1. On the basis of the documentation submitted under reference dispatch, the Medical Staff feels that OPPHONE/1 made a surprisingly fast recovery and seems well on the way to complete health. However, the hospital report (a quick translation of which into English is attached for your ready reference), dated as it is, still reflects some inconclusive levels in the results of the various chemical tests shown. Undoubtedly these have by now been lowered to completely safe levels, since OPPHONE/1 apparently felt well enough to travel to France, but the Medical Staff believes it would be advisable for CRPHONE/1 to undergo another series of liver function tests, to include the following:

- a. SGOT
- b. SGPT
- c. Bilirubin (1) Direct  
(2) Indirect  
(3) Total
- d. B.S.P. (Bromsulfophthalein)
- e. Serum Proteins  
Albumin  
Globulin  
Total

We assume OPPHONE/1 has consulted his own physician on his return to the UK, but the Medical Staff has pointed out that clinical examination alone is not always sufficient to determine complete recovery from hepatitis.

HEPATITIS BOUT

What I had thought was a touch of **malaria** and the extreme fatigue I felt when I returned to London in July proved in time to have been acute infectious hepatitis. The disease -- which takes two to three weeks to develop -- was probably contracted in **Uganda**. At least, I imagine so because my principal contact in **Kampala** insisted on taking me to a number of local restaurants of dubious cleanliness to sample **Uganda** delicacies.

Hepatitis was diagnosed by a doctor in Komiza, Vis, where my family had been holidaying since the beginning of July, and I was hospitalized in the isolation section of Split Hospital (there is no hospital on Vis) on the 7th of August.

My liver was swollen by one finger and blood and urine analysis indicated a fairly severe infection. Treatment consisted of terramycin and cortisone therapy, with massive doses of vitamins.

I was put on a fat-free diet, which I have been told to follow for at least six months. Naturally, no alcohol.

On 20 August, I was released from the hospital, mainly because I was pestering the doctors to let me go. I was told to have an "absolute rest" for four to six weeks and to have another blood test within several weeks.

(Attached is the Yugoslav doctor's description of my case and treatment, with results of all blood and urine analyses. It is written ~~Zemljak~~ in Serbo-Croatian.)

MEMORANDUM FOR THE RECORD

7 September 1968

SUBJECT: ██████████ Illness

1. The following information was obtained by ██████████ from █████████/1 at their meeting on 4 September 1968. It supplements the report which was submitted by █████████/1 which deals with his recent hospitalization for hepatitis.

2. Toward the end of his **African** trip █████████/1 had been feeling rather weak and nauseous, with no appetite. He was constipated, feverish and had gas pains. These symptoms persisted and after his return from **Africa** and on 6 August, while in Yugoslavia on vacation, █████████/1 suffered from acute gas pains and vomiting. He was taken from Vis, where he was vacationing, to Split where he was hospitalized. The address of this hospital is:

Opcu Bolnica  
Zarazni Odjel (Firule)  
Split, Yugoslavia

His doctor was Dr. Juraj FILIPOVIC.

3. █████████/1's treatment was free inasmuch as he was able to show his British National Health Card and a reciprocity agreement exists between Britain and Yugoslavia.

4. █████████/1 states that at no time did he receive narcotics nor was he ever unconscious. During his stay in the hospital a young British youth (Derek WHITTAKER, age 19, from Shoreham-by-Sea, Surrey) was in his ward suffering from food poisoning.

## International news & features

Opea Bolnica  
Zaragai Odig  
(Firale)  
Split  
Yugoslavia  
13 August 1968.

Dear Mr. Randall,

Unexpectedly, I found myself in the hospital in Split, Yugoslavia, on the 1st of August, confined to the isolation ward with a fairly rough case of infectious hepatitis, undoubtedly picked up in Cuba. (They tell me the incubation period is about 3 weeks.) In any case, I am hoping to be released from here in another 10 or 15 days at the most. The treatment is good and seems thorough. My biggest problem was originally linguistic. I did speak with the doctors, who knew no English, in German or Italian, but my knowledge of Serbo-Croatian has increased steadily with the injections, blood testing and intravenous injections of glucosamine solution, etc.

The urgency behind this note is, though gone, to inform the firm of my condition. I hope to return to London — patient may, if and, days on the beach — as planned, but I can tell that I would restrict my activities physically for another month. There are many things to do in Britain and on the Continent, but I regret not being able to undertake the conference assignments in September, etc.

Who said he is CIA agent:

1. Anderson said Hamza Alavi told Franz Fanon Institute in 1964 Gibson an Am. agent (EB rept. 18/2/66)
2. William Demby said he had recently been assured by Ignazio Silone Gibson was a CIA agent (Gibson had met with Silone since 1952) (20/2/66 - EB Rose rept.) (Demby said he had been accused of the same thing, by whom unspecified.)
3. "British" professor, China-hand, told Franz Fanon Institute.

1. We appreciate LCPIPIT's effort to combine and bring up to date all comments made by CRPHOM/1 in a revised MOC, forwarded under T-27 A. We believe that the following comments, geared to the paragraphs as numbered in the T-27 C, will help to further streamline the product:

## a. Para. 1:

Please see "Reference B, T-247" dispatch.

## b. Para. 2:

- An indicated in the T-27 A covering dispatch, CRPHOM/1's initial employment began 1 June 1965, rather than the 1 September 1965 date given in the draft MOC. Since the effective date of his relationship with WOFIRM will one day be the basis for an equitable terminal settlement, or might assume other administrative significance, we suggest that the paragraph be amended to reflect this: "CRPHOM/1's employment with WOFIRM which began 1 June 1965, was originally formalized by a Letter of Agreement for a period of three months, replaced by a Memorandum of Oral Commitment dated 1 September 1965. Under this MOC, which remains in effect (as amended) since that date, CRPHOM/1's employment continues on a month-to-month basis. It can be terminated by either party on 30-day notice."

MEMORANDUM FOR: CCS/NC

SUBJECT: ORPURE/GREBONY/1 Relationship

1. This will confirm our conversation of 18 September 1967, in which we discussed GREBONY/1's plan to visit ORPURE some time during the week of 25 September 1967, and you agreed to give ORPURE/2 prior warning of this visit. In accordance with the same conversation GREBONY/1 was briefed that his visit should be mainly a question of touching base with ORPURE, maybe a friendly luncheon with ORPURE/2 -- but that no substantive discussions affecting their ostensible relationship (i.e., amount of money, amount of GREBONY/1 production for ORPURE, etc.) were to take place. You were to brief ORPURE/2 along the same lines, and also to indicate to him that, contrary to our original thinking, we would now like to have GREBONY/1 given a by-line, whenever ORPURE/2 feels he can do so.

2. In addition to the above, we would appreciate it if you would take up with ORPURE/2 (and/or ORPURE/1, as appropriate) the possibility of increasing the amount of money funded to GREBONY/1 via ORPURE. As indicated to you, we would like to increase the current \$100.00 monthly to \$300.00 monthly, but would like your careful examination with ORPURE principal(s) that this amount is not excessive either in terms of their willingness to handle or in terms of ORPURE's ostensible ability to cover.

