MEMORANDUM FOR: Director of Security

SUBJECT

: Commendation

1. The Committee on the Security of Headquarters Building in a series of twelve meetings between May and August 1969 conducted a detailed study and analysis of each facet of security of the Headquarters Building. I know that considerable time and effort were given to preparation of the detailed briefings, supplemental studies and reports, contributions to the formal report and implementation of the recommended corrective measures. I am appreciative of the efforts and contribution made by your staff to this important piece of business. Although I am sure that many of your staff have worked on this project, my attention has been drawn particularly to these officers:

Buckley, Robert
Carrico, H. Cliffon
Ellion, Robert N.
Farrell, Francis M.
Fennessey, Robert E.
Geiss, Ermal P.
Good, Charles B.
Green, James P.
Griffin, Robert B.
Hayes, Robert J.
Herliby, John F.

Kane, Edward J.
King, Joseph F.
Mantoni, Rudolfo
McCord, James W., Jr.
McGinn, John B.
O'Connell, James P.
Parr, Laurence
Petit, Alan F.
Sallivan, Arthur H.
Todd, Orin H.

 I would appreciate it if you would pass this commendation on to the individuals concerned. Copies of this commendation have been forwarded to the Office of Personnel for inclusion in the Official Personnel File of each of the above officers.

> R. L. Bannerman Deputy Director for Support

MEMORANDUM FOR: Deputy Director of Security for Physical,

Fechnical & Overseas Security

ATTENTION

: Chief, Technical Security Division

SUBJECT

: Security Presentation - Support Course

1. The Office of Security presentation at the Warrenton
Training Center on 2 March 1967 was extraordinarily well received.
Colonel Winters, Commanding Officer, WIC, has informed me of
a number of superlative comments by those in attendance.

- I want to express my appreciation to Messrs. James McCord, Alan Petis, and Carroll Melkerson for their most effective presentation on audio countermeasures. It was a highlight of the program and contributed immeasurably to its success.
- 3. I'd like to express a special word of thanks to Mr. William Herron, for his splendid support in preparing visual aids for the program on extremely short notice. I am aware that Bill worked long hours over the preceding weekend and virtually all night on one occasion in order to ensure the success of this program, while fulfilling heavy commitments to get audio covatermeasures teams into the field.
- 4. I can be justifiably proud of the success of the presentation, and attribute this success in large part to the extraordinary team effort by the Office of Security components involved. Please extend my personal commendation to Mesors. McCord, Petit, Melkerson, and Herron and advise them that a copy of this memorandum will be placed in their Official Personnel Files.

100

Howard J. Coborn
Director of Security

MEMORANDUM FOR: Director of Security

SUBJECT

Quality Step Increase -James W. McCord, Jr.

- Mr. James W. McCord, Jr. joined the Central Intelligence Agency, Office of Security, in August 1961.
- 2. He has served successfully in various capacities in the Office of Security as an Investigator, Deputy Chief, Security Research Staff. Regional Security Officer, Germany, and upon his return from overseas, he attended the Air War College, where his overall performance was rated as outstanding.
- For the past year, Mr. McCord has been serving as Chief, Technical Division.
- 4. Through Mr. McCord's imaginative planning, guidance, and direction, the Technical Division has developed numerous improvements in both instrumentation and techniques which have greatly enhanced the Agency's capability to detect clandestine microphones and other devices targeted against the Agency both domestically and overseas. It is, therefore, recommended that he be granted a Quality Step Increase.

Ermal P. Geiss Deputy Director of Security (PTOS)

HEADQUARTERS
UNITED STATES ARMY, EUROPE
Office of the Provost Morshol

\$200 100, U.S. Jones

5 May 1964

Dear Jin:

Europe will terminate in late 'ay when I leave Europe to undertake new duties in Washington, D. C. 'y association with you and your staff has been a richly rewarding experience, both personally and professionally. The manner in which you have unobtrustively, yet effectively, served as the catalyst which welded together the activities of the many staff and operational agencies which share an interest in our national security, has been a source of continuing inspiration to me. Your efforts have enjoyed by unqualified personal support and have merited the admiration of those members of my staff who have been privileged to associate with you.

You have dramatically demonstrated a capacity for bringing together key personnel of agencies who seek, in the accomplishment of their individual missions, the realization of a common goal, in a manner calculated to preserve the individual integrity of each agency while emploiting those benefits of cohesiveness so essential to manimum, effectiveness, indful that the application of a prescribed technique without adding the complementing ingredient of your confidence inspiring and personalive personality would not have achieved the same measure of success, I unlestatingly ascribe our abundant joint accomplishments to your generous personal contribution.

Burnes

"by future relationships with your associates will always reflect; y additation for the manner in which you have contributed to the attainment of our national aims and the manner in which your personal efforts have precipitated a more significant contribution from the other agencies with which yours has been associated.

Sincerely,

Brig Gen USA

Provost arshal

APO 757, US Forces

Dear Mr. Stewart

On the departure of Mr. James W. McCord I wanted you to know of OSI's appreciation for his constant support and cooperation during his tour. He has given us valuable assistance in the performance of our mission.

We appreciate also Mr. McCord's constant efforts to create unity of purpose and action among the many security and counterintelligence agencies in the area. Through his efforts new liaison avenues were opened to OSI which, on several occasions, facilitated the completion of our tasks. His efforts in contingency planning also were noteworthy.

OSI in USAFE will miss Mr. McCord. Please extend our good wishes to him and Mrs. McCord for continued success in their endeavors.

