ndicate significant strengths or weaknes. demonstrated in current position keeping in per perspective their relationship to verall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment m foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best pasis for determining future personnel action. Manner of performance of managerial or supervisory duties must be described, if applicable.

Subject has performed in a manner quite consistent with his long and broad experience in many aspects of the craft of intelligence, His senior grade, his special expertise in the field of propaganda and publication and his very high intellect have contributed to the division's operations in the public media field a sharp focus, an economical concentration of money and effort and a consequently heightened impact. In the WUHUSTLER project, Subject vindicated his faith in a moribund clandestine asset by demonstrating, after about a year and a half under his personal direction, that it is one of the most effective activities of its kind. Before Subject assumed direct responsibility for this project, it had suffered from visionary and diffuse direction and from poor case officer-agent rapport. Subject's personal handling of this operation is marked by excellent rapport and the project prospers on an entirely reoriented basis which the agent himself enthusiastically welcomes.

Subject's supervisory responsibility has extended over two secretaries, from one to two professional staffers under official cover and three professional career employees under unofficial cover. The fairness and precision of his management has patently won their respect and inspired their performance.

Attachment to Fitness Report of Howard Hunt 31 March 63 - 31 March 64

Section C (Continued)

Special mention should be made of Subject's objectivity and integrity in carrying out his responsibilities. These were best demonstrated when he promptly and swiftly terminated a large and effective radio broadcasting project, to establish which he and his subordinates had labored hard, immediately upon belated discovery that insuperable, practical obstacles precluded realization of the project's theoretical potential.

Subject's professional background has attuned his constant attention to FI operational opportunities arising in the course of his current CA activities, a practice consistent with his habit of seeking maximum benefit for every dollar spent in time, effort or cash.