3. Please also mention to ORPURE/2 our desire to have GREBONY/1 open a small office in London, and our thought of perhaps including ORPURE (along with other publications) as a name on the door or on his letterhead. Would ORPURE/2 (or ORPURE/1) have any objections? Would he have any objections if any of the other names are of more radical publications? It would not be operationally feasible or desirable to let him know in advance which these would be, but since both

<p>1. QREBONY/1 was recruited by WOPACT on 3 June 1965. This recruitment was performed by an officer from WOMUSE/ICG since QREBONY/1 (then known as STEBONY/1) was viewed as a <b>"double agent"</b> <b>penetration of pro-Chinese communist groups.</b> QREBONY/1 has performed well in a difficult and dangerous environment. He is a clandestine agent operating <b>against targets violently</b> anti-WOLADY and of priority interest. The administration of QREBONY/1 requires special care since, by the very nature of his role, he is not typical of the average LCPIPIT asset.</p>			
<p>2. QREBONY/1's initial employment was by Letter of Agreement for a period of three months. This Letter of Agreement expired 1 September 1965 and was replaced by a Memorandum of Oral Commitment dated the same day. This oral employment agreement remains in effect at this date--some two years later--, but has been amended to adjust compensation. Certain inaccuracies in the original MOC have also been corrected subsequent to its preparation. Given the sensitive nature of QREBONY/1's relationship with WOPACT it is sometimes difficult to adapt the operational realities of his situation to the administrative requirements of WOPACT. However, with great understanding at home and in the field, we have reached a very manageable situation.</p>			
<p>3. In order to codify the entitlements and procedures applicable to QREBONY/1's employment the undersigned has prepared the attached revision of the MOC underwhich QREBONY/1 is employed. It is requested that HQS approve this revised MOC and notify LCPIPIT of approval by 15 October.</p>

 OELA 4737, 10 May 1967

1. We now have JAGUAR's comments on the proposed "group" designed to allow REBONY to expand his access by "representing" something - even if only a purely national group. The letter from JAGUAR is att:ched.

2. We would observe that JAGUAR's comments are obviously made in a constructive vein. Similarly, J.GUL seems to take a protective, almost proprietary interest in considerations affecting the WILLIAMS project. We naturally welcome this feeling on their part, since REBONY continues to exist as a U.K.-based operation at their pleasure. And we think that JAGUAR's comments are sound, in substance. Their final comment also veils, to say the least, the understandable SWEDEN's reluctance to see yet another splinter group - operating, with the frightful political implications if a WILLIAMS spy were exposed while running a phoney "pro-Chinese" group in the U.K.? (It would probably be not too good in WILLIAMS, for that matter, but a government could fall here as a result.)

3. We have now had an opportunity to talk this over with CILIBERTI, LINGEMESTER and RODIGEST, and all are agreed that REBONY's trial balloon will not be re-floated. We think no harm is done. If JAGUAR should come into possession of a copy of REBONY's letter, and ask us about it, we will acknowledge that he wrote it to try out on a limited number of friends and aimed at his Swedish audience, preliminary to (he hopes) his WILLIAMS' arrival in Sweden. We are now merely replying to JAGUAR that we are grateful for their cogent comments, and that "the group" will not be activated unless there is a significant change in the REBONY operational situation such as to require "the group" to be created, in which case we will again seek their concurrence.

SUBJECT TOPIC/Operational CREBONY/1 and AMSQUAW/1's Relationship			
ACTION REQUIRED - REFERENCES			
<p>1. The relationship between CREBONY/1 and AMSQUAW/1 is a particularly important one from both the production and security points of view. AMSQUAW/1 has been a prolific and reliable reporter, especially on items dealing with the International War Crimes Tribunal, and it will be highly desirable for her to continue to serve in this capacity in the foreseeable future. It is recognized that AMSQUAW/1 is not a <b>controlled agent</b> and that her personal willingness to serve as a <b>clandestine informant</b> of CREBONY/1 is based upon a complex and inter-related series of reasons, both personal and ideological. CREBONY/1 helped her out of a tight situation in <b>Africa</b> and has befriended her since her arrival in London. For the last several months she has been living at his house. CREBONY/1 has a very agreeable personality and is a genuinely likeable person. At the same time, although she is not an ideological person, she shares his <b>pro-Chinese</b> ideological position and she has never questioned his explanation - that her reporting is for the <b>Chinese</b>. Lastly, we cannot and have not, overlooked the likelihood of a physical attraction between the two. In the last analysis it is impossible for us to state exactly what motivates her to act as a <b>clandestine informant</b> for CREBONY/1.</p> <p>2. It is quite possible for the relationship between CREBONY/1 and AMSQUAW/1 to change at any time. Should their relationship take a turn for the worst it might possibly have adverse security implications for CREBONY/1. This subject has been discussed at length with CREBONY/1 and he agrees that great care must be taken. He is careful to use AMSQUAW/1 <b>only in situations</b> where it would be <b>plausible for the Chinese to have an interest</b>. Thus far this has been relatively easy, indeed at the Stockholm sessions of the <b>Russell Tribunal</b> the absence of any <b>Chinese representatives</b> served to confirm in AMSQUAW/1's mind that CREBONY/1 was <b>the Chinese man</b> on the scene. At this point no actual problem exists, but both LCPIPIIT and CREBONY/1 are alert to the possibility that one could arise.</p>

MEMORANDUM FOR THE RECORD

SUBJECT: CILIBERTI Conversation with RNSLIVER 26 April Concerning His Meeting with QREBONY/1

1. On 25 April BASTEAR told me that RNSLIVER was in London and was planning to meet with QREBONY/1. BASTEAR accordingly suggested that RNSLIVER be debriefed by the undersigned the following morning. Accordingly I met with RNSLIVER for about one hour, from which meeting the following highlights seem worth recording:

A. I told RNSLIVER that we (WOPACT) had been interested in QREBONY/1 at the time that he was writing for China Quarterly concerning his dispute with the editor of Revolution, Jacques Verces, but that we had lost tract of him of late. Now that we are in QREBONY/1's home town, RNSLIVER was told that we and Headquarters would be interested in any information on QREBONY/1 which could be reported as a result of such meetings as RNSLIVER had had with him.

B. RNSLIVER said that he had told Leo Labedz that he would like to meet Ibrahim to gain some understanding of what was going on in the African exiled community, particularly as it related to the Sino-Soviet split. Labedz said that he thought that RNSLIVER would do much better by talking to QREBONY/1 whom he, Labedz, said was one of the few people around from whom Labedz could learn anything.

C. RNSLIVER met QREBONY/1 at QREBONY/1's house. RNSLIVER did not have a complete roster of those who were there to participate in what RNSLIVER described as a "political bull session". He remembered only (in addition to himself and QREBONY/1) of Matthew Nkoana and a girl from Mexico City named Sucessos, who he said knew a great deal about guerrillaINGS-on in Venezuela and whose address he said was Calzada, Tacuboya 103, Mexico 18. RNSLIVER said that Nkoana said practically nothing throughout the evening, apparently because he found RNSLIVER's presence odd and unnerving.

D. RNSLIVER was as impressed with QREBONY/1 as Labedz had predicted he would be. He described QREBONY/1 as remarkably knowledgeable concerning Chinese factions of Communist movements in Western Europe and Africa. He said that QREBONY/1 had described his recent trip to Nicosia and Cairo, had mentioned that he had visited Dar-es-Salaam, that he knew Jacques Grippa, and that he intended to visit Stockholm in connection with the Russell Tribunal and a possible Stockholm visit by Robert Williams.

SUBJECT: SUGAR's Involvement with **American Radical Organizations**

201

1. This memorandum requests your Agency's comments, on a priority basis, relative to improving the operational capabilities of SUGAR, a source of this Agency known to you, whose reporting on **expatriate American leftist personalities** we are forwarding on a continuing basis.

2. Despite our hopes and his efforts, SUGAR was unable to obtain an invitation to the **Tri-Continental Conference** recently held in **Bernevra**, which was a **target for collection by this Agency**. It is our belief that SUGAR's reputation of being pro-Chinese was responsible for his exclusion. In discussing this problem with important **pro-Chinese communist personalities** in Europe recently, the latter suggested that his ability to secure access to such meetings would be considerably enhanced if he could obtain a "grass-roots" base or **connection in the United States which he could represent**. In reporting this suggestion—which strikes us as valid—SUGAR speculated on the possibility that he might attempt to become the **European "representative"** of the **Revolutionary Action Movement (RAM)**, an **American organization** of which he knows little but which seems, from what he does know, to be consistent in its outlook with his ostensible political orientation.

