LIVER FUNCTION TESTS

On 24 October 1968, I saw Dr. Daly of the Bio-chemistry Laboratory of West London Hospital for liver function tests. My family doctor, Dr. Hodes, sent me to Daly as a private patient, as British practice is not to take these tests unless the patient's condition seems to be worsening. My doctor thought I showed no signs of a recurrence of hepatitis and the normal practice would have been, at most, for me to have been examined by the specialist at the hospital, who might then decide to ask for the tests.

Daly said that all required tests, except the B.S.P., would be done. He said he thought the B.S.P. unnecessary unless the others indicated negative factors. In which case, he said he would ask me to come in again for that test.

Daly will send me the results of the tests and his bill c/o American Express, Rome, within a week.

1. After considering several alternatives and given QRPHONE/1's lack of financial forward planning, LCPIPIT believes that it would be beneficial and advantageous for WOFIRM to offer to subsidize a portion of an overt life insurance program designed to give him both life insurance and a cash value toward retirement. We have discussed this with QRPHONE/1 and he has agreed to the desirability of such a program. He is willing to participate in such an arrangement and has undertaken to explore the possibilities available to him. We are forwarding under separate cover a copy of several proposals which he has received from the local representative of a reputable WOLADY insurance firm.

2. LCPIPIT requests authority to subsidize up to 1/2 of the cost of a life insurance program for QRPHONE/1. (This WOFIRM portion not to exceed \$50 per month.) From an administration standpoint this would merely take the form of an increased monthly payment and we would take the necessary steps to verify that the funds were indeed being devoted to their designated purpose.

1. On the basis of the documentation submitted under reference dispatch, the Medical Staff feels that OPPHONE/1 made a surprisingly fast recovery and seems well on the way to complete health. However, the hospital report (a quick translation of which into English is attached for your ready reference), dated as it is, still reflects some inconclusive levels in the results of the various chemical tests shown. Undoubtedly these have by now been lowered to completely safe levels, since OPPHONE/1 apparently felt well enough to travel to France, but the Medical Staff believes it would be advisable for CRPHONE/1 to undergo another series of liver function tests, to include the following:

- a. SGOT
- b. SGPT
- c. Bilirubin (1) Direct
(2) Indirect
(3) Total
- d. B.S.P. (Bromsulfophthalein)
- e. Serum Proteins
Albumin
Globulin
Total

We assume OPPHONE/1 has consulted his own physician on his return to the UK, but the Medical Staff has pointed out that clinical examination alone is not always sufficient to determine complete recovery from hepatitis.

2. In terms of our operational utilization of QRPHONE/1 at this time, while they reserve finite comment until all the returns (per above) are in, the Medical Staff did stress the paramount importance ^{of} proper rest and of not over-taxing the strength of the agent, coupled with his strict adherence to regular, warm, balanced meals in accordance with the dietary restrictions usually imposed, and complete absence of alcohol, in order to prevent a relapse. So long as these caveats are adhered to, however, there is no reason why he could not make some more short trips during the next few months, if necessary. However, since he also has an office to set up and we would like him to concentrate on the Kambona offer, perhaps it would be a good idea to keep those trips to a minimum for the time being.

3. The Medical Staff will be glad to review any further chemical tests per para. 1 above suggestions, or any others which his doctor may have already run.

1. At their meeting on 4 September QRPHONE/1 submitted a report to RODIGAST on his hospitalization for hepatitis. Attached to his report is a copy of this medical record with results of blood and urine analyses written in Serbo-Croatian. We are forwarding a copy of the report under separate cover for evaluation by the Medical Staff. We are interested in having as thorough as possible an evaluation made of QRPHONE/1's illness in order that we may assure ourselves of his condition and the degree to which he ought to be active in the forthcoming months. We will appreciate it if Headquarters will pursue this matter with the Medical Staff and advise us of its findings and recommendations.

2. Also forwarded under separate cover is a memorandum prepared from RODIGAST's notes which elaborates upon QRPHONE/1's symptoms.

HEPATITIS BOUT

What I had thought was a touch of **malaria** and the extreme fatigue I felt when I returned to London in July proved in time to have been acute infectious hepatitis. The disease -- which takes two to three weeks to develop -- was probably contracted in **Uganda**. At least, I imagine so because my principal contact in **Kampala** insisted on taking me to a number of local restaurants of dubious cleanliness to sample **Uganda** delicacies.

Hepatitis was diagnosed by a doctor in Komiza, Vis, where my family had been holidaying since the beginning of July, and I was hospitalized in the isolation section of Split Hospital (there is no hospital on Vis) on the 7th of August.

My liver was swollen by one finger and blood and urine analysis indicated a fairly severe infection. Treatment consisted of terramycin and cortisone therapy, with massive doses of vitamins.

I was put on a fat-free diet, which I have been told to follow for at least six months. Naturally, no alcohol.

On 20 August, I was released from the hospital, mainly because I was pestering the doctors to let me go. I was told to have an "absolute rest" for four to six weeks and to have another blood test within several weeks.

(Attached is the Yugoslav doctor's description of my case and treatment, with results of all blood and urine analyses. It is written **Zemljak** in Serbo-Croatian.)

MEMORANDUM FOR THE RECORD

7 September 1968

SUBJECT: ██████████ Illness

1. The following information was obtained by ██████████ from █████████/1 at their meeting on 4 September 1968. It supplements the report which was submitted by █████████/1 which deals with his recent hospitalization for hepatitis.

2. Toward the end of his **African** trip █████████/1 had been feeling rather weak and nauseous, with no appetite. He was constipated, feverish and had gas pains. These symptoms persisted and after his return from **Africa** and on 6 August, while in Yugoslavia on vacation, █████████/1 suffered from acute gas pains and vomiting. He was taken from Vis, where he was vacationing, to Split where he was hospitalized. The address of this hospital is:

Opcu Bolnica
Zarazni Odjel (Firule)
Split, Yugoslavia

His doctor was Dr. Juraj FILIPOVIC.

3. █████████/1's treatment was free inasmuch as he was able to show his British National Health Card and a reciprocity agreement exists between Britain and Yugoslavia.

4. █████████/1 states that at no time did he receive narcotics nor was he ever unconscious. During his stay in the hospital a young British youth (Derek WHITTAKER, age 19, from Shoreham-by-Sea, Surrey) was in his ward suffering from food poisoning.

Increased Federal Income Tax Liability - QSPHOMB-1, Employee No. 802799

Dale Gayle file

In compliance with the recent Enactment of the Revenue and Expenditure Control Act of 1963, Subject's tax liability has increased from \$70.00 to \$90.00 per month. This represents the additional surtax charge and begins with the July 1963 pay period. Effective 1 December 1963 (1969 tax year) the tax liability will be reduced to \$60.00 per month. The Station should effect the change and continue to 2/4 tax withholdings to Headquarters.

Split
Yugoslavia
13 August 1968.

Dear Mr. Randall,

Unexpectedly, I found myself in the hospital in Split, Yugoslavia, on the 1st of August, confined to the isolation ward with a fairly rough case of infectious hepatitis, undoubtedly picked up in ~~Costa Rica~~. (They tell me the incubation period is about 3 weeks.) In any case, I am hoping to be released from here in another 10 or 15 days at the most. The treatment is good and seems thorough. My biggest problem was originally linguistic. I did speak with the doctors, who knew no English, in German or Italian, but my knowledge of Serbo-Croatian has increased steadily with the injections, blood testing and intravenous injections of glucosamine solution, etc.

The urgency behind this note is, though gone, to inform the firm of my condition. I hope to return to London — patient may, if and, days on the beach — as planned, but I can tell that I would restrict my activities physically for another month. There are many things to do in Britain and on the Continent, but I regret not being able to undertake the conference assignments in September, etc.

14-00000
least, I do not think my strength will be sufficiently restored for that event. Anyway, we shall see...

Fortunately, my family is on Vis, an island 5 hours by boat ride from Split, and have not had their vacation completely ruined because of me. Since this is an isolation hospital for infectious diseases, no visitors are allowed and there is no temptation or urgency on my wife to make that lengthy crossing just to see me. For me, also, my holiday on the beach in the sun has simply turned into lying on my back in a hot room, but it could be worse and I hope to be up and about in the next week or two, at most. I feel certain that I will be able to meet all my major commitments in London and elsewhere at the beginning but wanted to draw the firm's attention, as soon as possible, to my possible inability to handle another big assignment immediately.

Very sincerely yours,

Richard J. Gora

REVISED MEMORANDUM OF ORAL COMMITMENT

1. QRPHONE/1 collaborates with WOFIRM as a Field Agent who provides certain services of a confidential nature. He has received a Provisional Operational Approval, dated 22 MAY 66. Financial aspects of his activity are charged to approved Project QRPHONE.

2. QRPHONE/1's employment by WOFIRM, which began 1 June 1965, was originally formalized by a Letter of Agreement for a period of three months, replaced by a Memorandum of Oral Commitment dated 1 September 1965. Under this MOC, which remains in effect (as amended) since that date, QRPHONE/1's employment continues on a month-to-month basis. It can be terminated by either party on a 30-day notice.

3. QRPHONE/1 receives the following financial entitlements:

- a. Compensation so computed as to give QRPHONE/1 a "tax-free" income of \$800 per month (this figure effective 1 July 1967).

NOTE: The actual breakdown of QRPHONE/1's finances as carried on WOFIRM's books is \$800 monthly salary and \$70 per month tax supplement withheld at Headquarters to discharge QRPHONE/1's WOLADY tax obligation. These taxes are remitted through the Covert Tax Committee. This procedure was devised to honor the original "tax free" commitment made at the time of his recruitment and at the same time to fulfill the requirement that all WOLADY citizens pay taxes on funds received from LNFORT.

- b. Reimbursement for operational expenses and travel unless these are paid by other sources in which case WOFIRM will offset such outside reimbursement against WOFIRM financial obligations to QRPHONE/1. Since security considerations preclude processing of detailed accountings for miscellaneous operational expenses, and as an added inducement to QRPHONE/1 in connection with his obtaining certain confidential information of interest to WOFIRM, a small operational payment, as authorized by Chief, LCPIPIT will be made to QRPHONE/1 for each day during which he is required to be absent from his home on confidential business.

NOTE: Write-off of the funds passed to QRPHONE/1 is to be effected on the basis of the procedure approved by Chief, LCPIPIT and COS/London, a copy of which is attached. This procedure is authorized in view of the security considerations applicable to QRPHONE/1 and the need to limit the knowledge of this operation within WOMACE.

- c. QRPHONE/1 is authorized to receive a non-accountable office allowance of \$100 per month.

4. QRPHONE/1 will be compensated by WOFIRM in an amount mutually agreed upon for the relocation of himself and his family to a new residence if such relocation is considered desirable by him and WOFIRM. NOTE: This provision was included in QRPHONE/1's original Letter of Agreement and was retained in this MOC since it may be operationally desirable for QRPHONE/1 to accept employment with a target organization based elsewhere.

5. WOFIRM has arranged for a portion of QRPHONE/1's financial entitlements to be funded to him by QRPURE, which has also agreed to repatriate QRPHONE/1 to WOLADY. This has been done for operational reasons to enable QRPHONE/1 to qualify for foreign residence. Should QRPURE be obliged to honor this commitment, WOFIRM will guarantee this QRPURE commitment and will reimburse QRPURE for any costs incurred.

6. LCPIPIT is authorized to approve purchase by QRPHONE/1 of certain items of operational equipment which are to be non-accountable and which shall be charged against the operational expense category of approved Project QRPHONE.

7. QRPHONE/1 signed a separate Secrecy Agreement (in true name) at the time of his original recruitment. He is aware that its provisions are still in effect.

8. QRPHONE/1 is aware that he may be required, from time to time, to undertake an SGSWIRL.

9. QRPHONE/1 is aware of all provisions of the Memorandum of Oral Commitment with the exceptions of paragraph 6, which describes an internal WOFIRM procedure; certain aspects of paragraph 3a--specifically that WOFIRM is paying LINFORT taxes in his behalf; and certain aspects of paragraph 3b--specifically the procedure for write-off of funds since this is an internal WOFIRM procedure.

BRITISH VISA GRANTED

On 10 April 68, I was finally granted a British visa, without restrictions, valid until 15 Feb. 1969. No questions were asked when I went to the Home Office to get the visa.

My Home Office file number is: G 110880.

From the Metropolitan Police, I received Aliens Registration Certificate E 662567, which lists me as correspondent for Negro Press International.

I was told by the police that I could apply within a year to have the registration requirement waived because I am married to a British subject. Moreover, I am free to take any sort of employment or open a business without restrictions or having to request permission from the Ministry of Labour.

INLAND REVENUE MONOLOGUE (required)

Until April of this year (1968), I lived mainly on assistance from my wife's family and occasional freelance journalism outside Britain. Also, I had some savings and investments in America and Switzerland to draw upon. My brother-in-law, Gordon Kaye, purchased a house at 32 Hartwood Road, Stamford Brook, London, W.12 for us — the price of the house being considered a loan to be repaid over the years as is possible. My children's school fees were paid by covenant by my brother-in-law, as well as a grant in covenant to my youngest daughter.

I was not a legal resident of the U.K. until 8 April 1968, and on that date I began officially my duties as Overseas Representative and Correspondent for Negro Press International of Chicago, with a salary of \$300 per month.

MEMORANDUM FOR THE RECORD

SUBJECT: QRPHONE/1 FINANCES

1. This memorandum outlines a new procedure which is to be followed in the handling of the operational costs of field agent QRPHONE/1. This new procedure is being instituted in order to enhance the security and compartmentation of the handling of the administrative aspect of this project and parallels revisions in the handling of operational traffic. The new procedure which is discussed below is in accordance with accepted field procedures.

2. Currently QRPHONE/1 receives advances and accounts for use with detailed statements of expenses accompanied by true name receipts, etc. These accountings and the accompanying prints have been maintained in the LCPIPIT files. This system is to be changed. Henceforth monies for operational expenses are to be given to QRPHONE/1 by his handler (Career Agent Rufus P. RODIGAST) and will be carried on RODIGAST's accountings as operational expenses supported by receipts from QRPHONE/1 acknowledging receipt of the funds. This RODIGAST accounting and the QRPHONE/1 receipt will be used for write-off of the funds against approved project QRPHONE. No detailed accountings and no receipts carrying QRPHONE/1's true name are to be maintained in the LCPIPIT/Admin files.

3. It will be the responsibility of Chief, LCPIPIT and the project case officer to ensure that QRPHONE/1 is supplied with the funds necessary for the furtherance of the operation and to ensure that these amounts are carefully controlled to avoid over-payment. In discharging this responsibility the Chief, LCPIPIT may require instructions to maximize the various expenses to be covered by the payments.

ARREST AND EXPULSION FROM SWITZERLAND

Brigue, 20 Jan. 1968.

The Milan-Geneva TEE reached the Swiss border at Brigue at about 1030. It was evident that the Border Police were expecting me -- the usual lone civilian inspector of passports was accompanied by a uniformed policeman. I was taken, with baggage, to the station immigration office. My wife went with me, but was apparently not covered by the ban on me. When the official in charge of the office phoned Lausanne and Berne, he was informed that I was to be expelled immediately and that they did not want to interrogate me.

Great effort was made by the official in charge of the office to be polite, especially when I made a rather vigorous protest at the expulsion, claiming that I had never been informed of the ban on my entry in Switzerland, said to date from 16 Dec. 1963, and that, in any case, I had visited Switzerland on numerous occasions since 1963 without interference. Moreover, I was a professional journalist accredited to the United Nations and was indeed on my way to Geneva to visit the U.N. Office there, I said. The official seemed somewhat baffled by this, because he had been informed I was en route to Lausanne, but I showed my tickets valid to Geneva. Nevertheless, with the greatest of apologies, I was escorted -- this time by a plain-clothesman -- to a train back to Italy at 1130. My wife could have stayed in Switzerland, but I asked her to return with me.

During my detention, my wife phoned Gilbert Etienne in Lausanne, informing him of the situation, the Associated Press office in Geneva (speaking to a Mr. Atkins) and the U.S. Press Attaché, Frederick XXXXX Steiner, in Berne. Actually, I had told her to phone as many wire services as possible, but she assumed I also wanted to get the Press Attaché to protest on my behalf. In any case, the shortness of time between trains prevented her from making more calls.

