2539, a 1962 Chevrolet Biscayne 4 door sedan that has been driven for approximately 50,000 miles in favor of a transportation allowance for WILSTETT. The vehicle has been used for a total of 30 months with mileage averaging 1,665 miles per month, 90% of which was official business travel.

2. The recommended transportation allowance is based on costs computed as follows:

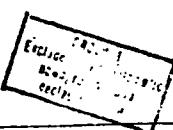

a. Gasoline: 1498 miles per month (1665 miles per month less 10% personal mileage) @ 15 miles per gal. 99.8 gallons @ \$.32.	\$ 31.94
b. Insurance: Approximately \$215.00 per year; less 10% for personal use (193.50 ÷ 12)	16.13
c. Maintenance: Tire repairs, lubrication, oil change, washing, battery & tire replacement, estimated at \$6.00 per month less 10% for personal use.	5.40
d. Depreciation: Estimated Cost.....\$ 3,200 Value after 30 months.. 2,000 Depreciation..... 1,200 Less 10% (1000 ÷ 30)	36.00

[]	CLASSIFICATION S E C R E T	MOS FILE NUMBER

- CONTINUATION OF DISPATCH		CLASSIFICATION SECRET	DISPATCH NUMBER AND NUMBER 400-6265
Part 2			
<p>3. As a general vehicle allowance, for the travel of G-2 and G-3 staff in Mexico City, the cost of insurance costs are relatively high in Mexico City, but rather the great number of miles travelled by G-2 and G-3 every month in connection with COMINT and cover operations throughout. If G-2 and G-3 were to be reimbursed on a mileage basis at 80 cents per mile for a 4 cylinder vehicle, he could be paid approximately \$140.00 per month based on past mileage. COMINT will come to an \$16.00 a month allowance in lieu of the mileage rate with the understanding that a periodic review of use and costs will be made, with resultant adjustments of the allowance if necessary.</p> <p>4. Since G-2 and G-3 will have to purchase his FCC in Mexico because of his cover status, he will have to pay an estimated \$10 more than the factory recommended retail price, approximately \$3,200 for the 1965 Ford Falcon, which would be likely to purchase. It is requested that Headquarters advise in regard to the factory recommended retail price as of August or September in 1965 of the above described vehicle, equipped with white side wall tires and radio, to facilitate the computation of the Station contribution to offset the higher cost of the vehicle in Mexico. This amount less the proportionate depreciation will be recoverable at the time the vehicle is disposed of.</p> <p>5. Considering the amount recoverable upon the disposal of the vehicle, the cost to COMINT will be the same or less than the cost of shipping a PW to an overseas post, and will therefore be comparable to the costs of many staff employees overseas who use their PW's for official business.</p>

MEMORANDUM FOR: Chief of Station, Mexico City

FROM : Andrew S. PARMERS
SUBJECT : Completion of Training Report on
David M. WILSTED

1. In a Mexico City Station Safesite, Subject received training on a part time basis from 17 through 27 May 1967. The instructor was Andrew S. PARMERS (known to trainee as Pablo ZELAYA) from KUROAE, Headquarters. Subjects covered were clandestine communications, operational security, Soviet Bloc intelligence activities, and operational reporting.
2. As a student, Subject was cooperative, participated with enthusiasm, and performed all requirements well. Although he has had very little previous formal training, he has had much practical experience and assimilates theory rapidly.
3. As a person, Subject is mature, calm, friendly, has a sense of humor, practical, a doer rather than a thinker, aggressive, and confident. He has broad area knowledge, is satisfied with his cover employment and with his KUBARK employment. He has no complaints and showed good emotional stability. He likes Mexico and Mexicans, and speaks excellent Spanish.
4. He has a very limited knowledge of KUBARK functions and organization, but he considers himself to be a careerist in this organization.

MARKED FOR INDEXING

TO	Chief, WH Division	X	NO INDEXING REQUIRED
INFO.			ONLY QUALIFIED DESK CAN JUDGE INDEXING
FROM	Chief of Station, Mexico City		AUDIOFILE
SUBJECT	LIFEGAT/Support		
ACTION REQUIRED - REFERENCES			
Reference: IDNA-13482			

1. Station Mexico City appreciates Headquarters forwarding of the dial recorder pressure tape for project LIFEGAT. While trying to expand the regular tape on hand, Station had experimented with the new fiber-tipped pen as a substitute for the standard ball-point pen in the dial recorder. However, either the altitude or the dry climate (or a combination of both) dried out the fiber-tipped pen after short periods of use.
2. Station believes that the pressure tapes will provide a satisfactory solution to this problem which has plagued the Project for some time.