3. In this connection, we would very much appreciate receiving any information you possess on **RAM**, its structure, personalities and membership. We would welcome particularly, **any mailing list or address roster** of this **organization** which might be passed on to SUGAR without compromise to security considerations.

b. Most of all, we would welcome your comments on this general problem, given your Agency's broad knowledge of such organizations as [REDACTED] in this country. As a negro expatriate with pretended pro-Chicom sympathies, SUGAR has also cultivated a reputation for sympathy toward the admittedly vague and diverse manifestations of "black nationalism", and toward such personalities as Robert Williams who embody it. We would be most interested in receiving both your comments on this general movement of opinion in the United States, and your descriptions of the organizations associated with it which could enable us to provide information and guidance to SUGAR for developing an association which would increase his operational access and effectiveness.

3. Against the background of this vulnerability, it must also be stressed that the sources to be contacted by such a field investigation would include many individuals whose suspicions of government interest—and hostility toward it—we could not reasonably expect to disarm. QUENBY's career in the United States in PPCC and similar groups put him in contact with a wide range of individuals who are not merely sophisticated but highly sensitive concerning any such inquiry. It is not possible to conceive of any method of approach which would not provoke their suspicions that a government connection with QUENBY was involved. (It is, moreover, hardly likely that cooperation could be expected of any of them, except in such cases where the individual sensed an opportunity to record damaging information.) In view of what we know about the rapid circulation of gossip among such individuals, and their great interest in, and suspicions of government interest, such an inquiry could be calculated with reasonable confidence to spell the end of any effectiveness QUENBY could offer this Agency.

4. While we realize fully that the aim of such an inquiry is to resolve unknowns in an individual's background and develop materials beyond those presently available, we note that QUENBY has been a subject of continuing interest to QUENBY for many years, and that, as a result, the basic politically derogatory associations in his past are a matter of record. As you know, a successful polygraph was performed on him indicating the absence of IS connection beyond such associations, and confirming (to the extent that it can be said to do so) his assertions of loyalty despite them.

5. In requesting clearance in this case, we are seeking to exploit QUENBY's ability to report information to us which he receives in the course of his contacts with national liberation leaders, pro-Chinese communists and similar personalities. Such information represents general political and biographical material relative to the interests, activities and plans of such individuals. Requirements passed to him in this connection involve instructions for the refinement and completeness of the reporting he is capable of providing from his normal intercourse with source personalities. It is anticipated that his usefulness will be increased by travel to those areas where his access to targets known to him permits firsthand reporting. It is also anticipated that he may be able to curve selected CIA purposes by surfacing information available to him, when this does not prejudice his cover status.

His use is understood to be, and has been, limited and precludes revelation of classified information, either by operational assignments supporting or servicing other KUBARK operations, witting participation in the recruitment of other agents, or the passing of such requirements as would reveal a classified status of KUBARK knowledge or interest in any collection target.

Robert Teber

(Los datos sobre la vida y currícula de estos señores anteriores a su visita a Cuba deberán encontrarse en otra parte.)

Bob es el mejor del grupo, casi el único que realmente vale. Hombre gran valor personal y un buen periodista, estuvo en la Sierra en 1957 y de nuevo en 1958, donde entrevistó y filmó una película para la CES, de Fidel Castro y sus guerrilleros. Al triunfo de la Revolución, estuvo en Cuba de visita varias veces y fue luego uno de los fundadores del Fair Play Committee For Cuba. Aparentemente, perdió su puesto en CES y se ensañó el azor de su esposa (de esto se quejaba a menudo en Cuba) por causa de la Revolución Cubana. Amigo personal de Raúl Roa y Gómez Vanguemert y también de Fidel Castro, según parecía en 1961. Con relaciones personales con Manuel Piñero (de quien se refiere de sus influencias de policía) y Ramiro Valdés y Raúl Castro, aunque nunca pareció estimarlos mucho. Este sentimiento parecía reciproco. Gran enemistad hacia los miembros del PSP y enemistad de ellos hacia Teber, sobre todo de Aníbal Escalante y Joaquín Ordoqui y Carlos Rafael Rodríguez. Una de las tragedias en la vida de Bob Teber fue el darse cuenta de que se había malquistado con Fidel Castro por hacerle, personalmente y cada vez que lo veía, críticas periodísticas. Fue entonces (a fines de 1960 y principios de 1961) que comenzaron verdaderamente sus problemas y que comprendió que no solamente había perdido el favor de sus amigos, sino que estaba en desgracia con sus enemigos. Fue esto, sin duda, lo que le hizo lucrar la muerte en Playa Girón, mientras actuaba como corresponsal del periódico Revolución. Fue gravemente herido en un misil y salvó la vida por pura suerte. Antes había renunciado a su pasaporte o había sostenido una polémica pública con periodistas o senadores norteamericanos, desde las páginas de *"El Mundo"*, donde colaboraba. En Cuba por poco muere también, poco después, de una infección neumática contraída en Guatemala, en los días de la revolución contra Arbenz. A fines de 1961 salió de Cuba con un documento (ni siquiera pudieron darle un pasaporte cubano, el Ministerio de Relaciones Exteriores ya en manos totalmente de los comunistas) personal de identidad, tratando de ir a China como corresponsal, pero en Praga le negaron el permiso para visitar este país y la URSS. Vio a Francia y luego a Londres —y de ahí regresó a USA vía Canadá.

Teber no es un comunista ni parece haberlo sido nunca. Es un romántico político y un hombre ingenuo, que creyó que la "evolución cubana, de alguna manera, encarnaba algo de los ideales de Jefferson y Lincoln, asombrosamente. Hoy sabe que nada hay que esperar del comunismo en general y de la Revolución Cubana en particular.

## 2. Robert Tater (continuar)

En la actualidad mantiene lazos de amistad en Cuba con Carlos Príncipi, Juan Arcocha y Gómez Wanguemert, ya que una de las características de Robert Tater es su sentido del agradecimiento. Es uno de los hombres que mejor conocen<sup>en USA</sup> la Revolución Cubana, sus motivaciones, sus verdaderas intenciones, sus intenciones enmascaradas, sus logros reales y falsos y sus verdaderos fracos. Políticamente, por sus críticas, parece ser alguien que regresa a un socialismo ingenuo y primitivo, a lo Owen y Proudhon y aborrece el cinismo comunista de que el fin justifica los medios.

En Cuba, en 1961, realizó un acto de gran coraje intelectual, poco después del coraje físico en Playa Girón, al ser el único periodista (siendo extranjero, además) que defendió el film "P.M.", que prohibieron Alfredo Cárdenas y el ICAIC y que originó la gran primera purga de intelectuales de izquierda y fueran el pretexto para las llamadas Conversaciones de la Biblioteca Nacional y el famoso discurso de Fidel Castro a los intelectuales, tan citado dondequieras. El artículo de Tater fue aceptado por la dirección del periódico El Mundo, pero no fue publicado— aunque Fidel Castro conociera su contenido al ser leído públicamente en una de las sesiones de la Biblioteca. Este gesto apresuró su salida de Cuba y selló su aorte político.