When given the attached formal notice of the travel ban by the Swiss official, I refused his request that I sign it and warned that the expulsion was a violation of Swiss agreements concerning the freedom of access to the U.N. Office in Geneva which I fully intended to protest formally and bring to world attention.

Later, from Verona, I spoke myself XXXX with Gilbert Etienne, who was convinced -- quite correctly, I believe -- that his phone is tapped and that my arrival was ~~isxxed~~ communicated to the Swiss Federal Police through a phone conversation I had with Etienne from

swiss explosion - 2 last

Milan on 18 Jan. (My train reservation was made in Milan, not London.) I also spoke with Atkins of AP in Geneva, who told me he had filed a story after my wife's call about an American Negro journalist being refused entry into Switzerland. He asked for more background on me, claiming that New York had expressed interest in developments. Atkins believed that I could get the ban lifted by protesting to the Swiss Press Attaché in London as a professional newsmen. He said he believed Swiss authorities were rather jumpy about "suspicious" individuals entering the country since the large Biafran shipments of Nigerian currency to Zurich earlier in January. Whatever the real reason, although I do resent not being able to talk with Etienne -- I was counting on him to reestablish links with Nils Andersson in Albania and to give me a picture of the altered situation among pro-Chinese Communist parties in Western Europe since the latest split from Jacques Grippa's party in Belgium --, I think the expulsion is a most useful incident to prove that I am indeed a good revolutionary and I intend to exploit it as fully as possible, within reason. That is, no overt diatribes against "how the Man operates in Switzerland," say in the Los Angeles Herald Dispatch, but to inform as many people on the Left as possible of the incident and let them draw their own conclusions.

[Michael Bakafa/Petros Deftz, who was expecting me in Geneva for an interview on 22 Jan. was informed by a wire from Verona that force majeure prevented me from keeping the appointment and that I would be writing him when I returned to London.]

T-2421RECOMMENDATION: A. DRAFT T-2421, 21 Sept. 1957
B. DRAFT T-161 (DRAFT) (execute)
C. DRAFT T-2421 (T-2421)

1. We appreciate TAGINER/PA's effort to combine and bring up to date all committee notes made to CRPHON/1 in a revised MOU, forwarded under DRAFT A. We believe that the following comments, geared to the paragraphs as numbered in the MOU, will help to further streamline the product:

a. Para. 1:

Please see "Reference B, DRAFT dispatch."

b. Para. 2:

As indicated in the DRAFT A covering dispatch, CRPHON/1's initial employment began 1 June 1965, rather than the 1 September 1965 date given in the draft MOU. Since the effective date of his relationship with WOFIRM will one day be the basis for an equitable terminal settlement, or might assume other administrative significance, we suggest that the paragraph be amended to reflect this: "CRPHON/1's employment with WOFIRM which began 1 June 1965, was originally formalized by a Letter of Agreement for a period of three months, replaced by a Memorandum of Oral Commitment dated 1 September 1965. Under this MOU, which remains in effect (as amended) since that date, CRPHON/1's employment continues on a month-to-month basis. It can be terminated by either party on 30-day notice."

c. Paragraph 3:

From following MPA REPORT 10, it would appear that the fine line of demarcation between ORPHOME/1's meal "allowance" and his "non-accountable pay" is so vague to him (if indeed he was ever fully aware of it in our own bureaucratic terms) as to be virtually non-existent. It is equally confusing and often non-recognizable in other administrative papers (see FILE C). In terms of the tax situation, the \$100 has already been adjudicated taxable and the \$70 supplement has been computed as tax due on the \$600 total. We suggest, therefore, in the interest of administrative simplicity, that we convert the total \$600 to salary, and amend the MCC to reflect this.

d. Paragraph 3b:

A question came up concerning ORPHOME/1's per diem in connection with the three occurrences which RODIGAST submitted for processing direct at Headquarters. Included were several operational lunches and dinners. ORPHOME/1 indicated he was leaving the computation of per diem due him up to Headquarters (we have allowed for 27 days of \$60 per day). Since regulations state that no one may receive double compensation for any reimbursable expenditure, and ORPHOME/1's per diem by definition is supposed to cover food, etc., we will have to deduct 10% for each meal specifically claimed by him in his detailed accounting (i.e., \$6.00 per meal). This will be the subject of separate correspondence when the occurrences are processed and we T/A the appropriate amount for credit to ORPHOME/1's account, but we raise it now as we are not certain as to ICPRIPIF's intent or previous practice in this regard. The amount that ORPHOME/1 would be assessed is, of course, not very substantial, but if ICPRIPIF feels ORPHOME/1 should receive greater financial assistance to further defray his personal as well as operational costs while in travel status, we suggest that this enabling paragraph be amended to permit greater flexibility in the establishment of the per diem amount. Now would be an appropriate time to amend the MCC to give Chief, ICPRIPIF/London, the authority to set ORPHOME/1's per diem at ". . . \$60 to \$60 per day during periods of authorized travel, amount to be set in advance, by Chief, ICPRIPIF/London." Fifteen per cent will, of course, still need to be deducted from ORPHOME/1's accounting for every meal he correctly claims as an operational expense. As to travel which does not extend overnight, regulations only require that 55% be deducted from his per diem, rather than the 60% which, in effect, the \$6.00 represents. We leave it up to you as to which provision you wish included in the final MCC, but in any event we suggest that it be incorporated in the body of the paragraph, rather than set apart as a quotation from another document.

2. We have no further comments concerning the remainder of the MCC.

3. If you concur with the above suggestions, please recommit an amended MCC which would also reflect these additional changes. We are sorry not to have been able to meet ICPRIPIF's 15 October requested deadline, but press of business related to ORPHOME/1's VOLADY mission intervened.

MEMORANDUM FOR: CCS/NC
SUBJECT: ORPURE/GREBONY/1 Relationship

1. This will confirm our conversation of 18 September 1967, in which we discussed GREBONY/1's plan to visit ORPURE some time during the week of 25 September 1967, and you agreed to give ORPURE/2 prior warning of this visit. In accordance with the same conversation GREBONY/1 was briefed that his visit should be mainly a question of touching base with ORPURE, maybe a friendly luncheon with ORPURE/2 -- but that no substantive discussions affecting their ostensible relationship (i.e., amount of money, amount of GREBONY/1 production for ORPURE, etc.) were to take place. You were to brief ORPURE/2 along the same lines, and also to indicate to him that, contrary to our original thinking, we would now like to have GREBONY/1 given a by-line, whenever ORPURE/2 feels he can do so.

2. In addition to the above, we would appreciate it if you would take up with ORPURE/2 (and/or ORPURE/1, as appropriate) the possibility of increasing the amount of money funded to GREBONY/1 via ORPURE. As indicated to you, we would like to increase the current \$100.00 monthly to \$300.00 monthly, but would like your careful examination with ORPURE principal(s) that this amount is not excessive either in terms of their willingness to handle or in terms of ORPURE's ostensible ability to cover.

3. Please also mention to ORPURE/2 our desire to have GREBONY/1 open a small office in London, and our thought of perhaps including ORPURE (along with other publications) as a name on the door or on his letterhead. Would ORPURE/2 (or ORPURE/1) have any objections? Would he have any objections if any of the other names are of more radical publications? It would not be operationally feasible or desirable to let him know in advance which these would be, but since both

QRPURE's have been briefed carefully as to QREBONY/1's radical aura, presumably they would have a good idea as to the kind of publications these might be.

4. For operational reasons, we would prefer that the arrangements indicated in paras 2 and 3 above not be broached until after QREBONY/1's departure from the United States, some time in mid-October. We will advise you of his departure so that you can make the necessary arrangements thereafter at your convenience.

SUBJECT	DTDORIC/Administrative GREBONY/1 Employment Agreement		
ACTION	ROUTED TO: [REDACTED]		

1. QREBONY/1 was recruited by WOPACT on 3 June 1965. This recruitment was performed by an officer from WOMUSE/ICG since QREBONY/1 (then known as STEBONY/1) was viewed as a **"double agent"** penetration of pro-Chinese communist groups. QREBONY/1 has performed well in a difficult and dangerous environment. He is a clandestine agent operating **against targets violently** anti-WOLADY and of priority interest. The administration of QREBONY/1 requires special care since, by the very nature of his role, he is not typical of the average LCPIPIT asset.

2. QREBONY/l's initial employment was by Letter of Agreement for a period of three months. This Letter of Agreement expired 1 September 1965 and was replaced by a Memorandum of Oral Commitment dated the same day. This oral employment agreement remains in effect at this date--some two years later--, but has been amended to adjust compensation. Certain inaccuracies in the original MOU have also been corrected subsequent to its preparation. Given the sensitive nature of QREBONY/l's relationship with WOPACT it is sometimes difficult to adapt the operational realities of his situation to the administrative requirements of WOPACT. However, with great understanding at home and in the field, we have reached a very manageable situation.

3. In order to codify the entitlements and procedures applicable to QREBONY/1's employment the undersigned has prepared the attached revision of the HOC underwhich QREBONY/1 is employed. It is requested that HUS approve this revised HOC and notify LCPIPIT of approval by 15 October.

REVISED MEMORANDUM OF ORAL COMMITMENT
(Revised to include all changes and amendments operative as of
14 September 1967)

1. QREBONY/1 is employed by WOPACT as an independent contractor for certain services of a confidential nature. He has received an Operational Approval, dated . Financial aspects of his activity are charged to Project QREBONY.
2. QREBONY/1's employment under this agreement commenced 1 September 1965 and continues on a month-to-month basis. It can be terminated by either party on 30-day notice.
3. QREBONY/1 receives the following financial entitlements:
 - a. Compensation so computed as to give QREBONY/1 a "tax-free" figure of \$800 per month (this figure effective 1 July 1967). NOTE: The actual breakdown of QREBONY/1's finances as carried on WOPACT books is \$700 monthly salary; \$100 non-accountable operational allowance; \$70 tax supplement withheld at HQS to discharge QREBONY/1's WOLADY tax obligation. These taxes are remitted through the Covert Tax Committee.
 - b. Reimbursement for operational expenses and travel, unless these are reimbursed by other sources in which case WOPACT will offset such outside reimbursement against WOPACT financial obligations to QREBONY/1. Since security considerations generally preclude the detailed accounting for miscellaneous travel expenses, per diem will be paid at the rate of \$20 per day during periods of authorized travel. This per diem authorization was qualified by a personal ruling of Chief of Station, Paris/LCPIPIT dated 12 July 1965:

"If subject is absent from his home station on authorized travel for part of one day and returns to his home station the night of the same day (i.e. if no hotel expense is involved in the sense of overnight accommodations), then he shall be entitled to draw 1/2 of his authorized per diem of \$20 per day (i.e. \$10)."

NOTE: QREBONY/1 has a revolving fund (advance) to assist in meeting operational and travel expenses.

4. QREBONY/1 will be compensated by WOPACT in an amount mutually agreed upon for the relocation of himself and his family to a new residence if such relocation is considered desirable by him and WOPACT. NOTE: This provision was included in QREBONY/1's original Letter of Agreement and was retained in this MOC since it may be operationally desirable for QREBONY/1 to accept employment with a target organization based elsewhere.

5. LCPIPIT is authorized to approve purchase by QREBONY/1 of certain items of operational equipment which are to be non-accountable and which shall be charged against the operational expenses category of the budget attached to the FY 1968 project renewal.

6. QREBONY/1 signed a separate Secrecy Agreement (in true name) at the time of his original recruitment. He is aware that its provisions are still in effect.

7. QREBONY/1 is aware of all provisions of this Memorandum of Oral Commitment with the exception of paragraph 5, which describes an internal WOPACT procedure, and certain aspects of paragraph 3b, specifically that WOPACT is paying LIMPORT taxes in his behalf. NOTE: He was promised tax-free compensation in his original recruitment and we have devised the current procedure to honor this commitment while fulfilling the requirement that all WOLADY citizens pay taxes on funds received from LIMPORT.

1. LCPIPIT is revising the QREBONY Project files--which have been rather haphazardly maintained over the past year or so (much of this time the project was without a case officer). In our attempts to locate basic project documents we have been unable to find any copy of the provisions of the Operational Approval applicable to QREBONY/1. We do have a copy of the Provisional Approval granted 23 May 1966 forwarded with OFLW - 1591, 7 July 1966. Possibly the relevant document was destroyed during the reduction of files attendant upon the LCPIPIT move, or possibly it was inadvertently not forwarded to LCPIPIT. At any rate we will appreciate being sent a copy.

2. We would also like to have a sterile version of the FY 68 Project Renewal as well as all other basic documents which ought to be available to LCPIPIT.

We are forwarding USC a copy of a letter sent QREBONY/1 by Jacques Verges' lawyer in which he makes a settlement offer on behalf of his client. QREBONY/1 will probably accept this, after a suitable waiting period, as it offers very telling and effective ammunition for use in his continuing battle to counter Verges' allegation that he was a WOFACT agent. It is our reading at this point that QREBONY/1 has been quite successful in this effort and that this settlement from Verges will be the final triumph in his campaign.

MR. GIBSON / MR. VERGES

Chers Madame et Monsieur,

Je m'empresse de vous faire savoir que l'atitre VERGES propose de vous régler en dinars algériens la moitié des sommes demandées, ce qui me semble intéressant pour vous, compte tenu de l'ensemble des circonstances de cette affaire, soit :

7.500 fr pour Mr. GIBSON d'une part, et
5.250 fr pour Mme GIBSON d'autre part
 total : 12.700 fr

Je dois vous indiquer que cette proposition est un peu inespérée, car il est clair qu'en poursuivant la Société des NOUVELLES ÉDIFICATIONS INTERNATIONALES, vous gagnerez une certaine somme dont je ne puis fixer le montant, mais ne toucherez jamais rien.

En ce qui concerne la lettre d'int. M. GIBSON m'avait entretenu, mon Confrère ne me répond sur celle-ci. Je pense qu'il n'y a quand même pas lieu d'en faire une question de principe et que nous pourrions, dans le cadre d'un reçu, obtenir une phrase ~~d'écho~~ sur ce qui a été dit à votre sujet.

En tout état de cause et si nous parvenions à un accord sur cette base, Mr VERGES propose de tenir cette somme à votre disposition dès votre premier voyage en Algérie.

Je crois qu'il serait préférable que, d'une manière ou d'une autre, cette somme soit remise à une personne ayant votre confiance.

Si toutefois vous pensez que je dois tenter d'obtenir un peu plus, vous voudrez bien je vous prie me le faire savoir, mais j'insiste sur ce point qu'il est quelque fois préférable d'attraper une proposition à la balle, plutôt que de risquer de tout perdre. GS COPY

CONTINUING BRITISH IMMIGRATION PROBLEM

Returning to London from Stockholm on 10 July, I was again queried by British Immigration about my failure to register as a permanent resident. My excuse has always been that I did in fact go to the Home Office, but no action was ever taken because I rarely remained in the country more than a month. However, this tale is wearing thin and I fear that I may have much more serious trouble in the near future.

It would seem to me that the best solution might be to become the official London correspondent of NPI or any other outfit that might have me. I would need a letter to that effect and would require a nominal salary of about \$5,000 per year, I believe, but even this might raise questions from the British Inland Revenue.

Some advice on this problem would be appreciated.

NEGRO, IN PEKING, ACCUSES CUBANS

**'Vicious Smear' of China in
'Forged' Letter Charged**

Robert F. Williams, an American Negro who is now a black nationalist spokesman in Peking, has charged that the Cuban regime of Premier Fidel Castro has counterfeited a newsletter he puts out and used the bogus periodical for "a vicious smear attack" on Communist China.

In the May issue of the subtle flattery of Chinese armed self-defense. Our objective newsletter, *The Crusader*, which Communist leaders. It goes on, "is to make America a just has arrived here, Mr. Williams to say that Mao Tse-tung was and decent place to live." asserted that the "forged" version "old and sick and can no longer control his arrogant mark that is available only for power-mad underlings who, al-Cuban Government bulk mail-though acting in his name, have being." He charged that the news-abandoned the people's revolution letter was put out by "the Cuban G-2", which he said was Mr. Williams' current Peking heavily infiltrated by the United States Central Intelligence Agency.

Mr. Williams left his home that those who are trapped in Monroe, N. C., in 1951 and into it could "work among the went to Cuba, where he advocated troops to educate them to the cated a "freedom struggle" for true facts of life."

