TO: Mr. J. B. Adams

FROM: [Redacted] *for Legal Counsel*

SUBJECT: SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES

DATE: 6/2/75

In addition to the "category II" items, there are a number of additional subjects largely geographic in nature for which the DCI feels CIA should assume responsibility. In view of the apparent adversary relationship between the Senate Select Committee Staff and the agencies under investigation, it may be appropriate for the DCI to furnish the Senate Select Committee with information dealing with these subjects. This would be done in a manner which would clearly impact on his agency's affairs. No probing and result in a positive solution to problems before they arise.

At 2:30 p.m. on June 2, 1975, a conference was held with the Deputy Attorney General attended by K. William O'Connor, Kevin Maroney, Philip White, and Robert McDermott of the Department. Bureau representatives were Mr. Callahan, Mr. Adams, Mr. Wannall and me. present, the cross-agency character of the interviews now under way in connection with the COINTELPRO report. Mr. O'Connor discussed the request by the Senate Select Committee for access to the 39 page report by former Assistant Attorney General Petersen concerning COINTELPRO. Though objections were presented by the Bureau representatives that the report should not be furnished to the Committee, and its enclosures particularly the legal memoranda should not be made available, the Deputy Attorney General decided and instructed that the 39 page report should be made available to John Eliff on Tuesday, June 3, 1975, for his review, at which time he would be permitted to take notes, but he would not be furnished a copy of the document. The Deputy further instructed that should Mr. Eliff request the attachments to the report, Mr. O'Connor should offer as an alternative the memoranda which initiated each of the COINTELPROs. Upon our return to the Bureau, Mr. Adams requested that the Intelligence Division undertake an analysis of each of the summaries which were attached to the Petersen report in order to make a damage assessment based on factors that would affect current Bureau operations should they be revealed to the Committee. He also requested that this information be compiled and available to brief the Deputy Attorney General as in the difficulties that would be involved upon disclosure.

[Dr. T. Clarke indicated he was seeking policy guidance on materials under the jurisdiction of a number of Community agencies was provided to the members of the Ad-Hoc group. [Dr. T. Clarke indicated he was seeking policy guidance on selected areas etc.] He noted the 27 May request indicated identical matters were being forwarded to the Secretary of State - Mr. Daly, Secretary of Defense. Copies have been sent to all USIS Ad-Hoc members, the NSC and the White House.

**CONFIDENTIAL**

Memorandum to Mr. Adams  
Re: Senate Select Committee  
Copies of a memorandum which set forth the action items resulting from the Policy Steering Group session of last week were provided to the Ad Hoc members for their information.

**RECOMMENDATIONS:**

10. Mr. Elder reported that the House Committee has indicated to the CIA that the Intelligence Division analyze the summaries for purposes of a damage assessment. That the Intelligence Division be prepared to furnish a briefing to the Deputy Attorney General as to the damage assessment. [That the Intelligence Division analyze the summaries for purposes of a damage assessment.] That the Intelligence Division be prepared to furnish a briefing to the Deputy Attorney General as to the damage assessment.

11. [CIA reported its success with the provision of a reading room for SSC Staff at CIA headquarters.] State reported there were no comparable facilities anticipated there. Defense has provided badges to Staff members and reading facilities are available. The same accessibility of materials is true at NSA and FBI.

12. The last subject on the agenda was the implementation of the Community Central Index. In the material provided to the group was a letter reaffirming the purposes of the Central Index and a list of 40 key words to be used in identifying material furnished the Index. A printout of the Index content was provided to the group as a review document only. The final format of such periodic reports has not yet been refined. Group members are encouraged to comment if they detect any problems with items in the printout. Forms for inputting information to the Central Index were also provided to the Group. This is a service of common concern which will assure the uniformity of information received and should serve to lighten the workload of the individual agencies. The telephone number of Mrs. Young of the Central Index was provided for agencies' convenience in accessing the Index information.

2. WITNESS' ORGANIZATION: Retired SA, FBI  
This records the results of contact with Central  
Intelligence Agency (CIA) concerning release to Senate Select  
Committee (SSC) of two documents pertaining to Appendix C,  
Paragraph 24 of the SSC request to the Department of 5/14/75,  
which DATE OF INTERVIEW: 5/22/75  
and other materials reflecting  
conversations, contacts or communications between the FBI and  
the CIA concerning the subject of the establishment or creation of  
an "intentional" Marxist-Leninist organization within the United States.

6. CLASSIFICATION OF INFORMATION: Unclassified

No information has been developed indicating this Bureau  
conferred with CIA regarding the establishment or creation of a  
Bureau-sponsored "notional" Marxist-Leninist organization.  
Although the FBI did, in fact, direct several such organizations,  
no information was questioned and furnished information consulted  
concerning the former FBI investigations of Martin Luther  
King, Jr., and Stanley David Levison.

In one instance, CIA advised in 2/70 it had established  
a notional organization with post office box addresses in Boston,  
Massachusetts and Philadelphia, Pennsylvania. This notional  
organization, to be known as the Union for the Revolution, had  
the objective of developing propaganda and/or sources in  
revolutionary Arab groups and their allies. It was CIA's  
intention to circulate propaganda from the post office boxes in  
anticipation of interesting Arab groups. Thereafter, it was  
CIA's plan to use its personnel under "suitable" cover to  
contact the Arab groups. (See memorandum dated 2/13/70, captioned  
NOTE: "Union for the Revolution," 100-456409-2, copy attached.)

By letterhead memorandum dated 3/23/70, the FBI

for the Revolution had been in contact with a domestic Marxist-

I reminded Mr. O'Connor that meetings have been held frequently in the past and that tentative understandings made at such meetings have dis- appeared shortly after the meeting was concluded. I told him that was the reason we did not want to do this because we now understand that two more former employees of the FBI have been contacted and may be interviewed in the near future. I told him that former SA Sam Papich and former Agent Nichols have been contacted. I told him that the extent to which we should release these two former employees from their obligation of secrecy could not be intelligently evaluated unless we knew the subject matter of the interviews and that we plan to contact the Committee to inquire as to the subject matter. I pointed out to him that such pending interviews make it imperative for the FBI to consider action in addition to meetings that may be planned to discuss guidelines.