Robert Williams

Robert Williams es considerado en Cuba como una calamidad que hay que soportar--el menor daño es la opinión que se tiene de él en los círculos políticos y revolucionarios y oficiales. Conversé con él, brevemente, en La Habana, en agosto de 1965. Es hombre con quien no se puede hablar mucho, no solamente por su complicado escrito del Deep South, sino también por su inexperiencia mental y verbal. Suelte siempre acompañado siempre de un traductor, por lo general un negro calmo. Su penúltimo traductor fue Carlos Moore, que hoy reside en París y que provocó una aguda polémica en los círculos cubanos y amigos de Cuba en Francia, al publicar en el periódico "Solidarité Africaine" un artículo que tomaba las tesis del intelectual negro cubano, Walterio Carbonell, sobre la pretendida discriminación racial que existe en los medios políticos y dirigentes cubanos. Este asunto tuvo repercusiones en Cuba y no solo trajo problemas al verdadero autor del artículo (Walterio Carbonell, hoy expulsado de la Unión de Escritores de Cuba), sino al propio Williams, quien más de una vez había expresado tal opinión en público y en privado. Las desventuras de Williams no comenzaron aquí, sino cuando inició en su línea china revolucionaria mucho tiempo después que todos los medios políticos, oficiales, intelectuales y dirigentes de Cuba se habían re-orientado hacia Koscú. Williams complicó su situación con un viaje a China Roja y viviendo en Cuba se encuentra casi aislado y ya no suele ver a Fidel Castro, a Dorticos y a los otros dirigentes revolucionarios; con la facilidad con que solía hacerlo antes. Todavía conserva muchos de sus privilegios (el traductor personal, la casa, la comida, la educación de sus hijos y, creo, que la hora radial anti-americana), pero solamente porque su caso es muy conocido fuera de Cuba y en el Sur llegó a tener una cierta audiencia después de su fuga de Estados Unidos a Cuba y de haber dispuesto de una potente emisora (Radio Habana Cuba) para sus confusos mensajes de odio racial.

No me extrañaría que Robert Williams fuese declarado insano por un grupo de psiquiatras competentes. En Cuba, la gente de la calle, lo tiene por tal. Ahora, en la Conferencia Tricontinental, está siendo acusando su inestabilidad psíquica a la teoría de la revolución permanente --o a la lucha de la liberación de los pueblos de color.

William Worthy

Es el menos conocido de los cuatro y quizás el más peligroso, porque es el más estable emocionalmente, el más mediocre y más trabajador del grupo. Fue a Cuba en 1961, recomendado por Richard Gibson y el Fair Play Committee, pero también por su cuenta. Se hospedó en el Havana Riviera, no sin dificultades, pues sus puntos de vista, inadmisibles por los comunistas cubanos, fieles servidores de Korda, le trajeron el odio del PSP y una —ligera acusación— de posible agente del FBI infiltrado en el Movimiento Negro y en Cuba. Hable poco con él y solamente recuerdo su extraño aspecto, tal vez de Chicago o simplemente algún defecto anatómico, su aspecto de metodista negro y los shorts de cuero de alpinista italiano que siempre usaba en el hotel. Luego se hizo famoso en Cuba y en Europa, cuando fue procesado por haber ido a Cuba y a China Comunista sin permiso válido. Worthy no es un fanático ni un comunista ni un oportunista, pero parecía en camino de convertirse en un abanderado de cualquier causa que le fuera affín. Entonces me pareció que esta causa sería el Movimiento Por Avance de la Gente de Color. Hoy podría ser la Revolución Negra o Latinoamericana —o, simplemente, mundial.

MEMORANDUM FOR: The Record  
FROM : Harvey G. FAHNREICH  
SUBJECT : Security of QREBONY/1 S/W Communications System  
REFERENCES : A. OFLA 3044  
B. PALP 4385  
C. FRAN 5087

1. In early June of this year KUWOLF developmental agent QREBONY/1 (formerly STEBONY/1) was trained by KUWOLF Career Agent Rufus F. RODIGAST in the use of the S/W system prescribed by METOPAZ per Reference C. QREBONY/1 took one carbon sheet of the system with him on a brief trip to North Africa and used it for four messages in the latter part of June. Concurrently, Paris Station TECHS, on LCPIPIIT's behalf, requested in OFPT 10348 that METOPAZ prepare for QREBONY/1's use an S/W carbon pad which would alleviate the carbon concealment problem for the agent. The pad was received subsequently and passed to QREBONY/1 on 18 July 1965, at which time his original single carbon sheet was withdrawn.

2. QREBONY/1 first used his new S/W pad for a message dated 22 July 1965, comments on which were transmitted to interested KUBARK Headquarters and Field components in Reference B. QREBONY/1 underwent a corrective briefing on the use of his pad on 4 August 1965, carbon No. 1 (rearmost of three in the back of his pad) was withdrawn since it bore an imprint of the 22 July message, and QREBONY/1 was authorized to use carbon No. 2 (middle of three) but only for "essential" messages. (a 24 July S/W message was also critiqued at the 4 August meeting--because the carbon impression was relatively weak.)

3. On the basis of LCPIPIIT's instruction to refrain from using his S/W pad except for "essential" messages, QREBONY/1 did not employ it again until 11 October 1965. The nature of the message indeed met the criteria for use of the pad, but as in the 22 July letter the message was clearly legible without development. To quote Paris Station TECHS:

"SW impressions were clearly visible under Ultraviolet Light (short wave and long wave) and also under a plain desk light."

On the basis of this report, QREBONY/1's previous performance in use of the pad, and the fact that the next point from which he was to use the pad would be Algiers, LCPIPIIT determined that the risk of compromise outweighed the necessity of QREBONY/1 carrying this communications system with him and withdrew the S/W pad on 20 October 1965. LCPIPIIT retains possession of

the pad which contains the two remaining carbon sheets (No. 2 detached and inserted in the back of the pad, No. 3 still bound in the pad.) The 11 October message is clearly legible to the naked eye on carbon No. 2.

4. Of greater concern to LCPIPIIT, however, were the following additional comments of Paris Station TECHS regarding the 11 October message:

"The envelope you sent has evidence of tampering. There was glue bleeding plus fiber tears. Plus, additional glue had been added to the upper flap (glue must have run and was sticking inside on the letter.)"

5. In the 20 October meeting at which his S/W pad was withdrawn QREBONY/1 stated that he had written the 11 October message on a sheet of glass, perhaps with a pencil that was too soft. He conceded that there was some imprint on the carbon, but nothing which could be read on the actual message sheet. He said he wrote the message at 1100 hours when he was alone at his home and burned the remainder of the message stack immediately. He said he then put the message in an envelope immediately and sealed it gently under another sheet of paper to avoid rubbing it. He added that he then placed the proper postage on the envelope, placed it in his pocket, and mailed it two hours later at the closest mailbox to his home. QREBONY/1 asserted that he did not reopen the letter after sealing and was certain that his wife had not seen it.

6. Pursuant to LCPIPIIT's exploration of this question with QREBONY/1 we sent an informal note to MKTOPAZ via a Paris Station Officer on 20 October 1965 requesting assistance in efforts to determine whether QREBONY/1's correspondence was indeed subject to tampering. MKTOPAZ prepared five "booby-trapped" envelopes for our use. Two of these were mailed to the LCPIPIIT letter drop from two different cities on the continent, and the remaining three were passed to QREBONY/1 on 5 November for him to mail from his home.

7. The five "booby-trapped" envelopes were picked up at the LCPIPIIT letter drop over a period of a week and were handcarried by a Paris Station Officer to Frankfurt on 18 November for processing by MKTOPAZ. Paris/LCPIPIIT asked the opinion of MKTOPAZ on the following points:

- a) Was there evidence of tampering with any of the five envelopes?
- b) If so, which envelopes bore evidence of tampering?
- c) Was it possible to determine from a study of the cachets whether such tampering occurred before or after the cachets were applied?
- d) Did such tampering appear to be of a professional or of an amateur nature?
- e) Any other MKTOPAZ observations which would help LCPIPIIT determine the source of any tampering that may have taken place.

8. MKTOPAZ advised LCPIPIIT on 19 November via FRAN 9240 that there was no evidence of tampering on the five booby-trapped letters."

HONG SITENILLO

My wife was rather hostile to my news about my contacts with the Chinese comrades. She said she was sorry I couldn't work something out with Metropolitan Features. I hadn't done enough work for them because I was lazy, she said. She said if I weren't careful I'd be treated by the Chinese just like <sup>hills</sup> what future was there in that? she asked. Anyway, she added, I can't really give a damn about the Chinese.