Negroes in the United States. He left Cuba last year.

Another American Negro nationalist, Richard Gibson, in a cool current newsletter from London, describes Mr. Williams as "chairman-in-exile of the all-Black Revolutionary Action Movement (RAM) in the United States." Sixteen persons, who were said to be members of the revolutionary movement, were arrested in Queens last month on charges of having plotted to murder moderate Negro civil rights leaders.

As advice to Negroes at home, the newsletter said:

"Revolutionaries must play it cool. Infiltrate the police and the master infiltrators, the CIA. We must learn to subvert him at his own expense while using his facilities to advance our cause of Black liberation."

On Monday, Workers World, a weekly here with a Trotskyist tendency, announced that it had obtained a statement from Mr. Williams denouncing the alleged murder plot here as a frame-up."

1. We now have JAGUAR's comments on the proposed "group" designed to allow REBONY to expand his access by "representing" something - even if only a purely national group. The letter from JAGUAR is attached.

2. We would observe that JAGUAR's comments are obviously made in a constructive vein. Similarly, J.GRIK seems to take a protective, almost proprietary interest in considerations affecting the WILLIAMS project. We naturally welcome this feeling on their part, since REBONY continues to exist as a U.K.-based operation at their pleasure. And we think that JAGUAR's comments are sound, in substance. Their final comment also veils, to say the least, the understandable SWEDISH reluctance to see yet another splinter group - operating, with the frightful political implications if a WILLIAMS spy were exposed while running a phoney "pro-Chinese" group in the U.K.? (It would probably be not too good in WILLIAMS, for that matter, but a government could fall here as a result.)

3. We have now had an opportunity to talk this over with CILIBERTI, LINGEMESTER and RODIGEST, and all are agreed that REBONY's trial balloon will not be re-floated. We think no harm is done. If JAGUAR should come into possession of a copy of REBONY's letter, and ask us about it, we will acknowledge that he wrote it to try out on a limited number of friends and aimed at his Swedish audience, preliminary to (he hopes) his WILLIAMS' arrival in Sweden. We are now merely replying to JAGUAR that we are grateful for their cogent comments, and that "the group" will not be activated unless there is a significant change in the REBONY operational situation such as to require "the group" to be created, in which case we will again seek their concurrence.

SUBJECT TOPIC/Operational CREBONY/CREBONY/1 and AMSQUAW/1's Relationship			
ACTION REQUIRED - REFERENCES			
<p>1. The relationship between CREBONY/1 and AMSQUAW/1 is a particularly important one from both the production and security points of view. AMSQUAW/1 has been a prolific and reliable reporter, especially on items dealing with the International War Crimes Tribunal, and it will be highly desirable for her to continue to serve in this capacity in the foreseeable future. It is recognized that AMSQUAW/1 is not a controlled agent and that her personal willingness to serve as a clandestine informant of CREBONY/1 is based upon a complex and inter-related series of reasons, both personal and ideological. CREBONY/1 helped her out of a tight situation in Africa and has befriended her since her arrival in London. For the last several months she has been living at his house. CREBONY/1 has a very agreeable personality and is a genuinely likeable person. At the same time, although she is not an ideological person, she shares his pro-Chinese ideological position and she has never questioned his explanation - that her reporting is for the Chinese. Lastly, we cannot and have not, overlooked the likelihood of a physical attraction between the two. In the last analysis it is impossible for us to state exactly what motivates her to act as a clandestine informant for CREBONY/1.</p> <p>2. It is quite possible for the relationship between CREBONY/1 and AMSQUAW/1 to change at any time. Should their relationship take a turn for the worst it might possibly have adverse security implications for CREBONY/1. This subject has been discussed at length with CREBONY/1 and he agrees that great care must be taken. He is careful to use AMSQUAW/1 only in situations where it would be plausible for the Chinese to have an interest. Thus far this has been relatively easy, indeed at the Stockholm sessions of the Russell Tribunal the absence of any Chinese representatives served to confirm in AMSQUAW/1's mind that CREBONY/1 was the Chinese man on the scene. At this point no actual problem exists, but both LCPIPIIT and CREBONY/1 are alert to the possibility that one could arise.</p>

MEMORANDUM FOR THE RECORD

SUBJECT: CILIBERTI Conversation with RNSLIVER 26 April Concerning His Meeting with QREBONY/1

1. On 25 April BASTEAR told me that RNSLIVER was in London and was planning to meet with QREBONY/1. BASTEAR accordingly suggested that RNSLIVER be debriefed by the undersigned the following morning. Accordingly I met with RNSLIVER for about one hour, from which meeting the following highlights seem worth recording:

A. I told RNSLIVER that we (WFACT) had been interested in QREBONY/1 at the time that he was writing for China Quarterly concerning his dispute with the editor of Revolution, Jacques Verces, but that we had lost tract of him of late. Now that we are in QREBONY/1's home town, RNSLIVER was told that we and Headquarters would be interested in any information on QREBONY/1 which could be reported as a result of such meetings as RNSLIVER had had with him.

B. RNSLIVER said that he had told Leo Labedz that he would like to meet Ibrahim to gain some understanding of what was going on in the African exiled community, particularly as it related to the Sino-Soviet split. Labedz said that he thought that RNSLIVER would do much better by talking to QREBONY/1 whom he, Labedz, said was one of the few people around from whom Labedz could learn anything.

C. RNSLIVER met QREBONY/1 at QREBONY/1's house. RNSLIVER did not have a complete roster of those who were there to participate in what RNSLIVER described as a "political bull session". He remembered only (in addition to himself and QREBONY/1) of Matthew Nkoana and a girl from Mexico City named Sucessos, who he said knew a great deal about guerrillaINGS-on in Venezuela and whose address he said was Calzada, Tacuboya 103, Mexico 18. RNSLIVER said that Nkoana said practically nothing throughout the evening, apparently because he found RNSLIVER's presence odd and unnerving.

D. RNSLIVER was as impressed with QREBONY/1 as Labedz had predicted he would be. He described QREBONY/1 as remarkably knowledgeable concerning Chinese factions of Communist movements in Western Europe and Africa. He said that QREBONY/1 had described his recent trip to Nicosia and Cairo, had mentioned that he had visited Dar-es-Salaam, that he knew Jacques Grippa, and that he intended to visit Stockholm in connection with the Russell Tribunal and a possible Stockholm visit by Robert Williams.

CONTINUING BRITISH IMMIGRATION PROBLEM

Returning to London from Stockholm on 10 July, I was again queried by British Immigration about my failure to register as a permanent resident. My excuse has always been that I did in fact go to the Home Office, but no action was ever taken because I rarely remained in the country more than a month. However, this tale is wearing thin and I fear that I may have much more serious trouble in the near future.

It would seem to me that the best solution might be to become the official London correspondent of NPI or any other outfit that might have me. I would need a letter to that effect and would require a nominal salary of about \$5,000 per year, I believe, but even this might raise questions from the British Inland Revenue.

Some advice on this problem would be appreciated.

* must be at least £ 1000 yearly.

E. RNSLIVER was particularly impressed by QREBONY/1's library of radical books and pamphlets. RNSLIVER turned over to the undersigned for copying and return a recent issue of Williams' The Crusader, and a copy of QREBONY/1's own newsletter. These were received with feigned interest, although of course we had earlier received the same items from RODIGAST (already forwarded to Headquarters).

F. RNSLIVER did not recall meeting Mrs. QREBONY/1, and did not know how many children QREBONY/1 had. He described QREBONY/1's house as attractively middle class. He was aware of the fact that QREBONY/1 had gone to Kenyon College and praised QREBONY/1's writing skills. QREBONY/1 showed him a number of articles he had written which RNSLIVER said completely followed the Chinese Communist line. RNSLIVER was surprised that some of these articles had been printed in the United States in spite of their political orientation.

GRIFFITH VISIT

Conversation with Prof. William S. Griffith, London, 25/4/67.

Tadeusz Horko phoned my home to tell me that ~~XXXXXX~~ Griffith, who is spending a sabbatical year in Munich from MIT, wanted to see me. Later that evening, Leo Lapekdz and Griffith arrived. Stella Joyce of Amnesty International and Matthew Mkoana also arrived unexpectedly. It turned out that Lapekdz and Joyce had often talked over ~~telephone~~ the phone, but had never met.

Griffith told me that he had recently visited East Africa. In Dar es Salaam, he had met David Sibeko and Ahmed G. Ebrahim of the PAC (Pan Africanist Congress). He said his distinct impression was that PAC was on a strong pro-Chinese course. Griffith said he had written to ~~Hanah~~ Mahomo's old address in London in an effort to contact him, but had learned later that Mahomo was now at ~~Makoko~~ Kirkland House, Harvard University. He said he looked forward to talking with Mahomo when he went briefly to the USA in May.

AFF. GIBSON C/Nouvelles Editions Internationales

Cher Monsieur,

Mon confrère adverse, Conseil de la Société Nouvelle des Editions Internationales, et de Monsieur VERGES, me fait savoir qu'il a eu une conversation avec M. VERGES qui lui a indiqué qu'il vit actuellement en Algérie et serait disposé à rechercher un règlement amiable des difficultés qui vous opposent.

Il m'a fait part qu'actuellement sa situation ne lui permet pas de payer en une autre monnaie que la monnaie algérienne; savoir le dinar.

Il y a là une question de principe. Pourriez-vous, je vous prie, me faire savoir si vous pourriez envisager une transaction aux termes de laquelle vous seriez réglé en dinars. J'ignore d'ailleurs dans quelles conditions l'exportation des capitaux d'Algérie est encore possible à ce jour.

Quoi qu'il en soit, peut-être seriez-vous intéressé par cette proposition.

Je n'ai pas encore discuté de chiffres avec mon confrère adverse puisqu'il s'agit là d'une question préjudiciable à toute discussion sur le fond de la somme due.

J'attends donc votre prochaine réponse et vous prie de croire, cher Monsieur, à l'expression de mes sentiments dévoués.

I phoned Schwartzberg and informed him I would agree to a settlement, but the amount to be paid in any currency would necessarily depend on the extent to which Jacques Vergès apologized for his accusations against me in 1964. I said I did not mind if Vergès attempted to lay the blame for those accusations on a "misunderstanding" or on erroneous or malicious misinformation given him by others.

1. QREBONY/1 told RODIGAST at their most recent meeting that he did not have to file an overt tax form for 1966 because his gross overt income for 1966 was less than \$600. This will not be true for the 1967 tax year and he will have to file in the Spring of 1968. The operative sentence in the 1966 Tax Guide For US Citizens Abroad, US Treasury Dept IRS Pub No 54 states--"Every citizen of the United States, regardless of where he resides who is under 65 years of age and has a gross income of \$600 or more during a tax year must file an income tax return."

Roney's relatives. When Home Office gets a wire from the
airport saying he's been seen at the airport by immigration people - as long as he's properly accommodated, visa current
and all that, they shouldn't keep him over (unless, of course,
they catch him in immigration delicto). So as long as he keeps his
nose relatively clean, he's okay. He doesn't need to worry until
the Home Office comes to him; when that happens - if it happens,
and that is unlikely, the way the British law works - he will
look into things further. Tell him that having a British
wife makes him immune to most out-kicking activities - as long
as his nose is clean.

In fact, it is all fixed with the Home Office. They will not take any action against him without checking with JAGUAR, and they, of course, will check with us. Eb should not be encouraged to be flippant or sassy with the Immigration people, but he doesn't need to panic, either. He should behave in a reasonably straightforward and natural way - so he should not be encouraged to think we have "fixed" things for him.

I also discussed again with JAU the question of having him taken off the watchlist. They are willing to do so, if we want, but their concern still is that it is better for him to be watchlisted. There could probably be no better credential for him, if traveling with librarians of Manchanda or Rainford, or someone of that sort, than to get the business from the State's or Immigration people. And, of course, he should, for our sake (security, and all that) be discouraged from carrying anything incriminating, and if he knows that he may be searched at any time he comes or goes, that should help his discretion along.

Now, I am on the other hand, the airport. Narragansett really gets to be too much of a burden, maybe we will want to review the situation. On the basis of the last incident to date, however, I vote for leaving him unchallenged.

Let me know if you see any problems, or if there are any unanswered questions.

(Ch., yes: consensus is that he should not apply for permanent residence per 11. If he walks about it, Eddy should point out what is apply. & for one he would have to give so info about his income, etc., which he doesn't have to do now. And, again, since his British wife is an ace in the hole, he does. It has to volunteer that information; so he shouldn't.

URGENT

BRITISH IMMIGRATION PROBLEM

Returning to the U.K. on 15/3/67, I was warned by British Immigration at London Airport that I was spending more time in Britain than outside the country. The Immigration Officer inspected my passport closely, counting the number of trips I had made since getting that passport, which had been issued by the U.S. Embassy in London, on 1 December 1965. However, no explanation was asked for concerning the travel. I explained that I had intended to resettle in Switzerland or France, and was spending so much time in Britain only because my wife, who was British, had been helping to take care of her elderly parents in London. I was told nevertheless that I should go to the Home Office and apply for temporary residence in Britain.

Before doing so, I would need to know:

- 1) whether I should in fact do so;
- 2) how should I describe my work, if any, and source of income.

At present, upon investigation, the British would learn that I have no visible means of income, except for perhaps for my Reports and some freelance journalism, but nevertheless receive money regularly from a Swiss bank account.

If I told the Home Office I was a freelance journalist, I imagine they would demand some sort of bank or other financial statements, which could probably be examined by British tax authorities for possible taxation. Even if I say I have no employment of any consequence and maintain myself on income from investments made in Switzerland and elsewhere, I might have to verify that statement and pay some sort of British taxes. Considering the positions of my brothers-in-law, I doubt if either could get away with claiming to fully or partially support my family, although my brother-in-law Gordon Kaye, who is a Chartered Accountant, has been deducting my children's school fees from his taxes by means of an educational trust fund, although he no longer pays anything towards the fees. I could say that I was the beneficiary of a tax-free U.S. fellowship, but ~~this might~~ prove more cumbersome and dangerous than necessary, in the present circumstances.

In any case, I need advice on this matter urgently, as I suspect I may soon have a visit from the Home Office if I do not go to them voluntarily. **CS COPY**

SUBJECT: SUGAR's Involvement with American Radical Organizations

201

1. This memorandum requests your Agency's comments, on a priority basis, relative to improving the operational capabilities of SUGAR, a source of this Agency known to you, whose reporting on ~~expatriate American leftist personalities~~ we are forwarding on a continuing basis.

2. Despite our hopes and his efforts, SUGAR was unable to obtain an invitation to the ~~Tri-Continental Conference~~ recently held in ~~Bernevra~~, which was a ~~target for collection by this Agency~~. It is our belief that SUGAR's reputation of being pro-Chinese was responsible for his exclusion. In discussing this problem with important ~~pro-Chinese communist personalities~~ in Europe recently, the latter suggested that his ability to secure access to such meetings would be considerably enhanced if he could obtain a "grass-roots" base or ~~connection in the United States which he could represent~~. In reporting this suggestion—which strikes us as valid—SUGAR speculated on the possibility that he might attempt to become the ~~European "representative"~~ of the ~~Revolutionary Action Movement (RAM)~~, an American organization of which he knows little but which seems, from what he does know, to be consistent in its outlook with his ostensible political orientation.

3. In this connection, we would very much appreciate receiving any information you possess on ~~RAM~~, its structure, personalities and membership. We would welcome particularly, ~~any mailing list or address roster~~ of this ~~organization~~ which might be passed on to SUGAR without compromise to security considerations.

b. Most of all, we would welcome your comments on this general problem, given your Agency's broad knowledge of such organizations as [REDACTED] in this country. As a negro expatriate with pretended pro-Chicom sympathies, SUGAR has also cultivated a reputation for sympathy toward the admittedly vague and diverse manifestations of "black nationalism", and toward such personalities as Robert Williams who embody it. We would be most interested in receiving both your comments on this general movement of opinion in the United States, and your descriptions of the organizations associated with it which could enable us to provide information and guidance to SUGAR for developing an association which would increase his operational access and effectiveness.