Thomas C. LUND reported on returning to Headquarters after his TDY in Mexico that one of the LIFEAT basehouse keepers, possibly LIFEAT-1, was having difficulty in getting the pens for the dial recorders to write. Therefore, Headquarters has shipped by transmittal manifest to the Station 100 reels of pressure tape for the LIFEAT basehouses to use with the dial recorders. Headquarters hopes that this will be a satisfactory solution to your problem, and if not, please advise.

SECRET

1966-7923

TO : Chief of Station, Mexico City
INFORECORDED INDEXED
50-6-72/2
50-32/2

FROM : Chief, WHD

DATE 31 JUL 1966

: LIEPAT/LIEVOY ZOAR :

 403 - (CHECK IF ONE) MARKED FOR INDEXING NO INDEXING REQUIREDINDEXING CAN BE ADDED
BY QUALIFIED HQ STAFF ONLY

ACTION REQUIRED

: Reply to paragraphs 2 and 3

REFERENCE

1966-13320

1. Headquarters approves the suggestions made in reference for adapting the ZOAR format to LIEPAT needs. The Station will use the first two columns for numbers running from 01 to 30 to designate the recording machine on which the material was received, and the 6 spaces in column three will be used for the dossier number assigned the target. Under this system, the Station has room for expansion up to 99,999 targets. The name IN, name OUT, and telephone number columns will be the same for LIEPAT/ZOAR as for the system applied to LIEPAT/ZOAR abstracts.

2. Headquarters has several questions on the remaining columns.

a. First of all, will the Station have the ZOAR abstract sheets filled out in Spanish or English? If the runs appear in English, they will be of limited value to the Mexicans; if they appear in Spanish, the Spanish and English abbreviations for the same subjects will not fall together in alphabetical consolidated runs for the subject type runs. (See paragraph 3 below.)

b. According to paragraph 3 and 6 of reference the Station wants the following LIEPAT/ZOAR listings every two months:

LIEPAT: 1 copy NAME IN, NAME OUT, TELEPHONE

LIEPAT/LIEVOY consolidated runs: 1 copy ABC IN, NAME OUT,
TELPHONE

The Station now receives two runs of LIEPAT and in addition to the runs listed above, also receives listings by Subject, symbol and diacritical mark. Does the Station no longer need these three types of listings and will one instead of two LIEPAT runs be satisfactory for the Station's needs? The Station receives an extra (third) copy of the yearly cumulative run. Will the Station want one extra copy of the LIEPAT/LIEVOY yearly cumulative ZOAR run also?

c. Does the Station want the ZOAR run for LIEVOY to bear the classification of SECRET?

d. With respect to the use of Subject and Symbol codes for LIEVOY ZOAR abstracting: Whether the runs are in English or Spanish, LIEVOY can use the same symbol column symbols as those which appear in the sterile manual. (Some symbols such as II which indicates LIEPAT/ZOAR material have been deleted from the symbols passed to Liaison services.)

With respect to the subject codes, the field may translate directly into Spanish the English words against which subject codes have already been assigned, and then abbreviate these words into four letter groups. If the Spanish is used, please submit your list of Spanish abbreviations for Headquarters information records.

ACTION REQUIRED			
REFERENCE(S)			

1. Enclosed is a clipping advertising a UNIBATH developer, one step photo developing solution, that replaces the three separate solutions now used by the operational darkroom technician who processes the take from the LIMERICK basehouses.
2. We now have a time lag of one to two weeks in receiving the take from these basehouses. Most of this time lag is caused by the lengthy developing process in use. If there is anything to the UNIBATH developer, its use in our outside darkroom would be a decidedly worthwhile investment. Inquiries at the local photographic stores revealed that they had never heard of this product. It is requested that a sample of this developer be sent to the Mexico Station, marked For Quinton OUSL E3 so that it will reach the proper basehouse processor. If it proves successful, arrangements will be made through a local firm to place an order for the quantity necessary to meet the operational requirements.

12 November 1958

SUBJ: Project LIFEAT
Request for Spare Parts

Station Mexico

REF ID: A64426

REMARKS: That the items below be procured and forwarded to/
ITEMS:

RAFERS FOR INDEXING

NO INDEXING REQUIRED

INDEXING CAN BE ADDED
BY QUARTRD HQ DEV CHV.

1. It is requested that the following items be procured and forwarded to Station Mexico for use in Project LIFEAT:

A. Vacuum Tubes:	6V6	100 each
	6J5	200 each
	6X5	200 each
	6K6	50 each
	6SN7	25 each
	6SL7	50 each
	6AU6	50 each
	12AX7	50 each

B. Grommets for EKO recorder:

These grommets are listed in the EKO parts catalog as symbol E40 Motor Mounting grommets (3), part number p9407. It is requested that the soft live rubber (flat) grommets be sent since the rounded ones are hard and transmit a lot of noise and rumble. If these grommets are available, Station Mexico could use approximately 120 of them.