\* \* \* \* \*

She pointed out the situation was difficult for us. The landlord in London was trying to evict us and we had no idea where we were going. I had no substantial funds from the Chinese and was still living on the generosity of the Americans (Metropolitan), she said.

Moreover, she was tired of being a grass widow. I was keeping secrets from her, she had been certain for sometime, she said. She had had enough trouble with my "secrets" in the past, she said.

However, she liked the idea of l report, but was sorry about the "objectivity" and the 50 copies only limit. There was no reason, if I could get some help from the Chinese, that I couldn't make a success of the newsletter and really be independent, she said.

I emphasized to her that I had contacted with the Chinese without hills' knowledge and that she should on no account ever mention the matter with him. She said that knew how the Chinese treated people. nobody was more honest than hills, she addd. What was happening to him now would happen to me one day, she said.

However, she was genuinely pleased with the newsletter and spent some time trying to collect material for the dummy I was preparing. She wrote X herself a piece on M.A.R.S. (I have the feeling that a lot of her resentment would be dissipated if she would allowed to handle most of the business involved with the newsletter.)

The housing problem remains a serious one and we may have to move. A temporary furnished flat in London would cost us at least £25 to £30 a week today — at present, we pay £12-12-0 per week. We have given the case to a lawyer, but, because it is a furnished flat, we will probably have to get out sometime soon.

The other important question to be settled is that of a mailing address for the Report. Should I get a London mail drop and run the risks of running into the Home Office or should I get a lawyer and set the thing up legally, perhaps under my wife's (British subject) name? In that case, I could take a one-room office somewhere around Fleet St. and my wife could take care of the mail with an occasional office temporary <sup>if</sup> during my absence.

OFLA 3146/1

I suggest that the report always be mailed out from the same address, London or wherever. My wife will be able to get sufficient copy from various people, such as Pomeroy and Jeanne Pynor [30-year old freelance journalist who specializes in African affairs, now married to a Kenya parasitologist studying in London, formerly worked for Dennis Phoebeah]. For my purposes, if I can obtain press rates, I can wire copy to London ~~is~~ from Havana or War es Salaam, thus giving tangible evidence of my activities as a bona fide newsmen. It would be helpful if I could get an American Cable & Radio System Credit (Transferred Account) Card, such as I got from Revolution in Havana for use at the U.N. in 1961.

## Subject: QREBONY/1 - Security at home

1. At his 17 November meeting with Rodigast QREBONY/1 (Q) was asked some questions concerning keep of files and correspondence. He keeps copies of all correspondence (except routine letters transmitting articles he has written, for example) in a file to which his wife has access. He maintains a minimum of questionable notes, and keeps his personal notebook (with addresses, expenses, etc.) in his coat pocket day and night.

2. His wife has two brothers. The one to whom Q owes money is Gordon, a chartered accountant, who during World War II was in British Military Intelligence. He visits the Q home to bring gifts from the wife's mother to the Q children, but has a cat-and-dog relationship with Q's wife; indeed, he will not stay for a meal because he can't stand talking to her, and the feeling is mutual. Q is certain she would never think of confiding in Gordon, for example to say: "Look at these awful letters Q has written!" Gordon is more likely to confide in Q himself. Gordon's politics are apparently solidly conservative. (His wife's other brother, less involved with them, works for Rank.)

3. Q mailed the three test letters as follows: one in the morning, the two following on successive afternoons, at the local box in the normal way. One of the three envelopes actually contained a note: a simple statement that "William" (Guillermo) had not defected but his brother had (Cabrera Infante), information acquired from a Cuban official (see separate contact reports).

4. Q wanted to get a lawyer's opinion on what regulations govern publishing a periodical in his country of residence (he is not of course officially a resident at all). Sensing additional costs and unnecessary formality, Rodigast suggested that he keep it on the basis of being a correspondent's reports, not a separate commercial press venture requiring eventual licenses or payment of business taxes, at least for the time being. Mailed first class, the material should require no permit from the mail authorities. A contact had suggested he might have difficulty with the locals (see report of Q's 15 November contact with WP).

QSERBRY 20 October 1965 Contact with LCPIPIT

1. Forwarded herewith as Attachment A is Career Agent Rufus  
P. RODIGAST's Contact Report of his 20 October 1965 meeting with QSERBRY/1.

2. Forwarded as Attachment B (USC) is the identity list for  
RODIGAST's Contact Report.

3. Forwarded herewith as Attachment C is the "Progress Report"  
submitted by QSERBRY/1 to RODIGAST at the 20 October meeting. A careful  
review of the report's content did not justify KUTURE dissemination of  
any of the material therein.

4. Copies of recent correspondence addressed to and sent by  
QSERBRY/1 will be forwarded by nonaccountable manifest as appropriate.

5. Paragraph 5 of Attachment A refers to a security flap which has  
arisen in QSERBRY/1's use of his S/W system. In a letter to LCPIPIT  
dated and postmarked 11 October and picked up by LCPIPIT 14 October,  
QSERBRY/1 had prepared an S/W message. LCPIPIT received the following report  
from TECHS in Paris concerning this letter: "The envelope you sent has  
evidence of tampering. There was glue bleeding plus fiber tears, plus  
additional glue had been added to the upper flap (glue must have run and was  
sticking inside on the letter). S/W impressions were clearly visible  
under ultraviolet light (short wave and long wave) and also under a plain  
desk light."

6. Because of QUESONY/1's repeated carelessness in use of his  
A/V system and the obvious risk inherent in his seeking to use this system  
from Algeria, UNIFIT will advise the AIAF that they cancel him at the 30 October  
meeting. His carbon sheet carried deep impressions that were easily  
readable by the naked eye. Also, we have, in cooperation with KUSCOA/  
Paris, taken urgent action on an informal basis (to be followed up by  
dispatch) to have KOTOPAZ prepare a set of envelopes in order that we  
may run a series of tests on the possibility, as well as the source, of  
tempering with QUESONY/1's correspondence to us. A full report on this  
matter, including its resolution, will be forwarded appropriate addresses  
as soon as the investigation can be completed.

1. The following is the text of a JAGUAR report on STEBONY/1 and Marc SCHLEIFER. JAGUAR states that the information was received from a "most secret and delicate source which has been found reliable on previous occasions."

"STEBONY/1 was in contact with Marc SCHLEIFER while the latter was staying in London with his family, en route for Algeria. SCHLEIFER had planned to leave London for Algiers via Paris on the 2nd June, but he deferred his departure in order to meet STEBONY/1. It seems that SCHLEIFER wanted, if possible, to visit Tanzania also. STEBONY/1 apparently was prepared to help SCHLEIFER and his family to find accommodation while they were in London because they had little money. He is also reported to have said that there was a possibility of his co-operating with SCHLEIFER in Africa.

"According to our source, SCHLEIFER, while in London, arranged to contact the Tanzanian Mission, in connection with a job in Dar-es-Salaam which might be taken by either SCHLEIFER or STEBONY/1."

2. Ref A contains previous JAGUAR comments about STEBONY/1 and SCHLEIFER, of about the same period. While TIFFANY was in London (which puts it at the right time) STEBONY/1 was in touch with SCHLEIFER, and TIFFANY should be able to compare JAGUAR's comments with what STEBONY/1 said at the time. Ref B reflects a different contact between the two, from a different source.