MEMORANDUM FOR: Chief, CI/CA

ATTENTION: Mr. John Brewer

SUBJECT: Field Investigation of GREGORY;
Gregory Clearance (201-306052)

1. Pursuant to our conversation of 11 February in your office, this memorandum requests that the usual field background investigation not be undertaken in the clearance process instituted for GREGORY.
2. We make this request for limitation because of our strong belief that such an investigation would run an unacceptably high risk--approaching certainty--of causing serious damage to GREGORY's reputation and therefore his effectiveness with the targets against which he is directed as an informant. In the past, both here and abroad, GREGORY has made warm enemies, as well as friends, among dissident and leftist circles. He has particularly alienated both U.S. Communist and Trotskyist elements, apparently by his dealings with them while serving as Executive Director of the Fair Play for Cuba Committee in the early 60's. His reputation for pro-Chicoma sympathies--which is the basis of his present operational usefulness to us as a source--constitutes an additional grievance against him by such parties as the CPUSA and the CPGB which are pro-Moscow and anti-Peking. We know from independent sources as well as from his own testimony, that such hostility has taken the form of charges--completely false at the time--that he was an ODESSY or KGB agent. (Apparently a favored smear technique in such circles; this charge has been leveled in other cases with equal lack of justification.) These allegations against GREGORY have not prevented him from winning the apparent confidence of many leftist target elements who, if they are aware of them at all, no doubt realize the prevalence of such backbiting and gossip and who have not been prevented from developing personal and confidential relations with him. Such charges, however, do represent a dormant vulnerability: they have made subject something of a controversial figure in a milieu which rightly feels itself a target for intelligence collection and is extremely sensitive to the dangers of penetration.

SECRET

3. Against the background of this vulnerability, it must also be stressed that the sources to be contacted by such a field investigation would include many individuals whose suspicions of government interest—and hostility toward it—we could not reasonably expect to disarm. QUENBY's career in the United States in PPCC and similar groups put him in contact with a wide range of individuals who are not merely sophisticated but highly sensitive concerning any such inquiry. It is not possible to conceive of any method of approach which would not provoke their suspicions that a government connection with QUENBY was involved. (It is, moreover, hardly likely that cooperation could be expected of any of them, except in such cases where the individual sensed an opportunity to record damaging information.) In view of what we know about the rapid circulation of gossip among such individuals, and their great interest in, and suspicions of government interest, such an inquiry could be calculated with reasonable confidence to spell the end of any effectiveness QUENBY could offer this Agency.

4. While we realize fully that the aim of such an inquiry is to resolve unknowns in an individual's background and develop materials beyond those presently available, we note that QUENBY has been a subject of continuing interest to QUENBY for many years, and that, as a result, the basic politically derogatory associations in his past are a matter of record. As you know, a successful polygraph was performed on him indicating the absence of IC connection beyond such associations, and confirming (to the extent that it can be said to do so) his assertions of loyalty despite them.

5. In requesting clearance in this case, we are seeking to exploit QUENBY's ability to report information to us which he receives in the course of his contacts with national liberation leaders, pro-Chinese communists and similar personalities. Such information represents general political and biographical material relative to the interests, activities and plans of such individuals. Requirements passed to him in this connection involve instructions for the refinement and completeness of the reporting he is capable of providing from his normal intercourse with source personalities. It is anticipated that his usefulness will be increased by travel to those areas where his access to targets known to him permits firsthand reporting. It is also anticipated that he may be able to curve selected CA purposes by surfacing information available to him, when this does not prejudice his cover status.

His use is understood to be, and has been, limited and precludes revelation of classified information, either by operational assignments supporting or servicing other KUBARK operations, witting participation in the recruitment of other agents, or the passing of such requirements as would reveal a classified status of KUBARK knowledge or interest in any collection target.

ALGUNAS OPINIONES SOBRE LA VIDA Y PERSONALIDAD DE:

ROBERT TABER
RICHARD GIBSON
ROBERT WILLIAMS
WILLIAM WORTHY

Robert Tater

(Los datos sobre la vida y currícula de estos señores anteriores a su visita a Cuba deberán encontrarse en otra parte.)

Bob es el mejor del grupo, casi el único que realmente vale. Hombre gran valor personal y un buen periodista, estuvo en la Sierra en 1957 y de nuevo en 1958, donde entrevistó y filmó una película para la CES, de Fidel Castro y sus guerrilleros. Al triunfo de la Revolución, estuvo en Cuba de visita varias veces y fue luego uno de los fundadores del Fair Play Committee For Cuba. Aparentemente, perdió su puesto en CES y se ensañó el azor de su esposa (de esto se quejaba a menudo en Cuba) por causa de la Revolución Cubana. Amigo personal de Raúl Roa y Gómez Vanguemert y también de Fidel Castro, según parecía en 1961. Con relaciones personales con Manuel Piñero (de quien se refiere de sus influencias de policía) y Ramiro Valdés y Raúl Castro, aunque nunca pareció estimarlos mucho. Este sentimiento parecía reciproco. Gran enemistad hacia los miembros del PSP y enemistad de ellos hacia Teber, sobre todo de Aníbal Escalante y Joaquín Ordoqui y Carlos Rafael Rodríguez. Una de las tragedias en la vida de Bob Tater fue el darse cuenta de que se había malquistado con Fidel Castro por hacerle, personalmente y cada vez que lo veía, críticas periodísticas. Fue entonces (a fines de 1960 y principios de 1961) que comenzaron verdaderamente sus problemas y que comprendió que no solamente había perdido el favor de sus amigos, sino que estaba en desgracia con sus enemigos. Fue esto, sin duda, lo que le hizo lucrar la muerte en Playa Girón, mientras actuaba como corresponsal del periódico Revolución. Fue gravemente herido en un misil y salvó la vida por pura suerte. Antes había renunciado a su pasaporte o había sostenido una polémica pública con periodistas o senadores norteamericanos, desde las páginas de *"El Mundo"*, donde colaboraba. En Cuba por poco muere también, poco después, de una infección neumática contraída en Guatemala, en los días de la revolución contra Arbenz. A fines de 1961 salió de Cuba con un documento (ni siquiera pudieron darle un pasaporte cubano, el Ministerio de Relaciones Exteriores ya en manos totalmente de los comunistas) personal de identidad, tratando de ir a China como corresponsal, pero en Praga le negaron el permiso para visitar este país y la URSS. Fue a Francia y luego a Londres —y de ahí regresó a USA vía Canadá.

Teber no es un comunista ni parece haberlo sido nunca. Es un romántico político y un hombre ingenuo, que creyó que la "evolución cubana" de alguna manera, encarnaba algo de los ideales de Jefferson y Lincoln, asombrosamente. Hoy sabe que nada hay que esperar del comunismo en general y de la Revolución Cubana en particular.

2. Robert Tater (continúa)

En la actualidad mantiene lazos de amistad en Cuba con Carlos Franqui, Juan Arcocha y Gómez Wanguemert, ya que una de las características de Robert Tater es su sentido del agradecimiento. Es uno de los hombres que mejor conocen^{en USA} la Revolución Cubana, sus motivaciones, sus verdaderas intenciones, sus intenciones enmascaradas, sus logros reales y falsos y sus verdaderos fracos. Políticamente, por sus críticas, parece ser alguien que regresa a un socialismo ingenuo y primitivo, a lo Owen y Proudhon y aborrece el cinismo comunista de que el fin justifica los medios.

En Cuba, en 1961, realizó un acto de gran coraje intelectual, poco después del coraje físico en Playa Girón, al ser el único periodista (siendo extranjero, además) que defendió el film "P.M.", que prohibieron Alfredo Caamaño y el ICAIC y que originó la gran primera purga de intelectuales de izquierda y fueran el pretexto para las llamadas Conversaciones de la Biblioteca Nacional y el famoso discurso de Fidel Castro a los intelectuales, tan citado dondequieras. El artículo de Tater fue aceptado por la dirección del periódico El Mundo, pero no fue publicado— aunque Fidel Castro conociera su contenido al ser leído públicamente en una de las sesiones de la Biblioteca. Este gesto apresuró su salida de Cuba y selló su aorte político.

Richard Gibson

Ultimamente residía en París con su esposa francesa. Era director de la edición en Inglés del mensuario "Revolution", publicado en Lausana por Jacques Yergès, antiguo director de "Revolution Africaine", argelino de madre china y amigo de en Bell, con quien disputó al protárselle que recibía dinero de China Comunista para expresar los puntos de vistas chinos en el periódico argelino. "Revolution" era o es (ignoro si se publica todavía) financiado por China Roja. Gibson salió de su puesto en estas publicaciones, el sospechoso de ser un agente infiltrado de la CIA. En 1964 estuvo en Bruselas, ofreciendo una conferencia en la ULB (Universidad Libre), con motivo de una Exposición Latinoamericana, auspiciada por la fracción pro-china de la Federación Comunista de Estudiantes de Bélgica (Federación de Bruselas) y pagada por el grupo de disidentes del PCB, Grippo, Rein-dorf, etc. Esa noche habló sobre la Revolución cubana y su visita a Cuba y en la presidencia del acto estaba el propio Jacques Grippo.

Richard Gibson estuvo en Cuba en 1960, invitado especialmente por el periódico Revolución y por el magazine Lunes de Revolución. Era entonces presidente del Fair Play for Cuba Committee. Fue invitado a sugerencias de Bob Taber por Patricio Armando Fernández, que viajó a Nueva York para invitar a un grupo de intelectuales negros norteamericanos a los festejos del 26 de julio de 1960. Junto con Richard Gibson viajaron a Cuba Robert Williams, Leroy Jones, Julian Mayfield, su esposa y un nutrido grupo de escritores y poetas negras. Fue entonces que Williams conoció a Cuba. La presencia de Gibson fue mal recibida por el PSP y los núcleos intelectuales y políticos que en Cuba giraban en la órbita del Partido Comunista Cubano, ya que Gibson era acusado por el PC de USA de dejar fuera del Comité Pro Justo Tratado a Cuba a prominentes figuras comunistas norteamericanas, mientras daba cabida en el mismo a trotskyistas y gente de la Nueva Izquierda. Williams, por su parte, era considerado un agitador casi anarquista, por estos mismos círculos comunistas cubano-americanos.

Richard Gibson es hombre de un carácter turbio. Un buen periodista y no mal escritor, pero una persona más bien desagradable, dentro de un complejo no solamente político, sino también psicológico, alimentados por su problema racial. Es un intelectual fracasado y hombre poco franco, de una comunicabilidad torvada. La policía francesa le consideraba un agente al servicio de una potencia extranjera--China Roja.

Robert Williams

Robert Williams es considerado en Cuba como una calamidad que hay que soportar--el menor daño es la opinión que se tiene de él en los círculos políticos y revolucionarios y oficiales. Conversé con él, brevemente, en La Habana, en agosto de 1965. Es hombre con quien no se puede hablar mucho, no solamente por su complicado escrito del Deep South, sino también por su inexperiencia mental y verbal. Suelte siempre acompañado siempre de un traductor, por lo general un negro calmo. Su perdido traductor fue Carlos Moore, que hoy reside en París y que provocó una aguda polémica en los círculos cubanos y amigos de Cuba en Francia, al publicar en el periódico "Solidarité Africaine" un artículo que tomaba las tesis del intelectual negro cubano, Walterio Carbonell, sobre la pretendida discriminación racial que existe en los medios políticos y dirigentes cubanos. Este asunto tuvo repercusiones en Cuba y no solo trajo problemas al verdadero autor del artículo (Walterio Carbonell, hoy expulsado de la Unión de Escritores de Cuba), sino al propio Williams, quien más de una vez había expresado tal opinión en público y en privado. Las desventuras de Williams no comenzaron aquí, sino cuando inició en su línea china revolucionaria mucho tiempo después que todos los medios políticos, oficiales, intelectuales y dirigentes de Cuba se habían re-orientado hacia Rusia. Williams complicó su situación con un viaje a China Roja y viviendo en Cuba se encuentra casi aislado y ya no suele ver a Fidel Castro, a Dorticos y a los otros dirigentes revolucionarios; con la facilidad con que solía hacerlo antes. Todavía conserva muchos de sus privilegios (el traductor personal, la casa, la comida, la educación de sus hijos y, creo, que la hora radial anti-americana), pero solamente porque su caso es muy conocido fuera de Cuba y en el Sur llegó a tener una cierta audiencia después de su fuga de Estados Unidos a Cuba y de haber dispuesto de un potente emisor (Radio Habana Cuba) para sus confusos mensajes de odio racial.

No me extrañaría que Robert Williams fuese declarado insano por un grupo de psiquiatras competentes. En Cuba, la gente de la calle, lo tiene por tal. Ahora, en la Conferencia Tricontinental, está siendo acusado su inestabilidad psíquica a la teoría de la revolución permanente --o a la lucha de la liberación de los pueblos de color.

William Worthy

Es el menos conocido de los cuatro y quizás el más peligroso, porque es el más estable emocionalmente, el más mediocre y más trabajador del grupo. Fue a Cuba en 1961, recomendado por Richard Gibson y el Fair Play Committee, pero también por su cuenta. Se hospedó en el Havana Riviera, no sin dificultades, pues sus puntos de vista, inadmisibles por los comunistas cubanos, fieles servidores de Korda, le trajeron el odio del PSP y una —ligera acusación— de posible agente del FBI infiltrado en el Movimiento Negro y en Cuba. Hable poco con él y solamente recuerdo su extraño aspecto, tal vez de Chicago o simplemente algún defecto anatómico, su aspecto de metodista negro y los shorts de cuero de alpinista italiano que siempre usaba en el hotel. Luego se hizo famoso en Cuba y en Europa, cuando fue procesado por haber ido a Cuba y a China Comunista sin permiso válido. Worthy no es un fanático ni un comunista ni un oportunista, pero parecía en camino de convertirse en un abanderado de cualquier causa que le fuera affín. Entonces me pareció que esta causa sería el Movimiento Por Avance de la Gente de Color. Hoy podría ser la Revolución Negra o Latinoamericana —o, simplemente, mundial.

1. We have discussed the substance of the question raised in Ref B through the regular Headquarters channel with the QDENNY Rep here who has acted as a point of liaison for QREBONY material in the past. We passed on, also, the materials which you prepared for the QDENNY representative with whom you are in contact in Paris. We raised specifically the question of passing QREBONY's identity to the Paris QDENNY representative, which you mentioned in Ref B, stating that, so far as KUWOLF is concerned, we had no objections. The QDENNY representative here, however, thought that this might serve to confuse somewhat the lines of coordination for QREBONY's information, for which QDENNY headquarters has sole responsibility. He therefore felt that we should continue the present arrangement by which, in effect, QREBONY's identity is held here at the point where his material within QDENNY originates. He appreciated, however, your initiative in filling in the Paris QDENNY representative on the targets which QREBONY can service, thus alerting him to possible leads he might look into. He suggests also that we be kept aware of your liaison with QDENNY in the field to guard against false confirmation or other possible duplication which could lead to confusion here in those quarters of QDENNY responsible for processing the QREBONY material.

2. With respect to Freedomways, discussed in Ref A, and Q's possible relationship with it, we will report separately.

(CBS Fellowship, 1960-61)

First entered journalism in 1950 as reporter-clerk for Philadelphia Afro-American, a Negro weekly.

In 1951-52, while attending the University of Rome, I worked as legman for Edmund Stevens, then chief of the Mediterranean News Bureau of the Christian Science Monitor of Boston. I also did parttime work -- English-language public relations -- for Italian Films Export, a semi-governmental Italian agency for the export of Italian films to English-speaking countries.

1953-54: drafted into U.S. Army. Served as non-com in Trieste, West Germany and U.S.A.

1955-56: English-language editor, Agence France-Presse, the French national news agency in Paris. Also wrote for the Agence Intercontinentale, AFP's feature service.

1959-61: newswritten for Columbia Broadcasting System for radio and television in New York. Fired from this job because of my activities in founding the Fair Play for Cuba Committee in the U.S.A. to support the Cuban Revolution.

1961-62: Secretary-treasurer of the Institute for the Improvement of Inter-American Relations, Inc., chartered as an "educational foundation" under the laws of the State of New York. The Fair Play for Cuba Committee was a permanent committee of the Institute. As the chief paid officer of the organization, I directed a public relations campaign aimed at countering U.S. propaganda against Cuba. I published books, newsletters and placed advertising on behalf of Cuba in the U.S. press.

1962-64: English-language editor of the international review Revolution. Was one of the founding editors of Revolution Africaine in Algiers and was later sent to Switzerland to edit a monthly in English. Directed all aspects of the editing, publishing and distribution of the magazine.