C. Fast Forward Cable Assembly:

Number 242-12297 25 each

D. Take Up Reels:

Empty take up reels 30 each

2. If there is a kit with assorted condensers for the Pulse Recorders (DR-2) and for the Reverse Recorders, it is requested that such a kit be forwarded.

The World's Only Correspondence Course in Wire Tapping

A complete course in Gleaning and Photographic Surveillance equipment illustrated with photographs, drawings, and schematics. This course written for professional detectives, presents many new techniques in Wire Tapping and Bugging. A selling introduction to the art of wire tapping is included. Each lesson is covered with a action story example showing the practical uses of the material of that lesson. Answers and questions answered; a certificate of completion is awarded.

The following is an outline of the course:

LESSON I. "Wire Tapping" **LESSON III. "Micro & Radio Photo-**

The Bird Tap Microphotography

Wireless Wire Tapping Fan Photography

Fiction "Tom Makes a Tap" Infrared Photography

LESSON II. "Bugging" **LESSON IV. "Telescopic Photography"**

Wire Bugs Series Photography

Wireless Bugs Telescopic Photography

Directional Microphones Geomatic Landscapes of Aerial

Recording Equipment and Techniques Photography

Fiction "All Hell Breaks Loose!" Fiction "Tom Spots An Old Friend"

LESSON V. "Tailing"

The Wireless Tail

Radio Direction Finders

Fiction "The Lesson Can't Arrive"

The FULL COURSE just \$22.50, Complete.

1. It is requested that Headquarters arrange for the purchase of the correspondence course described in the attachment.
2. It is believed that Lessons 1 and 2 would be of interest to those persons involved in the technical aspects of Project LIFEAT. In addition to being a possible training aid, it is believed that the literature will tend to add a measure of interest to the essentially difficult and tedious work of these persons.

REFERENCE			

1. There is attached one copy of the September 1958 issue of the telephone directory **for the Federal District, Mexico.**

2. It is requested that a reverse listing be made to correspond to the phone numbers in this book and that 5 sets of these listings be forwarded for use at Station in addition to those to be provided to the desk.

3. This request for new listings is based on the fact that the phone system in Mexico City has undergone so many changes since the 1956 directory was issued and processed by Headquarters that a portion of this is now obsolete.

ACTION REQUESTED: None, information only

DATE: 9 July 1958

[Handwritten signature]

1. Subject's application for "rentista" status in Mexico is being processed by Gobernacion and LIKAYAK/2 has been requested by Gobernacion Undersecretary Fernando ROMAI Lugo to check with OGOKE as to whether Subject has any derogatory background. ROMAI Lugo is particularly interested in preventing any American with Communist connection from settling in Mexico.
2. Subject is described as a North American of Russian origin; the origin is probably what brought about the request for traces, and the Station for the time being attaches no other significance to the query.
3. LIKAYAK/2 is being told that there is no derogatory information on Subject and that if any are developed through a query to Headquarters, he will be notified. No further action is contemplated.

- Administrative/ALPEN
- Personnel for AD 127 reporting

8 FEB 1959

REF ID: A64-9069, 31 December 1958

ACTION REQUESTED: None, for information only.

1. The Station's request for the assignment of either a P.S or T.T. clerk-typist experienced in R/T/T reporting has been discussed with the SH Division. Both the SF and SH Divisions recognize the Station's need for such an individual; however, it is at this time impossible to acquire an additional slot for the PCS assignment of an employee and it is not believed feasible to assign individuals on an extended OY basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to relieve the referenced problem, Headquarters believes that the long-run effect would not achieve the desired results. This opinion is based primarily on the lack of qualified Headquarters employees available for such a rotation. Also significant is the fact that each return of the employee will have to provide a slot for the local employee, thereby reducing by one the total slots normally available to treat office - a troublesome problem under the present personnel ceiling.

3. The SH division has suggested that they would be glad to provide R/T/T training to the next competent lady employee scheduled for PCS assignment to the Station. This, of course, would not increase the Station's OY; it would only transfer an employee from one station job to another. Should you have any desires along this line, please advise Headquarters.

ATTACH INFORMATION: None, for information only.

1. The Station's request for the assignment of either a P-5 or T-5 clerk-typist experienced in TECAP reporting has been discussed with the SH Division. Both the SH and AD Divisions recognize the Station's need for such an individual; however, it is at this time impossible to acc. 1/a an additional slot for the P-5 assignment of an employee and it is not believed feasible to assign individuals on an extended COY basis.