Says he has been unable to get any news of (Marc) SCHLEIFFER, and asks whether Pablo has heard of him. Pablo says he had a letter, brought by hand from SCHLEIFFER in Algeria, saying he (SCHLEIFFER) was going the next week to Cairo, and would write to Pablo from there. He has not yet written. S/1 says they had hunted for him high and low in Algiers - he disappeared completely from the conference scene, and they thought that perhaps he had got mixed up in the (troubles between the new regime and Ben BELLA's faction). Pablo assures S/1 that SCHLEIFFER is all right. He knows this from a negro journalist, on "the Guardian" in the U.S.A. and coming from Pennsylvania, who covered the Algiers conference preparations. The journalist's name is, Larry HENRY or something similar. Pablo and S/1 agree to meet to-morrow (27th July), S/1 will call Pablo then to fix time and place. At 10.35 S/1 calls FERNANDEZ, arranges to call for him at the Embassy at 13.30 hours for them to lunch together."</p> <p>2. Dear [redacted]  
Kedzembach,

TO: Chief, ~~NDPS~~  
FROM: Chief of Station, London  
Attachment to OELA-43,589  
13 July 1965

I'm pleased you have received at least one of my letters, but I still wonder if you got a large envelope containing three letters which had been held and returned all at once. As one of the letters was rather detailed and dealt with matters of some importance, I'm rather disconcerted -- to say the least -- ~~think~~ to think that it may not have found its way to you. The envelope measured 6 by 5 inches and was light tan in color. A confirmation of its receipt would be appreciated.

Of course, I understood about the service, the newsletter, not being a definite thing. In any case, I am not looking for a sinecure, but for a good, deep cover and that seemed to be one. It also gave me something to offer contacts ~~would~~ and would have strengthened my position considerably. At present, my cover is as light as the Emperor's new clothes.

Still no positive reply from any publication in the States, and the general silence from my American "friends" is not very encouraging. Here, the situation is much better, and if I can get to Algiers in good time, after visiting Grippa and Andersson and seeing some contacts in Paris, my position will be better, but I still see myself representing the West Indian Gazette or Cinnamon and/or the Institute of Race Relations. Mrs. Sheila Patterson, their editor, even suggested that I do a short paperback book for them, gathering together the conference documents with an analysis. All of this is better than nothing, but it definitely isn't much.

On the other hand, for the future, Noureddine Medjdoub, who has been Tunisian cultural attaché here, is returning to Tunis to take over the editorship of the Socialist Destour Party paper, L'Action. He has suggested that I write some features for him, after the Afro-Asian Conference in Algiers and that I try to get to Tunis to discuss future projects with him while I am in North Africa. You well know what many Africans and Arabs think of Tunisia at present, so there may not be much that we can do with this arrangement.

This afternoon, I saw Dennis Phombeah at the Tanzanian High Commission. Until three months ago, he was at the U.N. He claims that Vergès came to London last December and saw Babu about me and other matters, but that Babu was not convinced. He says he did not know that I was in London until recently -- this was our first meeting since the spring of 1964. Now, he proposes that he try to get the editorship of The Nationalist, the TANU paper in Dar es Salaam, for me. We will discuss the matter again at lunch next Monday. It would be a fixed post in Dar and I can't yet fully fathom why he is willing to suggest me for the job. He claims he has not been in touch with Vergès.

SUBJECT	C DIOCRIC/Operational SHERRY/SHERRY/Request for Background Materials ACTION REQUESTED 4/14/65		
<p>Action requested: Paragraph 3.</p> <p>1. Career Agent Rufus F. RODIGAST has been briefed by Paris/LCPIPIT on an ad hoc basis to date regarding information on the Afro-Asian national liberation movement of operational interest to his handling and guidance of SHERRY/1. As the SHERRY operation progresses, however, it is LCPIPIT's intention that those handling SHERRY/1 become more knowledgeable on the subject of the national liberation movement than SHERRY/1, himself, as a means to ensure the best possible operational guidance to the agent and to provide another element of agent control--superior knowledge.</p> <p>2. LCPIPIT's limited files include two basic documents: Attachment to OPIN 630, and Book Dispatch No. 4463. We also have selected disseminations and reports on Chinese Communist activities in Africa. What would be most useful, however, would be a collection of reports and analyses, whether overt or covert, discussing the following topics: a) Jacques GRIPPA and the pre-Chinese European Communist factions; b) the Afro-Asian Journalists Association (the Headquarters TRANSAK c/o has had a file on this organization's founding); c) the individual national liberation movements and their leaders; d) operations of the national liberation movements, individually and collectively, out of such centers as Algiers (at least up to 19 June 1965), Dar es Salaam, Accra, Cairo, Djakarta, Havana, etc.; e) national liberation movement relations with, and operations out of, the Bloc, both Moscow and Peking oriented; f) support and guidance of the national liberation movement by non-Bloc communist parties and selected fronts.</p> <p>3. We recognize that much of the information on the above mentioned topics may not yet be collated, if indeed it is available; however, we should appreciate receiving from Headquarters such materials as you feel would best meet LCPIPIT's operational needs in working with SHERRY/1. Of special value would be a bibliography of overt writing on the subject, greatly alleviating the security problem and mere logistics of bringing RODIGAST and a large volume of classified reading together, in a secure environment, over an extended period.</p> <p style="text-align: right;">Harvey G. 2. The following further information has been received from a secret and reliable source:

- i) GIBSON was to leave London on the 8th June en route to Algiers via Brussels, Lausanne and Paris, and he expects to arrive in Algiers about the 20th June.
- ii) GIBSON has said that he will be in Algiers in his capacity as a journalist and that while there he may be contacted through Georges ARNOUD at the Directorate of Information or through an American, Marc SCHLEIFER, who is the representative in Algiers of the 2nd of May Movement. He has also said that he is anxious to meet some responsible members of the Afro-Asian Journalists' Association Secretariat in order to clear his name of the charges brought against him by VERGES.
- iii) As a journalist GIBSON is hoping to be allowed to attend the Second Afro-Asian Journalists' Association Conference and he has made enquiries as to when it will be held.
- iv) In commenting on an invitation which has been extended to Hodee EDWARDS to visit North Korea, possibly via Indonesia, GIBSON has said that he would very much like to visit Indonesia but that there is little chance of his doing so as the West Indian newspapers by which he might be employed would be unlikely to pay the cost of his fare.

<p>At their 15 March meeting, GREBONY/1 and RODIGAST discussed GREBONY/1's running his own pro-Chicom group, at least as a paper organization to allow him to get close to target conferences and institutions as a bona fide delegate rather than bystander. GREBONY/1 feels that if not done right this could cause trouble, because of usual organizational rivalries. He is thinking of beginning by writing and circulating a statement in support of the statement on "Afro-American Liberation" which appeared in the 6 December Ad Hoc Bulletin (Marxist-Leninist) in Chicago. He would use a pseudonym to sign his statement, but would let all his friends know that the pseudonym was really himself, and he might use Manchanda's address. Perhaps Grippo would agree to circulate or print it. If this statement goes over, GREBONY/1 could escalate into a small organization. He will show RODIGAST a draft of his statement, but also will discuss it with Manchanda for "ideological purity".</p>

<b>SUBJECT:</b>	DDTBORIC/Operational QREBONY/Salary Raise for QREBONY/1		
<b>ACTION REQUIRED - REFERENCES</b>			

1. At the time of his recruitment in June 1965, QREBONY/1 was told that his \$600 monthly tax-free salary would be raised to \$800 once he got a job in a target organization, which of course was the goal of his planned summer activity in Algiers.

2. Through no fault of his own, the Algiers assignment (and other possibilities, such as **Djakarta**) evaporated shortly thereafter. Meanwhile, WOPACT changed its signals and eventually decided to base QREBOST/1 in Europe targeted against individuals and groups in various countries.

3. From the beginning, QREBONY/1 has proved more than satisfactory as an agent. He has carried out assignments given to him with knowledge and tact and the proper spirit, has used his own initiative as much as our guidance, and has not violated our instructions. No one will argue that he hasn't proved to be better than we collectively thought he would be, and in terms of his own abilities—apart from targets which may or may not be accessible to him—he is getting better all the time.

4. Last year, about a year later than QREBONY/1 might have expected his salary to go up from \$600 to \$800, we raised it to \$700. He was pleased, and he has not complained as much as he used to about a shortage of funds. (Presumably QREBONY/1 is responsive to the generally good treatment he has had, to the respect for him as an individual and the appreciation of his services; probably he is carried along as much by his own personal satisfaction in knowing he is meeting requirements and continually breaking new ground.)