1965- : Publisher of Richard Gibson Reports, a regular news and features service, mainly for Afro-American newspapers.

1. Forwarded herewith is a Memorandum for the record concerning Paris/LCPIPIIT's investigation of the security of QMBOMY/1's S/V communications systems following an episode involving an 11 October 1965 message received from him by LCPIPIIT.

2. We request Headquarters' guidance concerning this situation, with special reference to Paragraph 3 of the attached Memorandum, in order that we may take all appropriate steps to resolve the problem of maintaining secure communications with QMBOMY/1, especially in view of the plans to send QMBOMY/1 on an extended visit to Cuba commencing sometime in mid-December 1965.

MEMORANDUM FOR: The Record
FROM : Harvey G. FAHNREICH
SUBJECT : Security of QREBONY/1 S/W Communications System
REFERENCES : A. OFLA 3044
B. PALP 4385
C. FRAN 5087

1. In early June of this year KIWOLF developmental agent QREBONY/1 (formerly STEBONY/1) was trained by KIWOLF Career Agent Rufus F. RODIGAST in the use of the S/W system prescribed by METOPAZ per Reference C. QREBONY/1 took one carbon sheet of the system with him on a brief trip to North Africa and used it for four messages in the latter part of June. Concurrently, Paris Station TECHS, on LCPIPIIT's behalf, requested in OFPT 10348 that METOPAZ prepare for QREBONY/1's use an S/W carbon pad which would alleviate the carbon concealment problem for the agent. The pad was received subsequently and passed to QREBONY/1 on 18 July 1965, at which time his original single carbon sheet was withdrawn.
2. QREBONY/1 first used his new S/W pad for a message dated 22 July 1965, comments on which were transmitted to interested KUBARK Headquarters and Field components in Reference B. QREBONY/1 underwent a corrective briefing on the use of his pad on 4 August 1965, carbon No. 1 (rearmost of three in the back of his pad) was withdrawn since it bore an imprint of the 22 July message, and QREBONY/1 was authorized to use carbon No. 2 (middle of three) but only for "essential" messages. (a 24 July S/W message was also critiqued at the 4 August meeting--because the carbon impression was relatively weak.)
3. On the basis of LCPIPIIT's instruction to refrain from using his S/W pad except for "essential" messages, QREBONY/1 did not employ it again until 11 October 1965. The nature of the message indeed met the criteria for use of the pad, but as in the 22 July letter the message was clearly legible without development. To quote Paris Station TECHS:

"SW impressions were clearly visible under Ultraviolet Light (short wave and long wave) and also under a plain desk light."

On the basis of this report, QREBONY/1's previous performance in use of the pad, and the fact that the next point from which he was to use the pad would be Algiers, LCPIPIIT determined that the risk of compromise outweighed the necessity of QREBONY/1 carrying this communications system with him and withdrew the S/W pad on 20 October 1965. LCPIPIIT retains possession of

the pad which contains the two remaining carbon sheets (No. 2 detached and inserted in the back of the pad, No. 3 still bound in the pad.) The 11 October message is clearly legible to the naked eye on carbon No. 2.

4. Of greater concern to LCPIPIIT, however, were the following additional comments of Paris Station TECHS regarding the 11 October message:

"The envelope you sent has evidence of tampering. There was glue bleeding plus fiber tears. Plus, additional glue had been added to the upper flap (glue must have run and was sticking inside on the letter.)"

5. In the 20 October meeting at which his S/W pad was withdrawn QREBONY/1 stated that he had written the 11 October message on a sheet of glass, perhaps with a pencil that was too soft. He conceded that there was some imprint on the carbon, but nothing which could be read on the actual message sheet. He said he wrote the message at 1100 hours when he was alone at his home and burned the remainder of the message stack immediately. He said he then put the message in an envelope immediately and sealed it gently under another sheet of paper to avoid rubbing it. He added that he then placed the proper postage on the envelope, placed it in his pocket, and mailed it two hours later at the closest mailbox to his home. QREBONY/1 asserted that he did not reopen the letter after sealing and was certain that his wife had not seen it.

6. Pursuant to LCPIPIIT's exploration of this question with QREBONY/1 we sent an informal note to MKTOPAZ via a Paris Station Officer on 20 October 1965 requesting assistance in efforts to determine whether QREBONY/1's correspondence was indeed subject to tampering. MKTOPAZ prepared five "booby-trapped" envelopes for our use. Two of these were mailed to the LCPIPIIT letter drop from two different cities on the continent, and the remaining three were passed to QREBONY/1 on 5 November for him to mail from his home.

7. The five "booby-trapped" envelopes were picked up at the LCPIPIIT letter drop over a period of a week and were handcarried by a Paris Station Officer to Frankfurt on 18 November for processing by MKTOPAZ. Paris/LCPIPIIT asked the opinion of MKTOPAZ on the following points:

- Was there evidence of tampering with any of the five envelopes?
- If so, which envelopes bore evidence of tampering?
- Was it possible to determine from a study of the cachets whether such tampering occurred before or after the cachets were applied?
- Did such tampering appear to be of a professional or of an amateur nature?
- Any other MKTOPAZ observations which would help LCPIPIIT determine the source of any tampering that may have taken place.

8. MKTOPAZ advised LCPIPIIT on 19 November via FRAN 9240 that there was No evidence of tampering on the five booby-trapped letters."

Report Q REBONY/I: Security Aspects

OFLA-3146/1
30 Nov. 1965

In reply to the attached (Memo on Home Situation) Rodigast told QREBONY/I:

1. We can't do anything about his housing problem in view of non-permanent nature of our present arrangement.
2. Avoid formalizing periodical at this point; it should require no authorizations for publication as it is merely a news correspondent's report, mimeographed for convenience—not a magazine.
3. In order to control content, Q alone should have responsibility for putting out issues—can't delegate to wife and above all to other contacts.

HONG SITENILLE

My wife was rather hostile to my news about my contacts with the Chinese comrades. She said she was sorry I couldn't work something out with Metropolitan Features. I hadn't done enough work for them because I was lazy, she said. She said if I weren't careful I'd be treated by the Chinese just like Hilts. What future was there in that? she asked. Anyway, she added, I can't really give a damn about the Chinese.

* b/w only/1

She pointed out the situation was difficult for us. The landlord in London was trying to evict us and we had no idea where we were going. I had no substantial funds from the Chinese and was still living on the generosity of the Americans (Metropolitan), she said.

Moreover, she was tired of being a grass widow. I was keeping secrets from her, she had been certain for sometime, she said. She had had enough trouble with my "secrets" in the past, she said.

However, she liked the idea of Metropolitan, but was sorry about the "objectivity" and the 50 copies only limit. There was no reason, if I could get some help from the Chinese, that I couldn't make a success of the newsletter and really be independent, she said.

I emphasized to her that I had contacted with the Chinese without Hilts' knowledge and that she should on no account ever mention the matter with him. She said that knew how the Chinese treated people. nobody was more honest than Hilts, she added. What was happening to him now would happen to me one day, she said.

However, she was genuinely pleased with the newsletter and spent some time trying to collect material for the dummy I was preparing. She wrote X herself a piece on M.A.R.S. (I have the feeling that a lot of her resentment would be dissipated if she would allowed to handle most of the business involved with the newsletter.)

The housing problem remains a serious one and we may have to move. A temporary furnished flat in London would cost us at least £25 to £30 a week today — at present, we pay £12-12-0 per week. We have given the case to a lawyer, but, because it is a furnished flat, we will probably have to get out sometime soon.

The other important question to be settled is that of a mailing address for the Report. Should I get a London mail drop and run the risks of running into the Home Office or should I get a lawyer and set the thing up legally, perhaps under my wife's (British subject) name? In that case, I could take a one-room office somewhere around Fleet St. and my wife could take care of the mail with an occasional office temporary during my absence.

I suggest that the report always be mailed out from the same address, London or wherever. My wife will be able to get sufficient copy from various people, such as Pomeroy and Jeanne Pynor [30-year old freelance journalist who specializes in African affairs, now married to a Kenya parasitologist studying in London, formerly worked for Dennis Phoebeah]. For my purposes, if I can obtain press rates, I can wire copy to London ~~is~~ from Havana or War es Salaam, thus giving tangible evidence of my activities as a bona fide newsmen. It would be helpful if I could get an American Cable & Radio System Credit (Transferred Account) Card, such as I got from Revolution in Havana for use at the U.N. in 1951.

Subject: QREBONY/1 - Security at home

1. At his 17 November meeting with Rodigast QREBONY/1 (Q) was asked some questions concerning keep of files and correspondence. He keeps copies of all correspondence (except routine letters transmitting articles he has written, for example) in a file to which his wife has access. He maintains a minimum of questionable notes, and keeps his personal notebook (with addresses, expenses, etc.) in his coat pocket day and night.

2. His wife has two brothers. The one to whom Q owes money is Gordon, a chartered accountant, who during World War II was in British Military Intelligence. He visits the Q home to bring gifts from the wife's mother to the Q children, but has a cat-and-dog relationship with Q's wife; indeed, he will not stay for a meal because he can't stand talking to her, and the feeling is mutual. Q is certain she would never think of confiding in Gordon, for example to say: "Look at these awful letters Q has written!" Gordon is more likely to confide in Q himself. Gordon's politics are apparently solidly conservative. (His wife's other brother, less involved with them, works for Rank.)

3. Q mailed the three test letters as follows: one in the morning, the two following on successive afternoons, at the local box in the normal way. One of the three envelopes actually contained a note: a simple statement that "William" (Guillermo) had not defected but his brother had (Cabrera Infante), information acquired from a Cuban official (see separate contact reports).

4. Q wanted to get a lawyer's opinion on what regulations govern publishing a periodical in his country of residence (he is not of course officially a resident at all). Sensing additional costs and unnecessary formality, Rodigast suggested that he keep it on the basis of being a correspondent's reports, not a separate commercial press venture requiring eventual licenses or payment of business taxes, at least for the time being. Mailed first class, the material should require no permit from the mail authorities. A contact had suggested he might have difficulty with the locals (see report of Q's 15 November contact with WP).

QEBQNY 20 October 1965 Contact with LCPIPIT

1. Forwarded herewith as Attachment A is Career Agent Rufus P. RODIGAST's Contact Report of his 20 October 1965 meeting with QEBQNY/1.

2. Forwarded as Attachment B (USC) is the identity list for RODIGAST's Contact Report.

3. Forwarded herewith as Attachment C is the "Progress Report" submitted by QEBQNY/1 to RODIGAST at the 20 October meeting. A careful review of the report's content did not justify KUTURE dissemination of any of the material therein.

4. Copies of recent correspondence addressed to and sent by QEBQNY/1 will be forwarded by nonaccountable manifest as appropriate.

5. Paragraph 5 of Attachment A refers to a security flap which has arisen in QEBQNY/1's use of his S/W system. In a letter to LCPIPIT dated and postmarked 11 October and picked up by LCPIPIT 14 October, QEBQNY/1 had prepared an S/W message. LCPIPIT received the following report from TECHS in Paris concerning this letter: "The envelope you sent has evidence of tampering. There was glue bleeding plus fiber tears, plus additional glue had been added to the upper flap (glue must have run and was sticking inside on the letter). S/W impressions were clearly visible under ultraviolet light (short wave and long wave) and also under a plain desk light."

6. Because of QUESONY/1's repeated carelessness in use of his
A/V system and the obvious risk inherent in his seeking to use this system
from Algeria, MEFITI will advise the Director at the 30 October
meeting. His carbon sheet carried deep impressions that were easily
readable by the naked eye. Also, we have, in cooperation with KUSCOA/
Paris, taken urgent action on an informal basis (to be followed up by
dispatch) to have METOPAL prepare a set of envelopes in order that we
may run a series of tests on the possibility, as well as the source, of
tampering with QUESONY/1's correspondence to us. A full report on this
matter, including its resolution, will be forwarded appropriate addresses
as soon as the investigation can be completed.

1. The following is the text of a JAGUAR report on STEBONY/1 and Marc SCHLEIFER. JAGUAR states that the information was received from a "most secret and delicate source which has been found reliable on previous occasions."

"STEBONY/1 was in contact with Marc SCHLEIFER while the latter was staying in London with his family, en route for Algeria. SCHLEIFER had planned to leave London for Algiers via Paris on the 2nd June, but he deferred his departure in order to meet STEBONY/1. It seems that SCHLEIFER wanted, if possible, to visit Tanzania also. STEBONY/1 apparently was prepared to help SCHLEIFER and his family to find accommodation while they were in London because they had little money. He is also reported to have said that there was a possibility of his co-operating with SCHLEIFER in Africa.

"According to our source, SCHLEIFER, while in London, arranged to contact the Tanzanian Mission, in connection with a job in Dar-es-Salaam which might be taken by either SCHLEIFER or STEBONY/1."

2. Ref A contains previous JAGUAR comments about STEBONY/1 and SCHLEIFER, of about the same period. While TIFFANY was in London (which puts it at the right time) STEBONY/1 was in touch with SCHLEIFER, and TIFFANY should be able to compare JAGUAR's comments with what STEBONY/1 said at the time. Ref B reflects a different contact between the two, from a different source.

MEMORANDUM OF ORAL COMMITMENTS

1 September 1965

TO: Director, DIANE
VIA: Contract Approving Officer
FROM: Chief of Station, Paris/LCPIPIT
SUBJECT: Engagement of STEBONY/1, as Independent Contractor

1. Term and Project Charge. The subject individual has been engaged under oral contract as a developmental agent for an as yet unwritten Project involving KUWOLF and KUDESK and coordinated through QRFREY. Subject's salary and expenses are to be charged against the BULINABLE Field Allotment per DIR 36066. The effective date of the oral contract is 1 September 1965, and it shall continue thereafter on a month-to-month basis subject to termination by, and at the convenience of, ODYONE without prior notice.

2. Security Approval. Per CSI 10-5, STEBONY/1 does not require a POA (cf: DIR 15660), and CA not being requested pending establishment definite STEBONY Project (cf: DIR 36066). LCPIPIT advised 2 June 1965 STEBONY/1 granted clearance for LCFLUTTER (cf: DIR 15660).

3. Citizenship. The subject is not a foreign national.

4. Compensation. The subject will be paid \$600.00 per month. The subject will be advised that he must file a covert income tax return through KUBARK.

5. Operational Expenses.

(A) The subject will be reimbursed for operational travel, except as noted in para. 8 below.

(B) The subject will be reimbursed for operational expenses, except as noted in para. 8 below.

6. Other Commitments. The following additional commitments have been made to the subject: "Since security conditions generally preclude the detailed accounting of miscellaneous travel expenses, per diem will be paid at the rate of \$20.00 during periods of authorized travel." Per Personal Ruling of Chief of Station, Paris/LCPIPIT dated 12 July 1965: "If subject is absent from his home station on authorized travel for part of one day

and returns to his home station the night of that same day (i.e., if no hotel expense is involved in the sense of overnight accommodations), then he shall be entitled to draw 1/2 of his authorized per diem of \$20.00 (i.e., \$10.00). Per diem under the above terms will be paid except as noted in para. 8 below.

7. Contingent Obligations. No additional commitments have been made to the subject under this oral contract. However, in the original Letter of Agreement signed by subject 3 June 1963 and which expired on 31 August 1963, paragraph 4 stipulated: "COYOTE will compensate you in an amount mutually agreed upon for the relocation of you and your family to a new residence if such a relocation is considered desirable by you and COYOTE." Under the circumstances COYOTE may have to supplement such funds as subject may receive for relocation from a target organization, institution, or government in order to defray such relocation expenses as subject may personally incur.

8. No commitments other than those stated above have been made to the subject. Moreover, in cases where travel and/or operational expenses and/or per diem are provided or furnished in money or in kind from other than COYOTE sources, COYOTE will offset such funds, goods, or services against the obligations assumed in the above oral commitments.

9. The substance of paras. 1, 4, 5, 6, and 8 (except as noted in the second sentence of para. 4) have been communicated to, and accepted by, the subject.

- OFL-12 and OFL-13 were passed to the appropriate Headquarters desk for the evaluation requested in reference.
- The results of the evaluations were that the reports based on STEBONY/1's elicitation contained "nothing more than chit-chat and opinion" with no new information that could be disseminated. As indicated in the last sentence of reference this result was not unanticipated by LCPIPIIT.
- In view of STEBONY/1's reportorial capabilities however, we hope that his continued efforts to elicit and report timely information will be vigorously maintained.