Sincerely

Colonel, USAF

Deputy Director (USAFE)

HEADQUARTERS 513TH INTELLIGENCE CORPS GROUP Office of the Commanding Officer A PO 757 US Forces

AEUMC-SD

5 June 1964

SUBJECT: Letter of Appreciation

TO:

Mr. James W. McCord

United States Army Area Security Component APO 757, US Forces

- Upon your impending departure from overseas assignment, I wish to take this opportunity to express sincere appreciation on behalf of the 513th Intelligence Corps Group for your splendid cooperation with this organization.
- The conference held by security officers in this area on a
 monthly basis, which was established largely due to your efforts, has
 provided an excellent opportunity for closer coordination, exchange of
 information, and integrated operations; and has resulted in benefits to
 the overall security missions of the United States agencies in this area.
- Your professional competence, coupled with your cheerful
 approach to problem areas, has benefited all of those who have had the
 opportunity to work with you. I feel certain you will render distinguished
 service in your new assignment, and I wish you every success for the
 future.

UNITED STATES ARMY SECURITY AGENCY EUROPE OFFICE OF THE CHIEF AND THE

IAEINT-I

5 June 1964

BUILDECT: Letter of Appreciation

TO:

Mr. James W. McCord, Jr. Chief, Security USAASC APO 757, US Porces

- The news of your departure to a new station in the USA has been received with regret; your contributions in the intelligence community will be missed. At the same time it is gratifying to learn that you have been selected for such an important assignment of which you are most deserving.
- 2. I wish to express my appreciation for your efforts in organizing the Frankfurt Security Officers' Conference. I am aware that through your initiative and tenacity this organization expanded in size until all security and intelligence units in the Frankfurt area were represented, thus comenting their combined efforts into one aphere of cooperation. This, I am sure, has contributed immeasurably to the overall security mission of this community.
- 3. I also wish to specifically thank you for the security lecture you presented to members of my command in England. There have been many favorable comments received from personnel hearing that prementation, to the effect that the lecture indicated a very broad range of knowledge on your part and that it was presented in a truly professional manner.
- 4. The fine cooperation you have extended to personnel in my S2
 Division has been of the greatest assistance to my command and all have
 voiced their appreciation and satisfaction concerning their association
 with you. I wish you the best of luck and success in your new endeavor.

JANUS H. KELLER Colonel, AIS Chief

Soviets. The inquiry by the Commission was perfunctory and did not involve an interrogation in the intelligence sonce. The crew was then transported to Astara on the Soviet-Iranian border on 7 July 1958 and turned over to the American Air Attache.

On 2 July 1958 this Agency received information indicating that the Soviets might be considering releasing the nine fliers. Since no date or place of release was indicated, cables were sent to the various peripheral CIA stations around the Soviet border indicating the possibility of impending release. The Air Force agreed to alort its Air Attaches in the same areas of the possibility of impending release. At the same time a team of Agency personnel, including a medical officer, an Air Naritime officer, and two representatives of the Security Office were dispatched to Wiesbaden from Headquarters in anticipation of the release of the fliers. Three hours after the team arrived in Germany, the place of release was learned from the Soviets to be Astara on the Soviet-Iranian border, and a USAFE plane was dispatched that hight from Wiesbaden with the Air Maritime team member abound destined for Teheran to await the turnover of the American fliers at Astara. The fliers were turned over on 7 July 1958, were immediately flown to Wiesbaden, Germany where an initial joint CIA-AF debriefing of them was begun, and where initial press interviews were held, following careful briefing of the crew as to the text and limitations to be observed. Two days later, two members of the crew, one of whom was Major Shupe, a CIA employee, were permitted to give an interview to the Paris representative of Time-Life. Hembers of the CIA team were present during these press interviews, under appropriate cover arrangements, to furnish guidance to the CIA personnel.

Following the initial debriefing, the entire crew was flown to Washington, D. C. on 18 July 1958, for a more extended debriefing. These debriefings were completed on 6 August 1958 and covered the various aspects of possible compromise of the security of CIA personnel, operational and cover units activities, as well as various positive intelligence and counter-intelligence matters.

The three CIA men aboard the plane were extremely knowledgeable of highly sensitive Agency operational activities and of the identities of numerous CIA personnel. Colonel Braunon, as Commander of the CIA Air Support Operations in Europe, was knowledgeable of CIA operational activities on a world-wide basis, with many of these projects being extremely sensitive. Colonel Braunon and Major Robert Crans each carried briefcases containing classified material, and Braunon carried an address book containing several names, addresses and telephone numbers of CIA personnel and cover units. The two briefcases are believed to have been destroyed by the fire in the aircraft after landing. The address book of Braunon was taken from him by the Soviet

SECRET

- C. Steps were taken immediately by the German-Station afterthe downing of the C-118 to change the combinations of the safes and locks in the buildings to which the crew had access.
- D. The three men from this Agency who were aboard the flight, Brannon, Grans and Shupe, and the aircraft commander, Lyles, are being removed from the German area, being returned to the U.S. The three CIA grannen are being returned to duty with the Air Force from the Agency.
- E. Steps are continuing to be taken to properly safeguard agency interests and personnel in regard to names of Agency personnel who appeared in Brannon's address book or in other notations appearing in any papers carried by other members of the crew.

RECOMMENDATIONS:

- A. Continue to take all possible steps to prevent any disclosure to any unauthorized persons, particularly the press, about the CIA personnel aboard the C-118, or the true nature of the flight.
- B. Continue to take all possible steps to change the cover designation of the units appearing in Brannon's address book to prevent any further compromise of these units.
- C. Permit no further publicity about the flight itself, in order to minimize the possibility of the press learning of the CIA interest in the flight of the C-ll8.
- D. Carefully follow all matters relating to the International Court of Justice interest in this flight, in order to prevent any compromise of Agency interests.