5. Nevertheless, LCPIFIP believes the time has come to raise QREBONY/1's salary to the promised level. We can all agree that we are still getting his services cheap; QREBONY/1 receives no quarters, living allowance, or educational allowance for his children. His increased gratitude, the relief he will undoubtedly feel at being able to reduce his present financial worries, are more than worth the extra \$100.

INFORMATION CONCERNING

A source of this Bureau who has furnished reliable information in the past recently advised that during the Fall of 1966, a member of an Italian pro-Chinese Marxist-Leninist organization stated that one Richard Gibson was suspected of being a spy for the Central Intelligence Agency. According to this individual, Gibson recently had been in **Milan, Italy**, in the company of a female secretary from Paris, whose home is in New Rochelle, New York. At that time Gibson remarked his travel and activities were possible because he had married a wealthy English woman. Other things were said which aroused the suspicions of the Italian.

According to our source, the Italian pro-Chinese Marxist-Leninist subsequently relayed his suspicions concerning Gibson to Rene Raindorf, a member of the Central Committee of the Communist Party of Belgium (Marxist-Leninist). Raindorf reportedly thereafter met in Brussels, Belgium, with Gibson although he had indicated the Belgian pro-Chinese communists would look into the charges of the Italian Marxist-Leninist.

MEMORANDUM FOR: Deputy Director for Plans  
VIA: Chief, CCS/WC  
SUBJECT: Request for Approval for Operational Use of  
U.S. Free-Lance Writer - QREBONY/1

1. This memorandum submits a recommendation for your approval pursuant to CSI 240-6, 10 January 1963, paragraph 6, governing operational involvement of personalities in the field of journalism. This request concerns cover support for QREBONY/1, an asset currently handled by CA Staff, and involves the cooperation of Russell R. DeBow, a Chicago city official and proprietor of the Negro Press International Inc. QREBONY/1 was granted a POA on 23 May 1966, and a full operational approval is pending. The project under which he is handled was approved by Acting AEDP on 14 June 1966. Mr. DeBow was granted a Covert Security Approval on 19 April 1966.

2. QREBONY/1 is an American Negro e-patriate journalist and author presently residing in London. He is the author of one novel and numerous contributions to a wide variety of publications, such as the Kenyon Review, Monthly Review, The Nation, The Liberator and others. He worked as a reporter for the Philadelphia Arro American in 1950, for Agence France Presse in 1959, for CBS in 1960 and, in Europe, for the now defunct, pro-Chinese magazine Revolution. As a result of broad contacts and acceptance among radical, pro-Chinese and Negro militant circles, he has offered valuable access to important targets spanning four continents, and has demonstrated considerable skill in elicitation and exploitation of contacts for intelligence purposes in the process. The immediate and paramount operational objective for this agent is to gain direct access to hostile political targets in North Viet Nam and China. The outstanding requirement to be met in support of this objective, and of his continued effective exploitation generally, is the development of a backstopped and viable explanation for at least a portion of his income, which presently derives almost exclusively from clandestine CIA support. The proposal outlined below represents the conclusion of considerable research, including an interview with Mr. DeBow, to identify suitable cover arrangements which would make possible this explanation.

3. Mr. DeBow, a lawyer, is an Administrative Assistant to the Mayor of Chicago as well as a long time, if casual, contact of Domestic Contacts Service. His background includes assignment to the Intelligence Division of the Chicago police and cooperation with CIA in the course of a trip to Africa in 1961. Mr. DeBow also is part owner and in effective control of a very small feature syndicate in Chicago, the Negro Press International, Inc., which distributes rewritten news to Negro newspapers in the United States on a subscription basis.

4. On 20 June 1966, Mr. DeBow was approached by representatives of CA Staff and Central Cover Staff, acknowledging CIA connection, and interviewed with a view to determining the feasibility of using his service to backstop modest payments to QREBONY/1 for real or ostensible contributions of feature stories and reporting. (Since the contact was made to develop information pertinent to the present request for DDP approval, the interview was conducted on a hypothetical basis: QREBONY/1's identity was not revealed nor were any commitments entered into.) This conversation, despite its limitation, demonstrated clearly that such an arrangement involving Mr. DeBow and his firm would be practical from Mr. DeBow's point of view and well suited to the needs of the QREBONY Project. Mr. DeBow grasped the problem involved and suggested various means by which he could plausibly implement a cover arrangement should this be our decision. He was made aware of and understood the incongruity between his and QREBONY/1's ostensible political positions, and stated that this need offer no impediment to creation of the type of relationship which would be involved. The nature of Mr. DeBow's feature service and its modest size clearly enhance its usefulness and appropriateness for our objectives. Mr. DeBow, in conclusion, expressed his agreement in principle to participate in this cover support activity should CIA, on further review of its needs, decide to proceed with a request for his cooperation.

5. In the light of the very favorable response from Mr. DeBow and the determination, from reviewing the outlines of his operation, that it would be a uniquely appropriate backstopping for QREBONY/1, your approval is requested to recontact Mr. DeBow and establish with him suitable cover

ACTION REQUIRED - REFERENCED

1. We are manifesting reports and correspondence concerning OREGONY/1's new contact, Carole Piña, an American, age 31, born in New York City (possibly Bronx County), whose father's last name was Appel or Appell. Her husband's name is Carlos Piña (Mexican), but she is separated from him and he is seeking a divorce. She holds US passport, No. D633873, issued 5 August 1963 in New York; it comes up for renewal in August (at which time she expects to be in Zone). She is afraid that her having traveled to Cuba in 1964 with a Progressive Labor delegation will hurt her chances of getting a renewal of her passport.

2. Subject had been having a series of political and amorous affairs during her stay in **Dar**, and was in serious trouble when Q met her. After rejecting Dennis Thombeach's advances, she was in serious danger of being declared a prohibited immigrant; Q befriended her, and he and Colman Ferrer of the **Cuban** Embassy (who had been having an affair with her) saw that she got out of **Dar** safely. Q was to meet her in Cairo (but in fact had no intention of doing so) and later caught up with her in Rome. She indicated a desire to work with Q (without quite knowing for whom she would be working—he hinted rather broadly to her that he was in cahoots with "our friends in the East," but it will be noted that in one of her letters there is this disarming phrase: she warns him about how to deal with certain persons and adds: "Be cool with them—do not show your true colors (whatever they are)").

3. Q seized on the opportunity of using subject as an unwitting informant and eventually agent on the same basis. She submitted to an interview on tape in a Rome hotel room which lasts about 2-1/4 hours, in which Q debriefs her on her knowledge of every Tanzanian, liberation movement, or Bloc personality with whom she had contact, and in view of her attractiveness and willingness she lists quite a few. (She had some amusing run-ins with ODOYOKO personnel in Dar, which we shall edit out of the tape only for a fee.)

4. Q feels that she is emotionally unstable--his firmness in dealing with her, his making it clear he was not out for her body, have made him a guardian and true friend. She seems to be a good political reporter, understanding her own (confused) political yearnings and where her various contacts stand; she also seems to have a good memory for details. Q says that her "anti-revisionism" is incipient anti-Communism. He could eventually recruit her as an ODYONE witting agent, but that would take a lot of time and trouble; with much less effort he could effect a <b>false-flag recruitment</b> , and indeed, he has already done this on an informal basis by making it clear that he was collecting material for his Chicom friends. She would undertake further assignments for him. He actually asked her, "Suppose I asked you to go somewhere, would you go?" To which she replied, "If it's not cold." It is unlikely, however, that she would be able to return to <b>Dar</b> because of Phombeah's hostility. Wherever she goes, her main asset will be her physical attraction.		
5. She could be debriefed further on any point raised in the tape interview. The ideal would be to have the questions by the time Q goes to Rome in the second half of April, but this does not seem to be a likely possibility.