1. JAGUAR, in acknowledging receipt of the processed STEBONY/1 material that we forwarded to them, have also asked for "further information about Francois MASPERO and Professor Nguyen KIEN. We should be most grateful for any further identifying particulars for both MASPERO and KIEN and with regard to the latter, we should particularly like to know his present position in connection with 'Africa, Asia, Latin America Revolution' and whether he still holds a teaching appointment in France."

2. JAGUAR's note was shown to RODIGAST in London on 12 August, just before RODIGAST met with STEBONY/1. LCPPIPIT please provide anything that can be had for passage to JAGUAR.

3. As should be fairly apparent, I think, from reading the material we passed to JAGUAR, plus the fact that there has been no "Revolution" for lo! these many months, the status of anyone connected with the magazine is about as uncertain as the status of the magazine itself. Nonetheless, we will be happy to let JAGUAR know as much as we can.

1. HAIRN, a sensitive SMOOT operation, provides the following report relating to STEBONY/1 (date of info, 26 July 1965):

"STEBONY/1 (previously in touch with Pablo FERNANDEZ while in London, en route with family to Algiers for the international conference postponed when Ben BELLA was overthrown) calls Pablo FERNANDEZ, tells him he (S/1) is just back from North Africa if the conference is held in November. Says he has been unable to get any news of (Marc) SCHLEIFFER, and asks whether Pablo has heard of him. Pablo says he had a letter, brought by hand from SCHLEIFFER in Algeria, saying he (SCHLEIFFER) was going the next week to Cairo, and would write to Pablo from there. He has not yet written. S/1 says they had hunted for him high and low in Algiers - he disappeared completely from the conference scene, and they thought that perhaps he had got mixed up in the (troubles between the new regime and Ben BELLA's faction). Pablo assures S/1 that SCHLEIFFER is all right. He knows this from a negro journalist, on "the Guardian" in the U.S.A. and coming from Pennsylvania, who covered the Algiers conference preparations. The journalist's name is, Larry HENRY or something similar. Pablo and S/1 agree to meet to-morrow (27th July), S/1 will call Pablo then to fix time and place. At 10.35 S/1 calls FERNANDEZ, arranges to call for him at the Embassy at 13.30 hours for them to lunch together."

RESULTS OF INVESTIGATION

Professor JOHN K. GALBRAITH, Economics Department, Harvard University, Cambridge, Massachusetts, presently vacationing at his summer residence, Newfane, Vermont, advised on July 12, 1957, that applicant has been his secretary and general assistant at Harvard University for the past four years. Professor GALBRAITH said he highly recommends the applicant as to character, reputation and loyalty. He further stated the applicant is a first-rate person, very superior, intelligent, and well qualified for the position she seeks. Professor GALBRAITH stated he is aware of the position the applicant seeks in view of the fact that he recommended her for this position.

Professor GALBRAITH was investigated in 1950 as "JOHN KENNETH GALBRAITH, also known as J. KENNETH GALBRAITH, KENNETH GALBRAITH, Consultant-Appointee, Commodities Division, Office of the Director, Office of Industry and Commerce, United States Department of Commerce, Washington, D.C., - LOYALTY OF GOVERNMENT EMPLOYEES" under the provisions of Executive Order 9835. On March 2, 1951, the Civil Service Commission advised that JOHN KENNETH GALBRAITH resigned or otherwise separated from Federal service, prior to decision on loyalty.

REF. CFS-2741, 22 June 1965

1. Subject to Brussels Station views, Headquarters believes that STEBOINY's proposal in Reference is a good one and very consistent with our interests that he develop his access and acceptability within the circles of which Ref Iden A is a significant figure. We realize that the picture is a complicated one, and that Iden A of Ref may or may not yet prove to have the staying power of the successful political figure. At the same time, it does seem that he is the most outstanding leader of the anti-revisionists today, and as such merits our attention.

2. With regard to Reference para 4's concern about possible damage to our national interest by publication of the book in English, we tend to side with STEBOINY in feeling that the support which such a publication might render to our enemies could not really be detected by the naked eye. Similarly, while agreeing with the sentiment that would critically scrutinize all proposals by new assets, we note that STEBOINY is, indeed, supposed to be seeking to regain status among his former associates, and that Ref proposal does not, to our view, contain any hint which would suggest that in following out this line of action at our direction, he is motivated by any ulterior or concealed aim different from that which led us to impose the commission in the first place.

3. We are attempting to get a rough translation done on a priority basis. STEBOINY, of course, should understand that such a translation will be unfinished, and should be carefully reviewed for the proper "feel," to rule out usage or interpretation which STEBOINY, with his background, would never have inferred from the French text. Nonetheless, as the document has come to hand only on 2 July, and given the holiday weekend, the limitation on the number of translators available, the existence of other translation assignments, and, finally, the pouch transit time back to Rome, we regret that it will not be possible to get this product to RODICAST for his 15 July meeting.

Dear [redacted]
Keddenbach,

TO: Chief, ~~NDPS~~
FROM: Chief of Station, London
Attachment to OELA-43,589
13 July 1965

I'm pleased you have received at least one of my letters, but I still wonder if you got a large envelope containing three letters which had been held and returned all at once. As one of the letters was rather detailed and dealt with matters of some importance, I'm rather disconcerted -- to say the least -- ~~think~~ to think that it may not have found its way to you. The envelope measured 6 by 5 inches and was light tan in color. A confirmation of its receipt would be appreciated.

Of course, I understood about the service, the newsletter, not being a definite thing. In any case, I am not looking for a sinecure, but for a good, deep cover and that seemed to be one. It also gave me something to offer contacts ~~would~~ and would have strengthened my position considerably. At present, my cover is as light as the Emperor's new clothes.

Still no positive reply from any publication in the States, and the general silence from my American "friends" is not very encouraging. Here, the situation is much better, and if I can get to Algiers in good time, after visiting Grippa and Andersson and seeing some contacts in Paris, my position will be better, but I still see myself representing the West Indian Gazette or Cinnamon and/or the Institute of Race Relations. Mrs. Sheila Patterson, their editor, even suggested that I do a short paperback book for them, gathering together the conference documents with an analysis. All of this is better than nothing, but it definitely isn't much.

On the other hand, for the future, Noureddine Medjdoub, who has been Tunisian cultural attaché here, is returning to Tunis to take over the editorship of the Socialist Destour Party paper, L'Action. He has suggested that I write some features for him, after the Afro-Asian Conference in Algiers and that I try to get to Tunis to discuss future projects with him while I am in North Africa. You well know what many Africans and Arabs think of Tunisia at present, so there may not be much that we can do with this arrangement.

This afternoon, I saw Dennis Phombeah at the Tanganyikan High Commission. Until three months ago, he was at the U.N. He claims that Vergès came to London last December and saw Babu about me and other matters, but that Babu was not convinced. He says he did not know that I was in London until recently -- this was our first meeting since the spring of 1964. Now, he proposes that he try to get the editorship of The Nationalist, the TANU paper in Dar es Salaam, for me. We will discuss the matter again at lunch next Monday. It would be a fixed post in Dar and I can't yet fully fathom why he is willing to suggest me for the job. He claims he has not been in touch with Vergès.

SUBJECT C DIOCRIC/Operational SHERRY/SHERRY/Request for Background Materials		
ACTION REQUESTED 4/14/65		

Action requested: Paragraph 3.

1. Career Agent Rufus F. RODIGAST has been briefed by Paris/LCPIPIT on an ad hoc basis to date regarding information on the Afro-Asian national liberation movement of operational interest to his handling and guidance of SHERRY/1. As the SHERRY operation progresses, however, it is LCPIPIT's intention that those handling SHERRY/1 become more knowledgeable on the subject of the national liberation movement than SHERRY/1, himself, as a means to ensure the best possible operational guidance to the agent and to provide another element of agent control--superior knowledge.

2. LCPIPIT's limited files include two basic documents: Attachment to OPIN 630, and Book Dispatch No. 4463. We also have selected disseminations and reports on Chinese Communist activities in Africa. What would be most useful, however, would be a collection of reports and analyses, whether overt or covert, discussing the following topics: a) Jacques GRIPPA and the pre-Chinese European Communist factions; b) the Afro-Asian Journalists Association (the Headquarters TRANSAK c/o has had a file on this organization's founding); c) the individual national liberation movements and their leaders; d) operations of the national liberation movements, individually and collectively, out of such centers as Algiers (at least up to 19 June 1965). **Dar es Salaam, Accra, Cairo, Djakarta, Havana, etc.; e)** national liberation movement relations with, and operations out of, the Bloc, both Moscow and Peking oriented; f) support and guidance of the national liberation movement by non-Bloc communist parties and selected fronts.

3. We recognize that much of the information on the above mentioned topics may not yet be collated, if indeed it is available; however, we should appreciate receiving from Headquarters such materials as you feel would best meet LCPIPIT's operational needs in working with SHERRY/1. Of special value would be a bibliography of overt writing on the subject, greatly alleviating the security problem and mere logistics of bringing RODIGAST and a large volume of classified reading together, in a secure environment, over an extended period.

2. The following further information has been received from a secret and reliable source:

- i) GIBSON was to leave London on the 8th June en route to Algiers via Brussels, Lausanne and Paris, and he expects to arrive in Algiers about the 20th June.
- ii) GIBSON has said that he will be in Algiers in his capacity as a journalist and that while there he may be contacted through Georges ARNOUD at the Directorate of Information or through an American, Marc SCHLEIFER, who is the representative in Algiers of the 2nd of May Movement. He has also said that he is anxious to meet some responsible members of the Afro-Asian Journalists' Association Secretariat in order to clear his name of the charges brought against him by VERGES.
- iii) As a journalist GIBSON is hoping to be allowed to attend the Second Afro-Asian Journalists' Association Conference and he has made enquiries as to when it will be held.
- iv) In commenting on an invitation which has been extended to Hodee EDWARDS to visit North Korea, possibly via Indonesia, GIBSON has said that he would very much like to visit Indonesia but that there is little chance of his doing so as the West Indian newspapers by which he might be employed would be unlikely to pay the cost of his fare.

At their 15 March meeting, GREBONY/1 and RODIGAST discussed GREBONY/1's running his own pro-Chicom group, at least as a paper organization to allow him to get close to target conferences and institutions as a bona fide delegate rather than bystander. GREBONY/1 feels that if not done right this could cause trouble, because of usual organizational rivalries. He is thinking of beginning by writing and circulating a statement in support of the statement on "Afro-American Liberation" which appeared in the 6 December Ad Hoc Bulletin (Marxist-Leninist) in Chicago. He would use a pseudonym to sign his statement, but would let all his friends know that the pseudonym was really himself, and he might use Manchanda's address. Perhaps Grippa would agree to circulate or print it. If this statement goes over, GREBONY/1 could escalate into a small organization. He will show RODIGAST a draft of his statement, but also will discuss it with Manchanda for "ideological purity".

ACTION REQUIRED - REFERENCES			

1. At the time of his recruitment in June 1965, QREBONY/1 was told that his \$600 monthly tax-free salary would be raised to \$800 once he got a job in a target organization, which of course was the goal of his planned summer activity in Algiers.

2. Through no fault of his own, the Algiers assignment (and other possibilities, such as Djakarta) evaporated shortly thereafter. Meanwhile, WOPACT changed its signals and eventually decided to base QREBONY/1 in Europe targeted against individuals and groups in various countries.

3. From the beginning, QREBONY/1 has proved more than satisfactory as an agent. He has carried out assignments given to him with knowledge and tact and the proper spirit, has used his own initiative as much as our guidance, and has not violated our instructions. No one will argue that he hasn't proved to be better than we collectively thought he would be, and in terms of his own abilities—apart from targets which may or may not be accessible to him—he is getting better all the time.

4. Last year, about a year later than QREBONY/1 might have expected his salary to go up from \$600 to \$800, we raised it to \$700. He was pleased, and he has not complained as much as he used to about a shortage of funds. (Presumably QREBONY/1 is responsive to the generally good treatment he has had, to the respect for him as an individual and the appreciation of his services; probably he is carried along as much by his own personal satisfaction in knowing he is meeting requirements and continually breaking new ground.)

5. Nevertheless, LCPIFIT believes the time has come to raise QREBONY/1's salary to the promised level. We can all agree that we are still getting his services cheap; QREBONY/1 receives no quarters, living allowance, or educational allowance for his children. His increased gratitude, the relief he will undoubtedly feel at being able to reduce his present financial worries, are more than worth the extra \$100.

AFF. GIBSON C/VERGES -

Chers Madame et Monsieur,

Je m'empresse de vous faire savoir que j'ai fait citer la Société des NOUVELLES EDITIONS INTERNATIONALES pour l'audience du 13 avril prochain.

Or, je viens d'apprendre que celle-ci est mise en faillite et que Monsieur PINTA, Syndic de faillite, a été nommé par jugement du Tribunal de Commerce.

Je ne vois pas, dans ces conditions, l'intérêt que vous avez à poursuivre le paiement de sommes qui vous sont dues par cette Société dont le passif dépasse de loin tout actif.

Voudriez-vous, je vous prie, me donner vos instructions définitives compte tenu de cette situation.

Je vous indique d'ailleurs que vous pouvez produire à la faillite entre les mains du syndic, mais que bien entendu celui-ci vous demandera un jugement pour pouvoir inscrire votre créance toute théorique contre la Société qui, comme je vous l'indique plus haut n'a que des dettes et aucun actif.

J'attends donc de vos nouvelles et vous prie de croire, chers Madame et Monsieur, à l'expression de mes sentiments dévoués.

q At a meeting held on August 14, 1966, STANFORD mentioned that Robert Williams allegedly has \$1,000,000 available for the use of RAM.

NY T-10 advised on September 26, 1966, that STANFORD prior to moving to Philadelphia on September 18, 1966, discussed RAM and ROBERT F. WILLIAMS with him. According to the source, STANFORD has alleged WILLIAMS has money available for RAM.

During the course of the conversation, STANFORD stated that the contact man between RAM in the US and R. Williams' is one Richard GIBSON in Paris, France. STANFORD stated that GIBSON passes on messages from WILLIAMS and will be the man contacted by whoever is designated as a courier to go to China to get the money.

Source also stated that he was told Richard GIBSON was living in the OME Crystal Hotel (phonetic), Paris, France, and was working out of the La Royale Cafe (phonetic), Paris, France.

INFORMATION CONCERNING

A source of this Bureau who has furnished reliable information in the past recently advised that during the Fall of 1966, a member of an Italian pro-Chinese Marxist-Leninist organization stated that one Richard Gibson was suspected of being a spy for the Central Intelligence Agency. According to this individual, Gibson recently had been in **Milan, Italy**, in the company of a female secretary from Paris, whose home is in New Rochelle, New York. At that time Gibson remarked his travel and activities were possible because he had married a wealthy English woman. Other things were said which aroused the suspicions of the Italian.

According to our source, the Italian pro-Chinese Marxist-Leninist subsequently relayed his suspicions concerning Gibson to Rene Raindorf, a member of the Central Committee of the Communist Party of Belgium (Marxist-Leninist). Raindorf reportedly thereafter met in Brussels, Belgium, with Gibson although he had indicated the Belgian pro-Chinese communists would look into the charges of the Italian Marxist-Leninist.

- II The arrangement between the cover firm and GREGORY/1 should be on the basis of a regular subvention to GREGORY/1 to act as a foreign stringer contributing feature-type material to the press service. An agreement having been ostensibly entered into by GREGORY/1 and the cover firm during the former's trip to the U.S. (expected around 20 July), a regular monthly check should be forwarded to GREGORY/1 by the cover firm, along with any correspondence it may see fit (suggestions for pieces to write, comments on pieces received etc.)

III The following steps are proposed to set this cover in motion:

- A. At a meeting on 6 July, GREGORY/1 will be instructed to write a number of U.S. news media organizations stating that he expects to travel to the U.S. shortly, describing his news background and indicating he would be interested in developing some outlets for his writing. The cover organization is one of those addressees.
- B. CIA's contact in the cover organization receives this letter and, pursuant to our direction, writes an answer stating 1) what his firm does, 2) that it would be very interested in handling GREGORY/1's product if it seems to fit the needs and 3) that it would be ready to reimburse some of GREGORY/1's expenses if he could come to Chicago to discuss the matter further.
- C. GREGORY/1 does not meet the contact in the cover organization. He is briefed to offer the story, on his return, that he had entered into a regular arrangement with the cover firm to produce feature material usable by the cover firm (not specifying the frequency) in return for which he is to receive a monthly retainer.
- D. Any letter GREGORY/1 may later wish to send to the cover firm should be given to us in copy preferably before it is sent.
- E. Copies of any correspondence initiated by the cover firm should be made available to CIA and, particularly, to the Project Case Officer.