2. Although the rotational field training program suggested by the Station would appear initially to be an excellent way to relieve the referenced problem, Headquarters believes that the long-term effect would not achieve the desired results. It is anticipated primarily by the lack of a sufficient number of slots available in the field training assignments. Also of concern is the fact that a rotation scheme will have to provide a slot in the SH Division, thereby reducing by one the total slots normally available to that office - a troublesome problem under the present personnel ceiling.

3. The SH Division has suggested that they would be glad to provide TECAP training to the most competent lady employee established for P-5 assignment to the Station. This, of course, would not increase the Station's T-5; it would only free one employee from one station job to another. Should you have any desires along this line, please advise Headquarters.

SUBJECT { GENERAL - Operational/LINET Support
SPECIFIC - Concealment Device for Use by Daniel E. KINGMAN
(201-210541)

1. In answer to a special request by Daniel E. KINGMAN and approved by the WH Division, KTRIOT has constructed a bookcase containing a concealment area for his use in connection with the LINET Project. This bookcase is now being packed for shipment. The Station will be advised later of the method of shipment and the ETA. Instructions for its use are u/s/c. If the Station has no objection to its use by KINGMAN it is requested that it be delivered to him.

2. If the Station believes that additional similar concealment devices would be of use under LINET Project, it is requested that you forward to Headquarters your suggestions and comments, furnishing details as to quantity, size and prospective use. Your request will then be referred to KTRIOT.

20 December 1957

CONCEALMENT - BOOKCASE

Work Order 2176

ICDS-1041

A bookcase 42" x 48" x 12" was made with a concealment area. The bookcase was made from pine and painted flat black. The concealment area is 1-5/8" x 10-1/2" x 46" and is located under the bottom shelf and covered by the kick panel.

The kick panel must be opened in order to gain access to the concealment area. This panel is held in place with a positive locking device. The locking device is located under the front-center section of the bottom shelf. It is located beneath a filled nail hole. The locking device is released by inserting a table knife-blade - or similar piece of metal - between the bottom shelf and kick panel and by pushing toward the rear of the case, a distance of approximately $\frac{1}{4}$ ", at the above-designated point. To facilitate inserting the blade on a loaded shelf, lift upward on the center part of the bottom shelf until the lock releases. When the lock is released, the kick panel may be moved by pressing inward on the bottom edge of the panel. After the panel has been moved slightly withdraw the knife so that the under surface of the shelf is not marked; then complete opening the panel. It is important that the kick panel not be forced beyond its maximum opening point approximately 70 degrees from vertical.

To close the panel, return it to its original position by pressing inward on the top edge until the lock snaps into place. Test for locking by pushing inward on the bottom edge.

MEMORANDUM FOR: WH/Logistics

SUBJECT : Purchase of Metal Storage Cans and Deluxe Carrying Cases

1. The Mexican desk has received an oral request from the field for metal cases to replace the cardboard boxes which are now used for audio tapes in the LIFEAT Project. The cardboard boxes used to protect the tapes wear out in a very short time because of the frequent handling which they receive at the Station.

2. It is requested that you purchase and ship to the Mexican Station, the following items which can be purchased from LAFAYETTE RADIO, 165-08 Liberty Avenue, Jamaica 33, New York (seen in catalog 305):

100 Metal Storage Cans for 7" 1200 foot reels \$.39 each (in lots of 6)

3 Deluxe Carrying Cases - hold 35 reels in case \$5.40 each

3. The costs of the above items should be charged to Project LIFEAT.

b Chief, WHD

- LITAT

- Serializing Mexico City Telephone Directory

Reference: TWA-7337, 3 July 1957 (50-4-12/3)

1. Reference requested serialization of the Mexico City telephone directory by street address. The matter was discussed with the Headquarters units concerned with this type of work. Due to the time required to complete this job and because of the existing heavy work load, they are unable to undertake this requirement. The requirement could be filled by another government agency after the directory was reduced to abstracts based on a numerical coding system. The outside agency would then punch the coded addresses and indices onto cards at a cost of \$75 per thousand or \$6,250 for 110,000 addresses. A full time person with a knowledge of Spanish would have to be assigned by WHD for this work.
2. The major part of the job would be the first step—the coding—which I estimate would require a person's full time for eight to ten months. The second step—the key punching—will take about two months. The third step—a machine listing—would be a fairly rapid process.
3. Because of the cost and the shortage of personnel, Headquarters regrets that it is unable to undertake the serialization job at this time.
