The CIA has publicly stated that it was instrumental in helping George H. W. Bush. Numerous allegations have arisen over the years

since President Kennedy's assassination that Oswald either had

been or should have been debriefed by the CIA upon his return

from the Soviet Union where he appeared to be in a position to

provide useful information due to the ~~background~~ ^{exposed situation} of the past

~~1950's~~

decade and, subsequently, the ~~background~~ ^{exposed situation} of the past

which indicate a relationship between Oswald and ~~the~~ ^{the} ~~intelligence~~ ^{intelligence} community.

But Oswald, ~~anyplace~~ ^{anywhere} did not speak of having relationships

either because the contact was not reported through normal

channels or because the CIA communicated with Oswald in codes

~~code~~ ^{code}

which obscured the accuracy in a source debriefing

~~code~~ ^{code}

The NSC attempted to determine: 1) whether Oswald was in fact informed

~~code~~ ^{code}

by the CIA upon his return from the Soviet Union; 2) whether this in fact

occurred apart of the interests of our own intelligence; and 3) to whom this could

In answer to the above question in respect of

Ques 1. Below, Director of the Central Admistrative Agency, submitted written

an affidavit stating that the CIA had had no relationship

of any kind with Lee Harvey Oswald before the 22nd of Nov 1963.

Further, "that" the Agency never collected from Oswald any information

linked with him or received or selected any note or information

from him or communicated with him, directly or indirectly,

Atmospheric pressure is about 1010 mb. Wind direction

is east. Temperature and dew point are about 10°C. Relative

humidity is about 70%. Wind direction is about 100°.

It is known that from the winter of 1960 to 1961 there was a

surge of atmospheric pressure over the Soviet Union. However, it

is not known if this surge was due to a change in atmospheric

pressure or to a change in the atmospheric pressure over the

region. It is also known that the Soviet Union has a large amount of

information on atmospheric pressure over the Soviet Union. However, it

is not known if this information is accurate or not. It is also known

that the Soviet Union has a large amount of information on atmospheric