MEMORANDUM FOR: Deputy Director for Plans

VIA: Chief, CCS/WC

SUBJECT: Request for Approval for Operational Use of
U.S. Free-Lance Writer - QREBONY/1

1. This memorandum submits a recommendation for your approval pursuant to CSI 240-6, 10 January 1963, paragraph 6, governing operational involvement of personalities in the field of journalism. This request concerns cover support for QREBONY/1, an asset currently handled by CA Staff, and involves the cooperation of Russell R. DeBow, a Chicago city official and proprietor of the Negro Press International Inc. QREBONY/1 was granted a POA on 23 May 1966, and a full operational approval is pending. The project under which he is handled was approved by Acting AEDP on 14 June 1966. Mr. DeBow was granted a Covert Security Approval on 19 April 1966.

2. QREBONY/1 is an American Negro e-patriate journalist and author presently residing in London. He is the author of one novel and numerous contributions to a wide variety of publications, such as the Kenyon Review, Monthly Review, The Nation, The Liberator and others. He worked as a reporter for the Philadelphia Arro American in 1950, for Agence France Presse in 1959, for CBS in 1960 and, in Europe, for the now defunct, pro-Chinese magazine Revolution. As a result of broad contacts and acceptance among radical, pro-Chinese and Negro militant circles, he has offered valuable access to important targets spanning four continents, and has demonstrated considerable skill in elicitation and exploitation of contacts for intelligence purposes in the process. The immediate and paramount operational objective for this agent is to gain direct access to hostile political targets in North Viet Nam and China. The outstanding requirement to be met in support of this objective, and of his continued effective exploitation generally, is the development of a backstopped and viable explanation for at least a portion of his income, which presently derives almost exclusively from clandestine CIA support. The proposal outlined below represents the conclusion of considerable research, including an interview with Mr. DeBow, to identify suitable cover arrangements which would make possible this explanation.

SECRET

3. Mr. DeBow, a lawyer, is an Administrative Assistant to the Mayor of Chicago as well as a long time, if casual, contact of Domestic Contacts Service. His background includes assignment to the Intelligence Division of the Chicago police and cooperation with CIA in the course of a trip to Africa in 1961. Mr. DeBow also is part owner and in effective control of a very small feature syndicate in Chicago, the Negro Press International, Inc., which distributes rewritten news to Negro newspapers in the United States on a subscription basis.

4. On 20 June 1966, Mr. DeBow was approached by representatives of CA Staff and Central Cover Staff, acknowledging CIA connection, and interviewed with a view to determining the feasibility of using his service to backstop modest payments to **GREBONY/1** for real or ostensible contributions of feature stories and reporting. (Since the contact was made to develop information pertinent to the present request for DDP approval, the interview was conducted on a hypothetical basis: **GREBONY/1's** identity was not revealed nor were any commitments entered into.) This conversation, despite its limitation, demonstrated clearly that such an arrangement involving Mr. DeBow and his firm would be practical from Mr. DeBow's point of view and well suited to the needs of the **GREBONY Project**. Mr. DeBow grasped the problem involved and suggested various means by which he could plausibly implement a cover arrangement should this be our decision. He was made aware of and understood the incongruity between his and **GREBONY/1's** ostensible political positions, and stated that this need offer no impediment to creation of the type of relationship which would be involved. The nature of Mr. DeBow's feature service and its modest size clearly enhance its usefulness and appropriateness for our objectives. Mr. DeBow, in conclusion, expressed his agreement in principle to participate in this cover support activity should CIA, on further review of its needs, decide to proceed with a request for his cooperation.

5. In the light of the very favorable response from Mr. DeBow and the determination, from reviewing the outlines of his operation, that it would be a uniquely appropriate backstopping for **GREBONY/1**, your approval is requested to recontact Mr. DeBow and establish with him suitable cover

MEMORANDUM FOR: Director of Finance
VIA: Contract Personnel Division
SUBJECT: QREBONY/1 - Amendment of Memorandum of Oral Commitment

1. The Memorandum of Oral Commitment with QREBONY is amended effective 15 June 1966 to provide indemnification in the amount of \$10,000 in case of death, and payment of \$600 per month up to \$10,000 to his wife in case of total incapacitation or disappearance.

2. It is anticipated that a trip planned for late summer or early fall will take QREBONY into VC controlled areas of South Vietnam, North Vietnam, and China. Indemnification is intended to apply to death or disability resulting from air accident, act of war, or for disappearance.

3. Without being able to specify the possible circumstances, it is intended that such indemnification as outlined above be deemed to apply to loss of life or functions suffered by QREBONY as a direct result of his KUBARK relationship during the trip. Such indemnification, if made, must be presented to his widow by a cover mechanism which would hide KUBARK involvement.

PROVISIONAL OPERATIONAL APPROVAL

MEMORANDUM FOR: Chief, CA/CP - James Murphy	NUMBER 201 - 312652
SUBJECT	OPERATION/1
REFERENCE: Your Memorandum, Dated 10 February 1966 . Jab	

A Provisional Operational Approval is granted for the use of this Subject as set forth below.

A Provisional Operational Approval issued by CI Staff grants the same authority, on a temporary basis, for the use of an individual as the authority granted in an Operational Approval unless otherwise specified by CI/OPA. It is based, however, only on preliminary file checks and investigation and is subject to a further final review when all investigation is completed.

(1) POA is granted to utilize Subject in an international context to exploit his contacts and/or associations with a wide variety of personalities and organizations (particularly Cuban and Chinese) engaged in "anti-imperialist" propaganda operations. Subject will be expected to renew his old relationships and expand his circle of contacts with Afro-Asian national liberation leaders, pro Chinese Communist, and similar personalities and to report general political and biographic material relative to the interests, activities and plans of such individuals and their organizations.

(2) Requirements passed to Subject will be confined, insofar as it is operationally feasible, to instructions for the refinement and completeness of the reporting he is capable of providing from his normal intercourse with source personalities. Disclosure of classified information will be held to a minimum, he will not be given operational assignments supporting or servicing other KUARK operations, nor will he participate directly and/or wittingly in the spotting and/or recruitment of other agents.

(3) In addition to this background, certain of Subject's past statements and behavior are inconsistent with, and give rise to an uncertainty about, the nature and degree of his presently professed motivations and loyalties. It is impossible to resolve this uncertainty with the knowledge now available. At the present time, therefore, it is believed that his bona fides have not been established to an extent which would warrant handling him in any way than "at arms length".

X To process the Operational Approval, full information (completed PRQ Parts I and II) must be submitted as soon as possible and not later than six (6) months from this date. An Operational Approval will follow when all investigation is completed and upon the receipt of satisfactory PRQ Parts I and II. Cancellation must be requested if use of Subject by interested Divisions ceases.

APPROVAL

CI/OPERATIONAL APPROVAL AND SUPPORT DIVISION

23 May 1966

Continuation of PCA - 201 - 306052 - 23 May 1960

(4) This case has been discussed in detail on several occasions between representatives of CI/LA, CI/ICG, and CA/CE and there is agreement that it is primarily because of Subject's background and contacts that he is of interest and, therefore, it is believed, if he is handled with circumspection, the possible benefits to be derived justify the security risks involved in the use of Subject within the limits set forth above.

(5) Polygraph is recommended at least once a year.

		ENCLOSURE

1. We are manifesting reports and correspondence concerning QREBONY/1's new contact, **Carole Piña**, an American, age 31, born in **New York City (possibly Bronx County)**, whose father's last name was **Appel or Appell**. Her husband's name is **Carlos Piña** (Mexican), but she is separated from him and he is seeking a divorce. She holds US passport, No. D633873, issued 5 August 1963 in New York; it comes up for renewal in August (at which time she expects to be in Zone). She is afraid that her having traveled to Cuba in 1964 with a Progressive Labor delegation will hurt her chances of getting a renewal of her passport.

2. Subject had been having a series of political and amorous affairs during her stay in **Dar**, and was in serious trouble when Q met her. After rejecting Dennis Thombeash's advances, she was in serious danger of being declared a prohibited immigrant; Q befriended her, and he and Colman Ferrer of the **Cuban Embassy** (who had been having an affair with her) saw that she got out of **Dar** safely. Q was to meet her in Cairo (but in fact had no intention of doing so) and later caught up with her in Rome. She indicated a desire to work with Q (without quite knowing for whom she would be working—he hinted rather broadly to her that he was in cahoots with "our friends in the East," but it will be noted that in one of her letters there is this disarming phrase: she warns him about how to deal with certain persons and adds: "Be cool with them—do not show your true colors (whatever they are)").

3. Q seized on the opportunity of using subject as **an unwitting informant** and eventually agent on the same basis. She submitted to an interview on tape in a Rome hotel room which lasts about 2-1/4 hours, in which Q debriefs her on her knowledge of every **Tanzanian, liberation movement, or Bloc personality with whom she had contact**, and in view of her attractiveness and willingness she inc quite a few. (She had some amusing run-ins with ODUKE personnel in **Dar**, which we shall edit out of the tape only for a fee.)

4. Q feels that she is emotionally unstable--his firmness in dealing with her, his making it clear he was not out for her body, have made him a guardian and true friend. She seems to be a good political reporter, understanding her own (confused) political yearnings and where her various contacts stand; she also seems to have a good memory for details. Q says that her "anti-revisionism" is incipient anti-Communism. He could eventually recruit her as an ODYONE witting agent, but that would take a lot of time and trouble; with much less effort he could effect a **false-flag recruitment**, and indeed, he has already done this on an informal basis by making it clear that he was collecting material for his Chicom friends. She would undertake further assignments for him. He actually asked her, "Suppose I asked you to go somewhere, would you go?" To which she replied, "If it's not cold." It is unlikely, however, that she would be able to return to **Dar** because of Phombeah's hostility. Wherever she goes, her main asset will be her physical attraction.

5. She could be debriefed further on any point raised in the tape interview. The ideal would be to have the questions by the time Q goes to Rome in the second half of April, but this does not seem to be a likely possibility.

1. A number of lengthy and fruitful discussions have been held with JAGUAR officers regarding our continued running of QREBONY in the U.K. Their comments on the quality of QREBONY's reporting have been reported from time to time. Similarly, we will not dwell here on the mechanical arrangements we have evolved (with SMOOTH's agreement) to expedite the passage of information to JAGUAR, on the one hand, and avoid duplicate reporting (principally by passing the same materials as CS disseminate to SMOOTH) on the other hand. Suffice it here to say that achieving both of these goals, without compromising QREBONY as a source throughout both JAGUAR and SMOOTH (due largely to the wide range of areas he reports on), is a complex problem. We think we have reached a mutually satisfactory arrangement for achieving both aims.

2. What we are concerned with here, then, is JAGUAR's permission for us to run QREBONY from here, for the time being at least. The exact phrasing from JAGUAR's letter, agreeing to our request is: "With regard to the continued use of QREBONY by your service on a temporary basis while he remains in this country we have no objection to this provided we are kept fully informed of as much detail as possible."

3. JAGUAR pointed out that QREBONY operates in the same areas as some of JAGUAR's own agents, and this necessitates a fair amount of frankness regarding his activities in the U.K. We have made every effort to date to display to them that frankness. In return, JAGUAR has been cooperative, if not downright helpful. In one of our discussions, SMILL confidentially stated that one of their sources had quoted a sub-source as saying that QREBONY had admitted to him that he is a KUBARK agent. We assured JAGUAR that QREBONY is under instructions not to reveal his KUBARK relationship, of course; that QREBONY is not supposed to be recruiting any sub-agents and has not done so; that the remark could well have been made in jest, in reference to the charges levelled against QREBONY three years ago (or longer). We told JAGUAR that it would obviously be advantageous for us to know to whom QREBONY is alleged to have made the statement, and we would be grateful if JAGUAR could tell us. We have repeated this request in writing, but with no reply to date. SMILL stated at the time that he had doubts about whether they could identify to us the person who had made the statement; he was sure that they could not go back to their agent for elaboration without showing an undue interest in QREBONY. We may yet hear who the person was. All this is repeated here merely to indicate how far JAGUAR will go to be helpful, and how far, to date, they will not go.

MEMORANDUM FOR: Chief, Central Cover Staff
SUBJECT: Cover Arrangements for QMONEY/1

This memorandum contains information solicited by CCS to implement cover arrangements, already proposed by CA Staff and approved by DDP, involving Russell R. below of Chicago and CA Staff asset QMONEY/1. It is keyed to the headings set forth in the "Nonofficial Cover Request for Individual, Headquarters Edition."

A. General Information

1. QMONEY/1 (previously carried as SIEBON). No previous request has officially been forwarded for cover support.
2. Currently a Contract Agent. Currently compensated at the rate of \$7,200 per year with a \$1200 nonaccountable allowance.
3. Agent has not nor will be reviewed by the Agency's medical psychiatric assessment and evaluations Staff. He is already overseas and will remain there.
4. The Agent uses a complex of related cover stories, based primarily on exaggerated implications of fact: Basically, that his income derives from free-lance journalism and money available from his wife's family. Some quarters suspect or believe that he may possess funds from the **CIA**, but this has never been alleged by the Agent himself.
5. Agent is available now for cover.
6. Agent is overseas.
7. QMONEY Project.

B. Biographic Information

1. DOB: 13 May 1931, Los Angeles, California; N; Negro; None; U.S.; No prior citizenship; Married; 3 children; 30 Stockleigh Hall, Prince Albert Road, London NW 8.
2. Adult and minor dependents are already in place and sharing the same residence. No readily available biographic information. He has 2 sons and one daughter, ranging in age from one to ten years.

4. Reporter, Philadelphia Afro American 1950; Miscellaneous: public relations--Italian Film Export 1951; 1952-54 U.S. Army; 1957-58 Agence France Presse, Paris; 1960-61 CBS news, New York.
5. M.A.
6. Perceptive, aggressive but effective in personal relationships, literate.
7. Agent has fairly sizeable, but not pressing, debts to his in-laws. He lives modestly within his income from us.
8. Has resided only in U.S., Algiers, Paris and London, although he has travelled widely in other areas.
9. Fluent in French, competent in Italian and Spanish, and can read German.

C. Security Considerations

1. Agent has been receiving CA support for 13 months. FOA granted 23 May 1966 with caution requiring care in view of the considerable derogatory information developed as a result of the Agent's past association with left-wing and radical organizations.
2. Agent is aware of U.S. intelligence interest, has not been explicitly apprised of CIA involvement but no doubt suspects it.
3. Agent has never entered any installations associated with CIA.
4. There is no U.S. identification of the Agent with CIA outside of Staff personnel. British Intelligence (see paragraph 5 below). His wife (whose family resides in England) is unwitting.
5. The Agent is known in true name to **the MI-5 and MI-6 of the United Kingdom.**
6. None. It should be noted that the contemplated cover will not be a relationship which the Agent (any more than the cover) will proclaim or flaunt, given the fact that in his highly anti-American circles, such a connection would be regarded as unsavory. The purpose of the cover is to backstop the Agent's story that he receives income from back journalism which he keeps separate from his "real" if warewarding involvement with radical politics.

A. QR-BONY/1 (Q) gives the convincing impression that he is at home in his new work. He responds well to suggestions and instructions, adds suggestions of his own for improving the plan-- an indication that he wishes to please. In the beginning he showed a tendency to raise minor objections involving personal material problems (e.g., inconvenience to family life or a long tdy) but less of this was remarked as he came to realize that requirements were to be reasonable and he was to be treated as a human being with his own problems.

He has stated that he would not continue his present involvement with target personalities and institutions if it were not that we wish him to, i.e., his own inclination would be to withdraw from the political fringe. Rodigast feels that this is consistent with his background, which was not a party career; in his youth he was willfully apolitical and hostile to the "movement"; later he was involved in opposing party people in his New York work; in Paris he didn't get along with his party friends (the affair of the forged letter) and of course broke with the magazine crowd there.