1. A number of lengthy and fruitful discussions have been held with JAGUAR officers regarding our continued running of QREBONY in the U.K. Their comments on the quality of QREBONY's reporting have been reported from time to time. Similarly, we will not dwell here on the mechanical arrangements we have evolved (with SMOOTH's agreement) to expedite the passage of information to JAGUAR, on the one hand, and avoid duplicate reporting (principally by passing the same materials as CS disseminate to SMOOTH) on the other hand. Suffice it here to say that achieving both of these goals, without compromising QREBONY as a source throughout both JAGUAR and SMOOTH (due largely to the wide range of areas he reports on), is a complex problem. We think we have reached a mutually satisfactory arrangement for achieving both aims.

2. What we are concerned with here, then, is JAGUAR's permission for us to run QREBONY from here, for the time being at least. The exact phrasing from JAGUAR's letter, agreeing to our request is: "With regard to the continued use of QREBONY by your service on a temporary basis while he remains in this country we have no objection to this provided we are kept fully informed of as much detail as possible."

3. JAGUAR pointed out that QREBONY operates in the same areas as some of JAGUAR's own agents, and this necessitates a fair amount of frankness regarding his activities in the U.K. We have made every effort to date to display to them that frankness. In return, JAGUAR has been cooperative, if not downright helpful. In one of our discussions, SMILL confidentially stated that one of their sources had quoted a sub-source as saying that QREBONY had admitted to him that he is a KUBARK agent. We assured JAGUAR that QREBONY is under instructions not to reveal his KUBARK relationship, of course; that QREBONY is not supposed to be recruiting any sub-agents and has not done so; that the remark could well have been made in jest, in reference to the charges levelled against QREBONY three years ago (or longer). We told JAGUAR that it would obviously be advantageous for us to know to whom QREBONY is alleged to have made the statement, and we would be grateful if JAGUAR could tell us. We have repeated this request in writing, but with no reply to date. SMILL stated at the time that he had doubts about whether they could identify to us the person who had made the statement; he was sure that they could not go back to their agent for elaboration without showing an undue interest in QREBONY. We may yet hear who the person was. All this is repeated here merely to indicate how far JAGUAR will go to be helpful, and how far, to date, they will not go.

MEMORANDUM FOR: Chief, Central Cover Staff  
SUBJECT: Cover Arrangements for QMONEY/1

This memorandum contains information solicited by CCS to implement cover arrangements, already proposed by CA Staff and approved by DDP, involving Russell R. below of Chicago and CA Staff asset QMONEY/1. It is keyed to the headings set forth in the "Nonofficial Cover Request for Individual, Headquarters Edition."

A. General Information

1. QMONEY/1 (previously carried as SIEBON). No previous request has officially been forwarded for cover support.
2. Currently a Contract Agent. Currently compensated at the rate of \$7,200 per year with a \$1200 nonaccountable allowance.
3. Agent has not nor will be reviewed by the Agency's medical psychiatric assessment and evaluations Staff. He is already overseas and will remain there.
4. The Agent uses a complex of related cover stories, based primarily on exaggerated implications of fact: Basically, that his income derives from free-lance journalism and money available from his wife's family. Some quarters suspect or believe that he may possess funds from the **CIA**, but this has never been alleged by the Agent himself.
5. Agent is available now for cover.
6. Agent is overseas.
7. QMONEY Project.

B. Biographic Information

1. DOB: 13 May 1931, Los Angeles, California; N; Negro; None; U.S.; No prior citizenship; Married; 3 children; 30 Stockleigh Hall, Prince Albert Road, London NW 8.
2. Adult and minor dependents are already in place and sharing the same residence. No readily available biographic information. He has 2 sons and one daughter, ranging in age from one to ten years.

6. Perceptive, aggressive but effective in personal relationships, literate.
7. Agent has fairly sizeable, but not pressing, debts to his in-laws. He lives modestly within his income from us.
8. Has resided only in U.S., Algiers, Paris and London, although he has travelled widely in other areas.
9. Fluent in French, competent in Italian and Spanish, and can read German.

C. Security Considerations

1. Agent has been receiving CA support for 13 months. FOA granted 23 May 1966 with caution requiring care in view of the considerable derogatory information developed as a result of the Agent's past association with left-wing and radical organizations.
2. Agent is aware of U.S. intelligence interest, has not been explicitly apprised of CIA involvement but no doubt suspects it.
3. Agent has never entered any installations associated with CIA.
4. There is no U.S. identification of the Agent with CIA outside of Staff personnel. British intelligence (see paragraph 5 below). His wife (whose family resides in England) is unwitting.
5. The Agent is known in true name to **the MI-5 and MI-6 of the United Kingdom.**
6. None. It should be noted that the contemplated cover will not be a relationship which the Agent (any more than the cover) will proclaim or flaunt, given the fact that in his highly anti-American circles, such a connection would be regarded as unsavory. The purpose of the cover is to backstop the Agent's story that he receives income from back journalism which he keeps separate from his "real" if warehousing involvement with radical politics.

7. No.

Q gives the impression of not being easily moved. He has already survived violent attacks, questioning by legislative committees and police (including abroad), public denunciation; now that he has KUBARK as a friend he should resist at least as well as before. One negative trait is his need to take revenge for injury, and this tendency must be controlled; his instinct to be spiteful to an enemy could conflict with a longer-range plan.

It is to be hoped that the present situation regarding his wife (who believes him to be working for the arch foe of PB-RDMS) will be possible to maintain. She doesn't like the situation much, but accepts it, and apparently hasn't betrayed his "confidence". If he is moved to another city which both Q and his wife would consider agreeable (Rome) she would probably be even happier and less likely to revolt, especially if a quarters allowance helped them get out of their present financial straits (they can pay rent and buy food but not save or repay debts— so his wife says he is doing an unpleasant thing without even being able to say they are better off than they were in Paris). If he were sent to a less agreeable place for six months or a year (say Dar) he would want to settle his wife in a desirable place (London but preferably Rome) for the children's schooling; here too her attitude would depend on their material position and on the possibility of his being able to visit on occasion (if he were in Dar, say, and she in Rome, he would return for visits— which would also be cover for his meetings with his case officer). Rodigast recommends that once in place, Q's basic wage be raised (as promised in June 1965) from \$600 to \$800, but that he also receive quarters and if possible an educational allowance.

D. Q says he is a local PBPRDMS. He now does act like one. Rodigast feels the evidence for his loyalty is at least as good as it is for most other PBPRDMS he knows. Early in their relationship (probably mid-June 1965 in Paris) Q had said he had turned away from the revolutionary movement and toward his own country; even though there were opportunistic reasons for him to have done so, he is seemingly not anti-PBPRIME. His views on Negro problems in PBPRDMS probably have not changed, but he never was a black nationalist, and has many friends, besides his wife, who are white). He might not agree with ODAYKA policy in Vietnam, Cuba, or elsewhere— he obviously has not been questioned on his personal beliefs— but his dissent, if dissent there be, is not disloyalty, and in any case should not prevent him from executing KUBARK policy to the letter. Undoubtedly he has a leftist economic orientation, but there is no evidence that it is an orthodox Marxist one (or that it ever was).

He seems to like Rodigast; in any event they work well together. He has made no effort to develop a warm relationship with Rodigast, however, apparently feeling that this is not necessary, might not be appreciated, and would conflict with the compartmentalization so obviously kept in force by Rodigast (who hasn't told Q his true name, address, marital status, or any other personal fact which might lead to identifying him). Seemingly Q does not believe the name which Rodigast used at their introduction was a true name, for he didn't bother to remember it (the last name), and all this would tend to discourage the building up of a personal friendship.

It is probable that he respects rather than scorns KUBARK for its decent treatment of him. KUBARK through Rodigast has always kept its promises, Rodigast has never been a minute late for a meeting (Q has