He seems to be genuinely committed to working against enemies of ODYKE, ready to accept even deeper commitment; he has expressed no reservations as to what he will do. He doesn't object to reporting on old friends, fellow FBPRIMERS, et al. He raised no objection to PLUTON, or using s/w techniques (which he took with him on a trip to what was then a very hostile area, where he had known enemies, and where there was a recent history of dealing roughly with outsiders). When orders conflict with personal desires (for example, when he planned to spend a weekend in a city he enjoys but was told he should proceed immediately to his next stopping place), he obeys without hesitation.

The foregoing is a collection of miscellaneous facts, but taken together they paint the portrait of a promising agent, both in terms of motivations and abilities.

B. Rodigast's knowledge of Q's attitude in the months prior to recruitment (June 1965) is limited. Rodigast has the impression Q had simply reached the end of his rope-- he had nowhere to go, he had earlier decided that he would like to work for or at least cooperate with ODYKE (although earlier attempts to make contact met with no success). The humane treatment received at the hands of his recruiter, the subsequent sympathetic handling by his case officer, undoubtedly convinced him that he had not made a mistake.

The material factor is not to be underestimated. The demoralizing position of living on his wife and worse, on her family, must have lowered his resistance to any possible alternative. Rodigast simply doesn't know how Q might have responded to a reasonable offer from enemies of ODYKE at that point. The prospect of immediate engagement at a decent wage may have been decisive.

Since that time, Rodigast feels Q's motivation has been reinforced and perhaps considerably altered: he has been asked to do obviously necessary tasks, and so he can feel he is needed by someone; he has been given reasonable instructions on how to accomplish them; he sees that others are concerned for his personal safety and material wellbeing. Rodigast has taken pains to avoid giving the impression that there was any confusion or error or difference of viewpoint in running the project (even at a time when there were plenty of all three); such problems were

PER-1 OFLA-3627

CS 6071

resolved before being taken up with Q, and thus he has a somewhat rosy view of the operation. The satisfaction of accomplishment (i.e., being able to produce useful answers to our questions) is surely a factor in his present attitude.

Though light-skinned, with a voice and accent which would be considered acceptable in any PEPEREL society, Q is extremely sensitive to the fact that he is a Negro. He has not said or suggested any such thing to Rodigast, but this is so obvious a factor in his correspondence (even discounting the extent to which the correspondence is part of his conscious cover) that it seems to Rodigast that it must be a factor in his life. On the other hand, Rodigast has known another Negro who was a close friend of Q (and now one of his major enemies, as a result of the Paris forged letter incident and contributing events) who was so sensitive about race that he makes Q in retrospect seem like an Uncle Tom.

Still, Rodigast does not believe Q could be handled by someone who is not genuinely a "nigger lover", i.e., who could not convey a convincing image of a person for whom a color difference was not a barrier (Q would surely detect the false "pal"). Q has mentioned anti-Negro prejudice as a reason for his refusal to cooperate with ODNY officers who talked to him while he was in New York. In fact, Q deals with his present case officer as a possible if not a true friend; they share an interest and involvement in writing, English literature, living happily abroad, etc.; Rodigast has tried to read Dante in the original and Q has done so; Rodigast would like to write a novel and Q has published one; Rodigast doesn't know much about the post-logical positivists who interest Q but probably gives a convincing impression that he would like to know about them, and just might be capable of understanding them. What all the foregoing means is that in Q we have an accomplished person, and it is a useful tactic to treat him if not as a superior than at the very least as an equal.

There remains the possibility that opportunistic reasons are primary: Q joined the organization and stayed with us because he could not do as well in any other job, could in fact get no job (because of his background, his alien status abroad, etc.). Rodigast does not exclude this, although he feels that whatever the original motivation, it has been strengthened and perhaps converted into something more worthy. But even if his primary motivation remains material, the history of the project over its first nine months suggest it is a viable one.

C. Q has lived in the underground for so many years without breaking that it is likely he will be able to continue to do so. He thinks fast, handles himself well in matters presenting security problems. He is not fully trained for clandestine activity. Rodigast's long meetings with him always include advice on one or more specific aspects of clandestine work, which when added up may be taken to represent a short course, but that is all. The lack of training has led Q to do or say things which Rodigast would not have wished him to do or say, and whenever possible this has been brought to Q's attention, and he seems responsive to such instruction.

Rodigast would not recommend that Q be given a training course, but this would not preclude more formal sessions with Rodigast during which Rodigast could give more complete instruction on various phases of clandestine work.

Q gives the impression of not being easily moved. He has already survived violent attacks, questioning by legislative committees and police (including abroad), public denunciation; now that he has KUBARK as a friend he should resist at least as well as before. One negative trait is his need to take revenge for injury, and this tendency must be controlled; his instinct to be spiteful to an enemy could conflict with a longer-range plan.

It is to be hoped that the present situation regarding his wife (who believes him to be working for the arch foe of PERRIM) will be possible to maintain. She doesn't like the situation much, but accepts it, and apparently hasn't betrayed his "confidence". If he is moved to another city which both Q and his wife would consider agreeable (Rome) she would probably be even happier and less likely to revolt, especially if a quarters allowance helped them get out of their present financial straits (they can pay rent and buy food but not save or repay debts— so his wife says he is doing an unpleasant thing without even being able to say they are better off than they were in Paris). If he were sent to a less agreeable place for six months or a year (say Dar) he would want to settle his wife in a desirable place (London but preferably Rome) for the children's schooling; here too her attitude would depend on their material position and on the possibility of his being able to visit on occasion (if he were in Dar, say, and she in Rome, he would return for visits— which would also be cover for his meetings with his case officer). Rodigast recommends that once in place, Q's basic wage be raised (as promised in June 1965) from \$600 to \$800, but that he also receive quarters and if possible an educational allowance.

D. Q says he is a local PERRIMER. He now does act like one. Rodigast feels the evidence for his loyalty is at least as good as it is for most other PERRIMERS he knows. Early in their relationship (probably mid-June 1965 in Paris) Q had said he had turned away from the revolutionary movement and toward his own country; even though there were opportunistic reasons for him to have done so, he is seemingly not anti-PERRIM. His views on Negro problems in PERRIM probably have not changed, but he never was a black nationalist, and has many friends, besides his wife, who are white). He might not agree with ODAYA policy in Vietnam, Cuba, or elsewhere— he obviously has not been questioned on his personal beliefs— but his dissent, if dissent there be, is not disloyalty, and in any case should not prevent him from executing KUBARK policy to the letter. Undoubtedly he has a leftist economic orientation, but there is no evidence that it is an orthodox Marxist one (or that it ever was).

He seems to like Rodigast; in any event they work well together. He has made no effort to develop a warm relationship with Rodigast, however, apparently feeling that this is not necessary, might not be appreciated, and would conflict with the compartmentalization so obviously kept in force by Rodigast (who hasn't told Q his true name, address, marital status, or any other personal fact which might lead to identifying him). Seemingly Q does not believe the name which Rodigast used at their introduction was a true name, for he didn't bother to remember it (the last name), and all this would tend to discourage the building up of a personal friendship.

It is probable that he respects rather than scorns KUBARK for its decent treatment of him. KUBARK through Rodigast has always kept its promises, Rodigast has never been a minute late for a meeting (Q has

rarely been a minute or two late, and in recent meetings--presumably because he feels that Rodigast's never-failing appearance on the precise second of the meeting must mean that this is required KUBARK practice-- he has been even more precise. Rodigast is always ready with a suggested solution to a security or other problem which will be faced by Q in carrying out a new assignment.

On the other hand, part of Q's satisfaction with KUBARK might derive from a feeling that KUBARK is a "soft touch". Rodigast does not recommend that anything be done to change Q's opinion (if he really does hold it); Rodigast feels that we are going to pay Q as much whether he likes us or doesn't, and for the same money we might as well make sure he likes us and will do his utmost for the organization rather than simply be a timeserver keeping up appearances. If given cause for resentment, his behavior is unpredictable, for he hasn't much to lose-- reputation for loyalty, good name, etc. One solution would be to give him enough so that he would indeed stand to lose much.

Q appears to possess a realistic, sane view of ODENNY, what its people are like, what can and can't be done by it. As already indicated, he seems to be as loyal a PBPRIME as other people who don't give much thought to the matter, certainly a lot more loyal than his background would lead one to expect. In any case, we have no recent evidence to contradict his statement that he considers himself to be a loyal PBPRIME; it may just be true. If it isn't, this won't make any difference to the project as it is understood by Rodigast.

Q is unlikely to hold sympathetic feelings for ODENNY, having had what he described as an unfortunate experience or two with them. On the other hand, he is sophisticated enough to assume that his reporting on PBPRIMES is of concern to ODENNY, and he must know that his own suggestion for tdy in PBPRIME to contact target institutions and old friends there would put him into ODENNY territory. He would probably accept any necessary collaboration without showing that he didn't like it.

E. Rodigast does not believe Q is at present working for another service, but it is difficult to know what would happen if another service approached him. Rodigast assumes he would report this to us, just as he reported in detail the overtures by two persons apparently working with the services of the country in which he resides. As part of the present operation involves the possibility that Q will in fact be approached by the opposition, and Q is aware of this, one assumes he is prepared to remain loyal to KUBARK; one would also assume he would recognize the heightened value of his services to us should he be approached by the other side and continue to remain loyal to us.

Q certainly would not agree to work for an opposition service for peanuts, but if offered a considerable sum of money (given that he just breaks even in his present arrangement with us, in the thinking of Q's wife), there is no telling what he would do. When recruited, Q was told he would get a raise once he got settled "in place" (to \$800), and when this promise is kept he will have enough extra money to begin to pay debts and buy clothing, and thus have more concrete evidence of the material advantages of his present arrangement.

Rodigast would be very surprised if Q agreed to work for an opposition service not for financial reasons but through ideology.

Q likes to live well. He believes in wearing good clothes, staying in good hotels, being able to invite others out for food and

drink. He says that in the revolutionary movement poverty is no virtue, but merely indicates lack of influence. He says that the most popular persons are those who can dispense money, alcohol, and women. This may well be true. It is certainly true that such a role would please Q immensely (that is, having a plush apartment in which he could entertain target personalities, satisfying KUBARK's requirements and his personal desires).

F. Q must be dealt with firmly, with continued serving of requirements and planned itineraries for trips. At the same time, it is obvious that he improvises well when left without instructions; he is versatile, and can create situations which will result in an intelligence product. Rodigast's method is to suggest reasonable plans and to be ready to show that they can be implemented, and how they can, anticipating objections.

While there is no evidence that if left alone Q would drift, dragging out an assignment to kill time, it is possible that he would. He has not written as many free-lance articles as Rodigast would have liked him to, because each requires thinking out a subject, gathering material, selecting a point of view and thinking of the public to which it would be addressed-- a lot of work for articles meant to serve mainly as cover, for publication in obscure organs, or perhaps merely to be used to convince editors that he was active. On the other hand, he produced the first issue of the newsletter in record time, following instructions to the letter (indeed, accepting what must at times seem like petty editorial changes made by Rodigast). Perhaps he produced the latter so efficiently because he saw in it added prestige, an opportunity to get his name back before the public in a respectable context.

Ideological motivation would not seem to be a level of control in his case. What is most important is his contentment with being (he hopes) a permanent part of a large organization, with a steady salary (he has never said this, of course); the power of ODYKE is less important than its known reputation for keeping its promise to pay, something one doesn't find among the opposition groups known to Q, and he finds new examples of this daily.

Doubtless, his tendency to bear a grudge is a factor here-- Q is now in a position where he can thumb his nose at some of his enemies.

Rodigast feels that considerate dealing with Q, letting him know where he is going, what he can expect, not changing the rules abruptly or pulling a rug from under his feet, letting him see the possibility of small but certain increases in material benefits in the course of his career, compose the ideal formula for handling him. In the course of time, the ideological factor, which is perhaps marginal at this time, would probably be reinforced, could one way be a major factor. Q, meanwhile, must feel that the persons who deal with him are concerned with his material wellbeing and also of his physical safety, appreciating the risks in his work and understanding that not all assignments will bear fruit. Our relationship with Q could be destroyed very rapidly if we failed to pay him as promised, or wasted his time with make-work, or gave him confusing or contradictory instructions which suggested that KUBARK was not the all-powerful institution he may now think it is.

G. Very early in our relationship Q said that he would like to make a career in KUBARK, outside now, perhaps inside some day. He would work in PBPRIM or abroad. There was no indication then, and has been none since, that he regards the present relationship as a distasteful one to be terminated as soon as conditions permit.

He would like to settle in an expatriate's paradise, such as Paris or Rome, presumably involved in journalism and other writing. If he could do these things in connection with his work for us, so much the better.

H. Q is conscious of the need for security and handles himself well--as well as an amateur could in this context. But he is far more naive about techniques and especially the nuances of technique than Rodigast would have expected in one who had been involved in the revolutionary movement for so long. He often needs instruction on obvious points, and responds quite well to it, the exception being his clumsy handling of the s/w method-- he is an intellectual and not a technician, and Rodigast assumes that he (Rodigast) would not do much better if forced to use some technical system.

Q is quite observant. He will recall a personal remark made to him by Rodigast from one month to the next. His reports written some time after the event are thorough and apparently accurate.

He read A Spy and His Master by Christopher Felix, and has mentioned it a couple of times when a remark by Rodigast reminds him of something said in the book.

Rodigast doesn't think that even after training Q would be very good at throwing off surveillance (for example) as he seems too matter of fact to be sly, and perhaps slightly lazy about what might be gratuitous behavior (e.g., changing subway trains or taxis just on the assumption that someone might be following him). Rodigast's solution is not to depend on Q for such things, but to attempt to plan nesting and stage other operations so as to minimize the need for dependence on Q's skill in such areas. After patient briefing Q does understand the need for tradecraft efficiency, and as already noted he follows the advice.

I. At first Q was quite concerned about money-- he needed an advance for clothes, for travel, etc. His requests were really plaints, and he may have left the impression that he thinks of nothing but money. It was the complex of a poor boy who never had anyone he could turn to--despite a scholarship he had to leave a fine college after a brilliant freshman year. Once he received his advance and began receiving his money at the beginning rather than at the end of each month, and when he realized that he would receive complete and prompt reimbursement of expenses, he began to relax. Now he submits accountings without himself totalling the figures or keeping his own record (Rodigast knows this for he has seen Q's notes), so he must rely on us to tell him how much he claimed for (even Rodigast would never do that). He is, in sum, relaxed.

The same ease is to be noted in his substantive work; he submits his reports knowing he has done his best, and done well; he accepts compliments with a very slight nod. When Rodigast first met Q in a hotel room, Q had something of the hunted man. He still seems harried, slightly nervous at the moment of contact, but on the whole he is more sure of himself.

At the outset, Q would argue about assignments, suggesting alternatives, worrying about not having time to buy tickets, or enough money to pay for them. Now he accepts instructions without a murmur,

even when they contradict a previous tentative plan. His excellent response to instructions may be his desire to please, his satisfaction with his job, or personal pride in accomplishment. Whatever the reason or reasons, the fact is that he does respond well.

It would prove very useful to us--both as a contribution to the preparation of the Project Outline now in progress and as a backgrounder for possible discussions of QREBONY's operational utilization--if RODIGAST could provide us with an interpretive assessment of him based on the impressions and judgements he has been able to develop over the past months. We have some such initial assessments, of course, and can infer more from current reporting. However, we would like to get the benefit of RODIGAST's unique and direct contact, now that QREBONY has passed through a breaking-in phase and settled down in a regular relationship which, at its inception, is certainly a difficult one for most people to adjust to. We would suggest the following outline of topics for RODIGAST to follow:

A. Estimate of loyalty to ODYOKO and QREBONY's psychological adjustment--his comfortableness--in working for ODYOKO clandestinely: his attitude, as RODIGAST can infer it, toward targets hostile to ODYOKO: in short, his ideological motivation.

B. Estimate of his motivation generally: his personal reasons for association with KUBARK.

C. Psychological suitability and staying power in leading a "double life". Possible or actual strains on him by virtue of his wife's attitude. Qualms about the "morality" of his position or fears about being found out.

D. His own views of his patriotism or loyalty. His attitude toward RODIGAST, KUBARK, ODYOKO and ODENVY.

E. His susceptibility to approach or control by an opposition service.

F. Methods of control to which he is most, and least, responsive. What represents the effective lever of his control--internal ideological
